Sites of Struggle Brian Raftopoulos, Tsuneo Yoshikuni, 1999 The growing scholarship on urban historiography in Zimbabwe is neither widely published nor particularly well known The editors have here gathered the scattered and growing work on urban history into a representative volume displaying the diversity of work that is available The essays show that the study of urban history in Zimbabwe brings into focus a wide array of subjects the spaces which were created for Africans in the urbanisation process the contradictory responses of the colonial state the effects of rural urban linkages on labour organisation and the struggles over the mapping of the city along racial class and gender lines The editors argue that the problems faced by colonial administrators continue to face their post colonial counterparts but in exacerbated form **The Struggle Over State Power in Zimbabwe** George Hamandishe Karekwaivanane, 2017-11-09 This book examines the role of the law in the constitution and contestation of state power in Zimbabwean history It is for researchers interested in the history of the state in Southern Africa as well as those interested in African legal history Colonial Architecture and Urbanism in Africa Fassil Demissie, 2016-12-05 Colonial architecture and urbanism carved its way through space ordering and classifying the built environment while projecting the authority of European powers across Africa in the name of science and progress The built urban fabric left by colonial powers attests to its lingering impacts in shaping the present and the future trajectory of postcolonial cities in Africa Colonial Architecture and Urbanism explores the intersection between architecture and urbanism as discursive cultural projects in Africa Like other colonial institutions such as the courts police prisons and schools that were crucial in establishing and maintaining political domination colonial architecture and urbanism played a pivotal role in shaping the spatial and social structures of African cities during the 19th and 20th centuries Indeed it is the cultural destination of colonial architecture and urbanism and the connection between them and colonialism that the volume seeks to critically address The contributions drawn from different interdisciplinary fields map the historical processes of colonial architecture and urbanism and bring into sharp focus the dynamic conditions in which colonial states officials architects planners medical doctors and missionaries mutually constructed a hierarchical and exclusionary built environment that served the wider colonial project in Africa *African Urban Experiences in Colonial Zimbabwe* Tsuneo Yoshikuni, 2007 Before Harare replaced Salisbury as Zimbabwe's capital city in 1982 the name belonged to the country's first black township now called Mbare How and when did the township come into being In this pioneering study Tsuneo Yoshikuni offers a fascinating social history of urban development in the early twentieth century **Becoming Zimbabwe. A History from the Pre-colonial Period to 2008** Brian Raftopoulos, Alois Mlambo, 2009-09-15 Becoming Zimbabwe is the first comprehensive history of Zimbabwe spanning the years from 850 to 2008 In 1997 the then Secretary General of the Zimbabwe Congress of Trade Unions Morgan Tsvangirai expressed the need for a more open and critical process of writing history in Zimbabwe The history of a nation in the making should not be reduced to a selective heroic tradition but should be

a tolerant and continuing process of questioning and re examination Becoming Zimbabwe tracks the idea of national belonging and citizenship and explores the nature of state rule the changing contours of the political economy and the regional and international dimensions of the country s history In their Introduction Brian Raftopoulos and Alois Mlambo enlarge on these themes and Gerald Mazarire s opening chapter sets the pre colonial background Sabelo Ndlovu tracks the history up to WW11 and Alois Mlambo reviews developments in the settler economy and the emergence of nationalism leading to UDI in 1965 The politics and economics of the UDI period and the subsequent war of liberation are covered by Joesph Mtisi Munyaradzi Nyakudya and Teresa Barnes After independence in 1980 Zimbabwe enjoyed a period of buoyancy and hope James Muzondidya s chapter details the transition from buoyancy to crisis and Brian Raftopoulos concludes the book with an analysis of the decade long crisis and the global political agreement which followed

**African Studies Series: The Struggle over State Power in Zimbabwe** Karekwaivanane, George Hamandishe, **The Urban Roots of Democracy and Political Violence in Zimbabwe** Timothy Scarnecchia, 2008 The author further proposes that this recourse to political violence top down nationalism and the abandonment of urban democratic traditions are all hallmarks of a particular type of nationalism equally unsustainable in Zimbabwe then as it is now **BOOK JACKET** *Nations and their Histories* S. Carvalho, F. Gemenne, 2009-10-09 *Nations and their Histories* highlights the importance of the past and its uses in the formation of modern nations and national identities The book looks at the construction of different national historiographies as well as present representations of the past in the political and cultural life of nations covering the five continents **Digital Activism in Zimbabwe** Tenford Chitanana, 2024-10-21 This book investigates the role of the internet and social media in political processes in non western and non democratic contexts Using Zimbabwe as a case study the book demonstrates how activists and ordinary people deploy social media particularly Facebook to subvert an enduring hegemonic state However the book also highlights how authoritarian regimes are in turn learning and adapting to the information age challenging the impact of digital activism Studies of digital activism in the Global South are often centred around democracy but this book paints a more complex picture examining the role and effect of digital activism in challenging state hegemony in authoritarian contexts The book notes that while communication technologies help mediate activism they are also simultaneously constrained by pre existing and emergent challenges tied to the social and political context and the inherent limitations of those technologies The book investigates the tactics used by digital activists the contextual factors and restrictive political environment they operate in including the role of pro government activists and ultimately the impact of digital activism given these constraints From the case of Zimbabwe the book builds out a broader theoretical analysis of the evolution of third world protest in the digital age examining the limitations of activists actions and the ideological deficit in online activism to ferment a virulent counter hegemony **These Bones Will Rise Again** Panashe Chigumadzi, 2018-06-14 What are the right questions to ask when seeking out the spirit of a nation In November 2017 the people of Zimbabwe took to

the streets in an unprecedented alliance with the military Their goal to restore the legacy of Chimurenga the liberation struggle and wrest their country back from more than 30 years of Robert Mugabe s rule In an essay that combines bold reportage memoir and critical analysis Zimbabwean novelist and journalist Panashe Chigumadzi reflects on the coup that was not a coup the telling of history and manipulation of time and the ancestral spirits of two women her own grandmother and Mbuya Nehanda the grandmother of the nation
