underclass status The quest for social inclusion therefore merits renewed attention in the youth policies and services of Chinese societies This was originally published as a special issue of the International Journal of Adolescence and Youth

Who Benefits from Global Violence and War Marc Pilisuk, 2007-12-30 Military economic and environmental violence in the era of globalization cause immense suffering and may ultimately threaten the existence of life as we know it but author Pilisuk explains that the future can change if we understand and act upon the roots of violence A professor emeritus of psychology and human and community development Pilisuk explains how most violence is the product of a human built social order in which some people and institutions control most of the resources make the decisions that necessitate violence and operate with minimal accountability The common root of war poverty environmental destruction and other forms of violence is spotlighted Such violence says Pilisuk is a natural consequence of a system inordinately influenced by a relatively small interconnected group of corporate military and government leaders with the power to instill fear to increase their excessive fortunes and to restrict information particularly about their own clandestine dealings This text includes scholarship hailing from across disciplines combined with information from investigative journalism and insights from nonprofit watchdog groups all shedding light on centralized power and its effects Pilisuk presents material including the range of tactics used to manipulate and destroy adversaries the human capacity to kill as a challenge and how media is used by powerful groups to manipulate fear and maintain their power Here readers find solid social science to support what whistleblowers and social critics are observing about a system that needs change

Space, Place and Mental Health Sarah Curtis, 2016-04-01 There is a strong case today for a specific focus on mental public health and its relation to social and physical environments From a public health perspective we now appreciate the enormous significance of mental distress and illness as causes of disability and impairment Stress and anxiety and other mental illnesses are linked to risks in the environment This book questions how and why the social and physical environment matters for mental health and psychological wellbeing in human populations While putting forward a number of different points of view there is a particular emphasis on ideas and research from health geography which conceptualises space and place in ways that provide a distinctive focus on the interactions between people and their social and physical environment The book begins with an overview of a rich body of theory and research from sociology psychology social epidemiology social psychiatry and neuroscience considering arguments concerning mind body dualism and presenting a conceptual framework for studying how attributes of space and place are associated with human mental wellbeing It goes on to look in detail at how our mental health is associated with material or physical aspects of our environment such as natural and built landscapes with social environments involving social relationships in communities and with symbolic and imagined spaces representing the personal cultural and spiritual meanings of places These relationships are shown to be complex with potential to be beneficial or hazardous for mental health The final chapters of the book consider spaces of care and the implications of space and place for public mental health policy offering a broader view of how

mental health might be improved at the population level With boxed case studies of specific research ideas and methods chapter summaries and suggestions for introductory reading this book offers a comprehensive introduction which will be valuable for students of health geography public health sociology and anthropology of health and illness It also provides an interdisciplinary review of the literature by the author and by other writers to frame a discussion of issues that challenge more advanced researchers in these fields
