Sociology Cynthia Benn Tweedell,2003-01-01 Sociology Cynthia Tweedell, 2021-05-15 The Routledge International Handbook of Sociology and Christianity Dennis Hiebert, 2023-10-18 The Routledge International Handbook of Sociology and Christianity examines the intersection of the sociology of religion a long standing focus of sociology as a discipline and Christianity the world's largest religion An internationally representative and thematically comprehensive collection it analyzes both the sociology of Christianity and Christian approaches to sociology with attention to the Roman Catholic Orthodox and Protestant branches of Christianity An authoritative state of the art review of current research it is organized into five inter connected thematic sections considering the overlapping emergence of both the Christian religion and the social science the conceptualization of and engagement with Christianity by sociological theory the ways in which Christianity shapes and is shaped by various social institutions the manner in which Christianity resists and promotes various forms of social change and the identification diagnosis and correction of social problems by sociology and Christianity This volume is an invaluable collection for scholars and advanced students with special appeal for those working in the fields of sociology and social theory as well as religious studies and theology Global Perspectives on Sports and Christianity Afe Adogame, Nick J. Watson, Andrew Parker, 2017-11-27 While the relationship between sport and religion is deeply rooted in history it continues to play a profound role in shaping modern day societies. This edited collection provides an interdisciplinary exploration of this relationship from a global perspective making a major contribution to the religious social scientific and theological study of sport It discusses the dialectical interplay between sport and Christianity across diverse cultures extending beyond a Western perspective to include studies from Africa South America and Asia as well as Europe the UK and the US Containing contributions from leading experts within the field it reflects on key topics including race gender spirituality morality interfaith sport clubs and the significance of sport in public rituals of celebration and mourning Its chapters also examine violent sports such as boxing and mixed martial arts as well as reflecting on the cult of sporting celebrity and the theology of disability sport Truly international in scope Global Perspectives on Sports and Christianity is fascinating reading for all those interested in the study of sport sociology and religion The Great Reversal David Moberg, 2007-01-01 Why did the evangelical church which had been the leader in social welfare and reform prior to the twentieth century discontinue its involvement in social concerns Is a commitment to personal evangelism incompatible with an interest in social issues In this provocative book Dr Moberg analyzes the Great Reversal of the early twentieth century and discusses its causes and effects all in the context of seeing the Bible as the guide to faith and conduct The importance of recognizing and coping with social evil as well as personal sin is emphasized and the author concludes with a summary of developments that are helping to reverse the Great Reversal and restore evangelical Christianity to its rightful place of leadership Christianity and Social Scientific Perspectives on Sport Tom Gibbons, Stuart Braye, 2020-06-29 There has been

a dramatic increase in academic research activity and practical initiatives on the topic of sports and Christianity and its cultural significance during the past decade The Faculty of Health and Life Sciences at York St John University York UK hosted the Inaugural Global Congress on Sports and Christianity IGCSC 24 28th August 2016 in collaboration with the Bible Society at which there were 180 delegates from 22 countries in attendance For the area of sports studies the social scientific study of sport there was a thematic strand at the congress titled Christian sociological perspectives on sport from which a special edition of the journal Sport in Society partially emanated This book is based upon this journal special edition The papers selected for inclusion in the special edition were purposely eclectic in order to demonstrate the diversity of current research occurring in the area of Christianity and social scientific perspectives on sport The goal was to bridge divisions between various social science disciplines and theology or religious studies through varied novel and interesting explorations of sport in its various forms We hope this collection inspires further studies into this area The chapters in this book were originally published in a special issue in Sport in Society Caring For the South Asian Soul, Problems Frank J. McVeigh, Loreen Therese Wolfer, 2004 In this book Frank McVeigh and Loreen Wolfer take an historical approach to examine the causes and conflicts behind ten major social problems that have existed for nearly 230 years Using a critical thinking perspective of the history sociology politics and economics of the period the authors analyze social problems as a series of conflicts between those with power and those who were at one time virtually powerless Embedded in this analysis is a discussion of how the shift from a Gemeinschaft to Gesellschaft society has influenced how we address these problems Using these themes McVeigh and Wolfer provide thought provoking insight into the ways individuals groups and social institutions change over time gaining or losing power The book contains a preface by Arthur Shostak Drexel University

A Christian Approach to Interdisciplinary Studies William Dennison,2007-05-01 In an academic world that has rejected a Christian ontology metaphysic and epistemology as well as the secular foundationalism of modernity one is hard pressed to find any secular academician in the field of interdisciplinary studies IDS advocating a definitive starting point and methodology for IDS In A Christian Approach to Interdisciplinary Studies William D Dennison asks is such a study truly integrative that does not have an ontological integrative starting point and the constitutive component of method To put the question another way without the God of the Bible as the author of integration within creation can there truly be IDS Indeed Dennison calls for the integration of approach and method integration provided and modeled by the triune God of Scripture Adapted from the Preface
