The Politics of Central Europe Attila Ágh, 1998-06-10 This book provides a thorough introduction to East Central Europe and its renewed emergence since the momentous changes in the former Soviet bloc By carefully differentiating between Central Europe East Central Europe and the Balkans Attila Ágh shows how the term Eastern Europe was a political misnomer of the Cold War Drawing on theories of democratization to develop a common conceptual and theoretical framework this textbook is the first to place the political and social changes of this complex region in a genuinely comparative perspective Through broad thematic sections the student is shown how to distinguish between processes of democratization and redemocratization transition and transformation and is introduced to the important issues of Europeanization nation building institutionalization parties and political culture Illustrated throughout with chronological charts and the latest data analysis this is an invaluable guide to the emerging political systems and their future prospects at the core of the new Europe *War in the Balkans* James Pettifer, Tom Buchanan, 2015-11-20 The history of the Balkans incorporates all the major historical themes of the 20th Century the rise of nationalism communism and fascism state sponsored genocide and urban warfare Focusing on the centuries opening decades *War in the Balkans* seeks to shed new light on the Balkan Wars through approaching each regional and ethnic conflict as a separate actor before placing them in a wider context Although top down Great Powers historiography is often used to describe the beginnings of the World War I not enough attention has been paid to the events in the region in the years preceding the Archduke Ferdinand's assassination The Balkan Wars saw the defeat of the Ottoman Empire the end of the Bulgarian Kingdom then one of the most powerful military countries in the region an unprecedented hardening of Serbian nationalism the swallowing up of Slovenes Croats and Slovaks in a larger Balkan entity and thus set in place the pattern of border realignments which would become familiar for much of the twentieth century *Gender (In)equality and Gender Politics in Southeastern Europe* C. Hassenstab, S. Ramet, Christine Hassenstab, 2015-04-14 The collapse of socialist regimes across Southeastern Europe changed the rules of the political game and led to the transformation of these societies The status of women was immediately affected The contributors to this volume contrast the status of women in the post socialist societies of the region with their status under socialism *The Modern Middle East, Third Edition* Mehran Kamrava, 2013-10-05 From the fall of the Ottoman Empire through the Arab Spring this title offers a classic treatise on the making of the contemporary Middle East remains essential

Ramet, 2017-06-22 The book chronicles the evolution of the church's political power throughout Poland's unique history Beginning in the tenth century the study first details how Catholicism overcame early challenges in Poland from converting the early polytheists to pushing back the Protestant Reformation half a millennium later It continues into the dawn of the modern age including the division of Poland between Prussia Russia and Austria between 1772 and 1795 the interwar years the National Socialist occupation of World War Two and the communist and post war communist eras during which The Church only half correctly presented itself as a steadfast protector of Poles with clergy members who either stood up to foreign authorities or collaborated with those same Nazi and Communist leaders This study ends with a consideration of how the Church has taken advantage of the fall of communism to push its own social agenda at times against the wishes of most Poles ***Speaking for the Nation*** Federico Giulio Sicurella, 2020-06-08 The book explores the nexus of intellectual activity and nation building from a critical discourse analytical perspective By examining how public intellectuals from Serbia Croatia and Bosnia and Herzegovina commented on key national events in editorials and opinion pieces it offers unique insights into contemporary nation building discourses in an enlarging Europe Through a detailed reconstruction of the debates concerning the selected events the book also provides fresh empirical evidence of the implications and challenges of post socialist

transition post conflict reconciliation democratisation and European integration in the post Yugoslav region Its versatile framework which innovatively combines sociological and linguistic approaches to the discursive positioning of intellectuals may be readily applied to the analysis of intellectual engagement with current affairs and public life in general **Working on Rights** Anna Delius,2023-11-20 This book is the first to connect global labor history and the history of human rights By focusing on democratic labor oppositions in Spain and Poland between 1960 and 1990 it shows how workers in authoritarian regimes addressed repression and whether they developed a language of rights in the light of a globally dynamic human rights discourse The study argues that the democratic labor oppositions in Spain and Poland were both variants of emancipatory and democracy oriented social movements with global interconnections that emerged in the 1960s It reveals that the demands for free and independent trade unions which in both countries became a flashpoint in the fight for broader democratic demands was not always discussed in rights terms but rather presented as an inevitable necessity At the same time these labor movements and their intellectual allies morally delegitimized state repression against workers and thereby employed the concepts of democracy participation solidarity progress and eventually rights Integrating the history of two European semi peripheric societies into a broader narrative this book is relevant for readers interested in global labor history human rights history and the history of democratization in Europe in the late twentieth century **Return to the NEP** Oscar J. Bandelin,2002-12-30 No scholar denies Mikhail S Gorbachev s role in developing a new approach to Soviet socialism but most writers emphasize the radical departure from traditional Soviet ideology that perestroika seemed to represent This work presents perestroika as part of the continuum of European intellectual history It examines the sources of Gorbachev s thinking and action in 19th century thought the development of Russian Marxism through the intellectual crisis at the turn of the 20th century the pragmatic and philosophical challenges to the Marxist Leninist paradigm Stalinism and its critics and reform Communism in post World War II Eastern Europe Against this background the book argues that the decline and fall of Soviet Communism was much more deeply connected with ideological issues than most scholars have realized Bandelin presents fresh analyses of the impacts of major works and ideas such as Lenin s Materialism and Empirio Criticism the neglected Marxian concept of the Asiatic mode of production and the underlying relationship of East European reform Communism to perestroika He analyzes the major intellectual trends of perestroika in terms of these and other currents This study offers a perspective that challenges most of current scholarship on the issues it raises suggests new avenues for research and contributes to a broader overall understanding of the problems of Soviet socialism and Gorbachev s effort to solve them **No End in Sight** Anna Krakus,2018-07-10 No End in Sight offers a critical analysis of Polish cinema and literature during the transformative late Socialist period of the 1970s and 1980s Anna Krakus details how conceptions of time permanence and endings shaped major Polish artistic works She further demonstrates how film and literature played a major role in shaping political consciousness during this highly charged era Despite being controlled by an authoritarian state and

the doctrine of socialism artists were able to portray the unsettled nature of the political and psychological climate of the period and an undetermined future In analyzing films by Andrzej Wajda Krzysztof Kieslowski Krzysztof Zanussi Wojciech Has and Tadeusz Konwicki alongside Konwicki's literary production Anna Krakus identifies their shared penchant to defer or completely eschew narrative closure whether in plot theme or style Krakus calls this artistic tendency aesthetic unfinalizability As she reveals aesthetic unfinalizability was far more than an occasional artistic preference or a passing trend it was a radical counterpolitical act The obsession with historical teleology saturated Polish public life during socialism to such a degree that instances of nonclosure or ambivalent endings emerged as polemical responses to official ideology

Stalinism for All Seasons Vladimir Tismaneanu, 2003-10-15 This history of the Romanian Communist Party RCP traces its origins as a tiny clandestine revolutionary organization in the 1920s to its years in national power from 1944 to 1989 and to the post 1989 metamorphoses
