Society and Culture in Early Modern France Natalie Zemon Davis, 1975 These essays three of them previously unpublished explore the competing claims of innovation and tradition among the lower orders in sixteenth century France The result is a wide ranging view of the lives and values of men and women artisans tradesmen the poor who because they left little or nothing in writing have hitherto had little attention from scholars The first three essays consider the social vocational and sexual context of the Protestant Reformation its consequences for urban women and the new attitudes toward poverty shared by Catholic humanists and Protestants alike in sixteenth century Lyon The next three essays describe the links between festive play and youth groups domestic dissent and political criticism in town and country the festive reversal of sex roles and political order and the ritualistic and dramatic structure of religious riots The final two essays discuss the impact of printing on the quasi literate and the collecting of common proverbs and medical folklore by learned students of the people during the Ancien R gime The book includes eight pages of illustrations *Society and Culture in Early Modern France* Natalie Zemon Davis, 1975 **Society and Culture in Early Modern France** Natalie Zemon Davis, 1965

Society and Culture in Early Modern France Natalie Zemon Davis, 2021 These essays three of them previously unpublished explore the competing claims of innovation and tradition among the lower orders in sixteenth century France The result is a wide ranging view of the lives and values of men and women artisans tradesmen the poor who because they left little or nothing in writing have hitherto had little attention from scholars The first three essays consider the social vocational and sexual context of the Protestant Reformation its consequences for urban women and the new attitudes toward poverty shared by Catholic humanists and Protestants alike in sixteenth century Lyon The next three essays describe the links between festive play and youth groups domestic dissent and political criticism in town and country the festive reversal of sex roles and political order and the ritualistic and dramatic structure of religious riots The final two essays discuss the impact of printing on the quasi literate and the collecting of common proverbs and medical folklore by learned students of the people during the Ancien R gime The book includes eight pages of illustrations *Society and Culture in Early Modern France* Natalie Zemon Davis, 1977 **Vagrancy in English Culture and Society, 1650-1750** David Hitchcock, 2016-07-14 CHOICE Outstanding Academic Title 2017 The first social and cultural history of vagrancy between 1650 and 1750 this book combines sources from across England and the Atlantic world to describe the shifting and desperate experiences of the very poorest and most marginalized of people in early modernity the outcasts the wandering destitute the disabled veteran the aged labourer the solitary pregnant woman on the road and those referred to as vagabonds and beggars are all explored in this comprehensive account of the subject Using a rich array of archival and literary sources Vagrancy in English Culture and Society 1650 1750 offers a history not only of the experiences of vagrants themselves but also of how the settled better sort perceived vagrancy how it was culturally represented in both popular and elite literature as a shadowy underworld of

dissembling rogues gypsies and pedlars and how these representations powerfully affected the lives of vagrants themselves Hitchcock's is an important study for all scholars and students interested in the social and cultural history of early modern England

The Oxford Handbook of Early Modern European History, 1350-1750 Hamish M. Scott, 2015 This Handbook re-examines the concept of early modern history in a European and global context The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching research and scholarly publishing More recently however the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned The Oxford Handbook of Early Modern European History 1350-1750 provides an account of the development of the subject during the past half century but primarily offers an integrated and comprehensive survey of present knowledge together with some suggestions as to how the field is developing It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study The overriding aim will be to establish that early modern is not simply a chronological label but possesses a substantive integrity Volume I examines Peoples and Place assessing structural factors such as climate printing and the revolution in information social and economic developments and religion including chapters on Orthodoxy Judaism and Islam

The Formal and Informal Politics of British Rule In Post-Conquest Quebec, 1760-1837 Nancy Christie, 2020-02-06 Nancy Christie innovatively and significantly transforms the writing of Quebec history between 1763 and 1837 by locating Quebec within new British practices of imperial governance asserted in the wake of the Seven Years War Breaking with the conventional master narrative of the era as one of gradual integration between French and English speaking communities accompanied by incremental political and social liberalization Nancy Christie presents the six decades following the Conquest as a period of assertive British strategies for assimilating Quebec's French and Catholic majority and refurbished authoritarianism deployed to arrest the spread of revolution in the Atlantic world Brilliantly advanced this new narrative of post-Conquest Quebec builds upon entirely new research meticulously gleaned from over 20 000 cases from the criminal and civil judicial archives and a sustained examination of both official and unofficial political and social discourses This study charts both the British practices of colonial rule which sought the assimilation of non-British others through both formal modes of law and governance and the consumption of British manufactured goods and the contestation of these through the daily resistance of ordinary men and women In so doing Christie identifies Quebec as a case study with which to open a new trajectory in the wider study of the British Empire Her striking conclusion urges a shift in historical focus from the interaction between European colonizers and racialized others to the centrality of practices of rule designed to govern European subaltern peoples

