S.** Vaitkus, 2012-12-06 How is society possible In Die Krisis der europäiischen Wissenschaften und die transzendente Phänomenologie I Edmund Husserl is found with a pathos sending out pleas for belief Glauben in his transcendental philosophy and transcendental ego The traditional idea of theoretical reflection instituted in ancient Greece as the suspension of all taken for granted worldly interests has through a partial realization of itself forsaken itself in the one sided development of the objective mathematical natural sciences as they themselves have become so taken for granted with the method and validity of their results held as so self evident that they appear as resting self sufficiently on their own grounds while pursuing an increasingly abstract mathematization of nature The sciences are left without a foundation and their meaning within the world consequently unintelligible while their objective and valid abstract concepts continually tend to supercede the everyday life world and render it questionable In the end these of belief in the everyday life world or reflective evolving and exchanging attitudes doubt science ultimately leads to a disbelief in both and a search in one direction for idol leaders and in the other for the cult of experience This collapse of Western belief systems becomes particularly threatening as it turns into nihilism which is the development of beliefs in societal forms which employ 2 natural and social science for the liquidation of humanity and nature Society starts becoming impossible      **Sociology of Indian Society** CN Shankar Rao, 2004-09 The revision comes 10 years after the first edition and completely overhauls the text not only in terms of look and feel but also content which is now contemporary while also being timeless A large number of words are explained with

the help of examples and their lineage which helps the reader understand their individual usage and the ways to use them on the correct occasion      **American Book Publishing Record** ,1998      **Quarterly Check-list of Ethnology & Sociology** ,1968      'American Book Publishing Record' Cumulative R.
