Social Forecasting Methodology Suggestions For Research Social Science Frontiers:

Social Forecasting Methodology Daniel P. Harrison, 1976-03-26 A volume in the Social Science Frontiers series which are occasional publications reviewing new fields for social science development These occasional publications seek to summarize recent work being done in particular areas of social research to review new developments in the field and to indicate issues needing further investigation The publications are intended to help orient those concerned with developing current research programs and broadening the use of social science in the policy making process A Volume in the Russell Sage Foundation s Social Science Frontiers Series

Risk Acceptability According to the Social Sciences Mary Douglas, 1986-05-01 Every day it seems we become aware of some new technological or chemical hazard Yet it is also possible that this very awareness is new or at least newly heightened Why are certain kinds of risks suddenly so salient Are public perceptions of risk simply the sum of individual reactions to individual events or do social and cultural influences play a role in shaping our definitions of safety acceptable risk and danger Prompted by public outcries and by the confusion and uncertainty surrounding risk management policy social scientists have begun to address themselves to the issue of risk perception But as anthropologist Mary Douglas points out they have been singularly reluctant to examine the cultural bases of risk perception preferring to concentrate on the individual perceiver making individual choices This approach leaves unexamined a number of crucial social factors our concepts of what is natural or artificial for example our beliefs about fairness and our moral judgements about the kind of society in which we want to live This provocative and path breaking report seeks to open a sociological approach to risk perception that has so far been systematically neglected Describing first some exceptions to the general neglect of culture Douglas builds on these clues and on her own broad anthropological perspective to make a compelling case for focusing on social factors in risk perception She offers a challenge and a promising new agenda to all who study perceptions of risk and by extension to those who study human cognition and choice as well An altogether brilliant piece of writing far reaching and a joy to read Amartya Sen Oxford University A Volume in the Russell Sage Foundation s Social Science Frontiers Series

The Future of Vocational Education Albert J. Pautler, 1977 Library of Congress Catalogs Library of Congress, 1977

Risk Management and Political Culture Sheila Jasanoff, 1986-07-02 This unique comparative study looks at efforts to regulate carcinogenic chemicals in several Western democracies including the United States and finds marked national differences in how conflicting scientific interpretations and competing political interests are resolved Whether risk issues are referred to expert committees without public debate or debated openly in a variety of forums patterns of interaction among experts policy makers and the public reflect fundamental features of each country s political culture A provocative argument Poses interesting questions for the sociology of science especially science produced for public debate Contemporary Sociology A Volume in the Russell Sage Foundation s Social Science Frontiers Series

The Risk Professionals Thomas Dietz, Robert W. Rycroft, 1988-03-28 In the two decades since a new social movement put

environmental issues high on the national policy agenda Washington has become home to a small group of people the risk professionals whose careers center on the identification assessment and management of risks to public health and safety These men and women experts working in federal agencies Congress activist organizations and corporations help transform mass concern into government policy shaping the way our society responds to environmental and technological hazards Based on nearly 230 interviews *The Risk Professionals* provides the first comprehensive sociological analysis of our danger establishment Dietz and Rycroft explore the social educational and career profiles of risk professionals their worldviews and ideologies their networks and norms Not content to view risk professionals from a single perspective the authors build an integrated description that considers commonalities in their subjects backgrounds interests values and communication patterns The result is a uniquely revealing look into the heart of the risk policy system and a broader illumination of the social structures and dynamics that will influence environmental policy for years to come A Volume in the Russell Sage Foundation's Social Science Frontiers Series *Subject Catalog of the Institute of Governmental Studies Library, University of California, Berkeley* University of California, Berkeley. Institute of Governmental Studies. Library, 1978

Inspectors-General Mark Moore, Margaret Jane Gates, 1986-12-07 In 1978 determined to combat fraud waste and abuse in government programs Congress overwhelmingly approved the creation of special Offices of Inspectors General OIGs in many federal departments Moore and Gates here provide the first evaluation of this important institutional innovation Clearly and objectively they examine the powerful but often imprecisely defined concepts wastefulness accountability performance that underlie the OIG mandate Their study conveys a realistic sense of how these offices operate and how their impact is affected by the changing dynamics of politics and personality A Volume in the Russell Sage Foundation's Social Science Perspectives Series **Your Time Will Come** Lawrence M. Friedman, 1985-06-07 Age discrimination and its corollary mandatory retirement are modern legal issues barely a generation old In this concise and readable report Lawrence Friedman explores the apparently sudden emergence of a field of law that pertains mainly to the elderly and middle aged Friedman traces the brief but fascinating social legislative and judicial history of age discrimination law and of the laws addressing mandatory retirement Both histories contain paradoxes and contradictions both seem simultaneously to make an issue of age and to demand a kind of age neutrality reflecting broad recent changes in American culture Both histories are intricately bound up with other legal issues age discrimination with race and sex discrimination mandatory retirement with the development of pension plans and other social insurance systems Friedman speculates on the impact of these new laws illuminating through his analysis the complex phenomenon of legalization or the penetration of legal norms into ever more areas of life Finally Friedman offers a provocative conclusion in which he suggests that laws on age discrimination and retirement laws that appear to have a less extensive social background than one would expect may in fact be stand in laws for vague but powerful social norms not yet recognized in the legal system *Your Time Will Come* is the first new volume in a

special paperback series entitled Social Research Perspectives Occasional Reports on Current Topics These Perspectives represent a revival of the Social Science Frontiers series published by the Foundation from 1969 to 1977 and will again offer short timely and accessible reports on various aspects of social science research A Volume in the Russell Sage Foundation s Social Science Perspectives Series Monographic Series Library of Congress, Current Catalog National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 *Research Handbook on Artificial Intelligence and Communication* Seungahn Nah,2023-11-03 This forward looking Research Handbook makes an insightful contribution to the emerging field of studies on communication of by and with AI Bringing together state of the art research from over 50 leading international scholars across various fields it provides a comprehensive overview of the complex intersections between AI and communication

Coordination and Cooperation in Complex Adaptive Systems: Theory and Application Xiaojie Chen,Tatsuya Sasaki,Isamu Okada,2019-07-31 During the past decade plenty of studies have been carried out in the literature to address the coordination and cooperation problems in complex adaptive systems and have continued to grow This Research Topic eBook publishes 14 papers by 39 authors and most of these published papers present current research illustrating the depth and breadth of ongoing work on the coordination and cooperation problems in complex adaptive systems It thus provides a timely discussion for researchers on the hotspots and challenges of the study on coordination and cooperation in theoretical models and applied systems