Shadow Agents of Renaissance War Stephen Bowd, Sarah Cockram, John Gagné, 2025-10-01 Who were the shadow agents of Renaissance war In this pioneering collection of essays scholars use new archival evidence and other sources including literature artworks and other non-textual material to uncover those men women children and

other animals who sustained war by means of their preparatory auxiliary infrastructural or supplementary labour These shadow agents worked in the zone between visibility and invisibility often moving between civilians and soldiers and their labour was frequently forced This volume engages with a range of important debates including the relationship between war and state formation the military revolution or transformation of early modern military force the nature of human and non human agency gender and war civilian protection and expulsion and espionage and diplomacy The focus of the volume is on Italy but it includes studies of France and England and the editors place these themes in a broader European context with the aim of supporting and stimulating research in this field **Masculinity in the Reformation Era** Scott E.

Hendrix, Susan C. Karant-Nunn, 2008-05-01 These essays add a unique perspective to studies that reconstruct the identity of manhood in early modern Europe including France Switzerland Spain and Germany The authors examine the ways in which sixteenth and seventeenth century authorities both secular and religious labored to turn boys and men into the Christian males they desired Topics include disparities among gender paradigms that early modern models prescribed and the tension between the patriarchal model and the civic duties that men were expected to fulfill Essays about Martin Luther a prolific self witness look into the marriage relationship with its expected and actual gender roles Contributors to this volume are Scott H Hendrix Susan C Karant Nunn Raymond A Mentzer Allyson M Poska Helmut Puff Karen E Spierling Ulrike Strasser B Ann Tlusty and Merry E Wiesner Hanks **Re-framing Representations of Women** Susan Shifrin, 2017-07-05

Crossing disciplinary and chronological boundaries this volume integrates text and image essays and object pages to explore the processes inherent in gender representation rather than resituating women in particular categories or spheres as other scholarly publications and exhibitions have done Taking its lead from the Picturing Women project on which it reflects and builds the volume makes a substantial methodological contribution to the analysis of gender discourse and visibility It offers new and stimulating scholarship that confronts historical patterns of representation that have defined what women were and are seen to be and presents new contexts for unveiling what art historian Linda Nochlin has called the mixed messages of representations of women **Cultures in Contact** Dirk Hoerder, 2002-11-21 A landmark work on human migration around the globe Cultures in Contact provides a history of the world told through the movements of its people It is a broad pioneering interpretation of the scope patterns and consequences of human migrations over the past ten centuries In this magnum opus thirty years in the making Dirk Hoerder reconceptualizes the history of migration and immigration establishing that societal transformation cannot be understood without taking into account the impact of migrations and indeed that mobility is more characteristic of human behavior than is stasis Signaling a major paradigm shift Cultures in Contact creates an English language map of human movement that is not Atlantic Ocean based Hoerder describes the origins causes and extent of migrations around the globe and analyzes the cultural interactions they have triggered He pays particular attention to the consequences of immigration within the receiving countries His work sweeps from the eleventh

century forward through the end of the twentieth when migration patterns shifted to include transpacific migration return migrations from former colonies refugee migrations and distinct regional labor migrations in the developing world Hoerder demonstrates that as we enter the third millennium regional and intercontinental migration patterns no longer resemble those of previous centuries They have been transformed by new communications systems and other forces of globalization and transnationalism

Community without Borders: Scots Migrants and the Changing Face of Power in the Dutch Republic, c. 1600-1700 Douglas Catterall, 2021-10-25 This is a valuable book for anyone interested in the cultural meaning of preindustrial migration Arguing that early modern European migrants could fundamentally influence their fate and their adopted communities it explores the world of Scots migrants to the Dutch port of Rotterdam c 1600 1700 The heart of the study is a reconstruction of the social networks that Scots used to establish and sustain themselves in Rotterdam drawn from unusually rich narrative sources Through their social ties Scots also told stories and kept memories as they created complex identities encompassing Rotterdam Scotland and places further afield By shaping their relationships to Rotterdam Scots had a broad impact on their adopted home Their actions helped change Rotterdam s political religious and legal fabric and even tied Rotterdam to the wider Atlantic world

