Social Life Of Painting In Ancient Rome And On The Bay Of Naples:

The Social Life of Painting in Ancient Rome and on the Bay of Naples Eleanor Winsor Leach, 2004 In this study Eleanor Winsor Leach offers a new interpretation of Roman painting as found in domestic spaces of the elite classes of ancient Rome and Campania Because the Roman house fulfilled an important function as the seat of its owner's political power its mural decoration provides critical evidence for the interrelationship between public and private life The painted images Leach contends reflect the codes of communication embedded in upper class life such as the performative theatricality that was expected of those leading public lives the self-conscious assimilation of Hellenistic culture among aristocrats and the ambivalent attitudes towards luxury as a coveted sign of power and a symptom of ethical degeneracy Relying on contemporary literary sources this book also integrates historical and semantic approaches to an investigation of the visual language through which painting communicates with its viewers It also offers a fresh perspective on the demography of Pompeii and the relationship between the colony and Rome as reflected in its wall painting

relates these to the built and unbuilt environment taking different cultural contexts and historical periods into consideration It studies some of the ethical questions raised by the nature of luxury in architecture and discusses whether architectural luxury is an unqualified benefit or something which should only be present within strict limits The author argues how the ideas of permissible and impermissible luxury have informed architecture and how these notions of ethical approval have changed from one context to another Providing voluptuous settings for the nobles and the leisure class luxury took the form of not only grand palaces but also follies country and suburban houses private or public entertainment venues and ornate skyscrapers with fast lifts The Architecture of Luxury proposes that in Western societies the growth of the leisure classes and their desire for various settings for pleasure resulted in a constantly increasing level of luxury sought within everyday architecture

Rome Is Burning Anthony Barrett, 2022-02-22 Nero became Emperor in A D 54 On the evening of July 18 64 A D it seems that a lamp was left unextinguished in a stall still heaped with piles of combustible material Whether this was accidental or deliberate we cannot now determine and normally it would not have led to anything that would have attracted even local attention But there was a gusty wind that night and the flickering flame was fanned onto the flammable wares The ensuing fire quickly spread Before the onlookers could absorb what was happening one of the most catastrophic disasters ever to be endured by Rome was already underway It was a disaster that brought death and misery to thousands In *Nero and the Great Fire of Rome* Anthony Barrett draws on new textual interpretations and the latest archaeological evidence to tell the story of this pivotal moment in Rome's history and its lasting significance Barrett argues that the Great Fire which destroyed much of the city changed the course of Roman History The fire led to the collapse of Nero's regime and his disorderly exit brought an end to Rome's first imperial dynasty transforming from thereto the way that emperors were selected It also led to the first systematic persecution of the Christians who were blamed for the blaze Barrett provides the first comprehensive study of this dramatic event which remains a fascination of the public imagination and continues to be a persistent theme in the art and literature of popular culture today