Navigating Reformed Identity in the Rural Dutch Republic Kyle Dieleman, 2025-10-01 Through an examination of Dutch Reformed church records and theological texts Kyle Dieleman explores the local dynamics of religious life in the early modern Dutch Republic The book argues that within the religiously plural setting of the Dutch Republic church officials used a variety of means to establish a Reformed identity in their communities As such the book explores the topics of church orders elders and deacons intra confessional and inter confessional conflicts and Sabbath observance as local means by which small rural communities negotiated and experienced their religious lives In exploring rural Dutch Reformed congregations the book examines the complicated relationships between theology and practice and lay and elite religion and highlights challenges rural churches faced As they faced these issues Dieleman demonstrates that local congregations exercised agency within their lived religious experiences as they sought unique ways to navigate their own Reformed identity within their small rural communities

Pastors and Parishioners in Württemberg During the Late Reformation, 1581-1621 Bruce Tolley, 1995 In recent decades research on the impact of the Reformation on popular religious life in Germany has sparked a controversy challenging the traditional assumption that Protestantism had a deep and lasting effect on all levels of sixteenth century life This study uses previously neglected archival sources the records of the Wurttemberg church visitations over a forty year period to investigate various areas of church life touched on by the debate The author examines the social and cultural nature of the pastorate as a professional group areas of conflict and agreement between representatives of the official church and the parishioners the nature of the church visitations and the standards and expectations of the visitors concerning lay religious life and discipline Church visitations were conducted to inform higher ecclesiastical authorities about the conditions of religious life in

individual parishes The visitors interviewed and reported on members of the community from all walks of life pastor mayor schoolmaster folk healer shepherd and in some cases village drunk The visitations were used to discipline the clergy and laity through exhortations warnings fines and in rare cases imprisonment The author shows that the system of penalties sanctions and persuasions had only mixed success in inhibiting un Christian behavior When the church s interest in discipline coincided with the interest of village groups in restraining profligacy or laxity the church had greater success The Wurttemberg records reveal that parishioners showed only moderate zeal in attending the principal Sunday morning service and that weekday and Sunday afternoon services were poorly attended For communion many of the laity seem to have felt that an annual participation at Easter services fulfilled their religious obligation Young people and single adults appeared most often negligent in their attendance at church sometimes because of the demands of seasonal agriculture but more often because of general indifference to the church or active resistance to the church s efforts to discipline such festive pastimes as dancing and berry picking In the process of investigating the relationship between parishioners and the state church the author presents information on the clergy s social and geographic origins education and culture and economic conditions He analyzes the attitudes and behavior surrounding popular religious practices and evaluates the church s attempts to reform and regulate family life and social mores

A Cultural History of Theatre in the Middle Ages Jody Enders, 2019-08-08 Historically and broadly defined as the period between the fall of the Roman Empire and the rise of the Renaissance the Middle Ages encompass a millennium of cultural conflicts and developments A large body of mystery passion miracle and morality plays cohabited with song dance farces and other public spectacles frequently sharing ecclesiastical and secular inspiration *A Cultural History of Theatre in the Middle Ages* provides a comprehensive and interdisciplinary overview of the cultural history of theatre between 500 and 1500 and imaginatively pieces together the puzzle of medieval theatre by foregrounding the study of performance Each of the ten chapters of this richly illustrated volume takes a different theme as its focus institutional frameworks social functions sexuality and gender the environment of theatre circulation interpretations communities of production repertoire and genres technologies of performance and knowledge transmission

Communities, Politics, and Reformation in Early Modern Europe Thomas Brady, 2021-10-25 The studies united in this volume explore themes of community politics religion gender and social conflict and accommodation during the first decades of the Reformation movement Other chapters investigate historiographical themes especially the interpretation of early modern German history Two longer chapters address European themes the historical sociology of early modern societies in terms of legal definitions of status and modern conceptions of economic class and the difference between central and western European development in a global context Taken together the studies explore the transition zone between medieval and modern history in both microhistorical especially urban and regional and broadly comparative contexts Some of the studies are supplementary to the author s books on the sixteenth century Protestant Reformation at Strasbourg in

southern Germany and in the Holy Roman Empire **Anti-Lawyers** David Saunders, 2002-06 Anti Lawyers discusses how we should regard today's critics of law and government in the light of the historical still unfinished struggle to separate the legal regulation of civil life from the Christian regulation of conscience **Subjects of Modernity** Saurabh Dube, 2017-10-11 e Dube ranges widely and globally from histories of empires and genealogies of disciplines to recent Dalit artwork from India to explore and carefully delineate a tension he regards as fundamental to the formation of the modern the modern subject's inevitable entanglement with those subject to modernity A tour de force this book offers a critical timely and powerful sequel to postcolonial and subaltern studies e Dipesh Chakrabarty University of Chicago *A Companion to Media Studies* Angharad N.
