Social Movements And Economic Transition:

Social Movements and Economic Transition Heather L. Williams, 2001-01-15 This book examines patterns of political mobilization among groups in Mexico whose livelihoods have been threatened by trade opening, fiscal retrenchment and market liberalization. Using data from case studies of a worker based movement and a farmer based movement, Williams argues that economic transition in altering modes of state-society bargaining has shifted the locus of contention and has altered the form and shape of distributive protest. Williams further argues that social movements make strategic choices in their use of resources in order to widen their constituencies and extend the length of their insurgencies. **Social Movements and the Change of Economic Elites in Europe after 1945** Stefan Berger, Marcel Boldorf, 2018-05-29 This book explores the changing nature of social movements and economic elites in post-Second World War Europe. In the years following 1945, Europe faced diverse challenges connected by the overriding question of how the reconstruction of the continent should proceed. For the Central Powers, the implementation lay in the hands of the Allied occupying forces who organised the process of denazification and the establishment of a new economic order. In countries without military occupation, there was a deep gap between the new governmental forces and the former collaborators. In both cases, social movements which were formed by anti-fascists on the left of the political spectrum assumed the task of social reorganisation. The chapters in this book explore the discourses about economic systems and their elites which moved to the fore across a range of European countries, uncovering who was involved, what resistance these social movements faced, and how these ultimately failed in the West to bring about change, while in Eastern Europe, Stalinism forcibly imposed change. **SOCIAL AND ECONOMIC DEVELOPMENT - Volume III** Salustiano del Campo, Tomoko Hamada, Giancarlo Barbiroli, Saskia Sassen, Eleonora Barbieri-Masini, Paul Nchoji Nkwi, Owen Sichone, Abubakar Momoh, 2010-11-15 Social and Economic Development is a component of Encyclopedia of Development and Economic Sciences in the global Encyclopedia of Life Support Systems (EOLSS), which is an integrated compendium of twenty-one Encyclopedias. Social Movements, 1768 - 2012 Charles Tilly, Lesley J. Wood, 2015-12-22 The updated and expanded third edition of Tilly's widely acclaimed book brings this analytical history of social movements fully up to date Tilly and Wood cover such recent topics as the economic crisis and related protest actions around the globe while maintaining their attention to perennially important issues such as immigrants rights new media technologies and the role of bloggers and Facebook in social movement activities With new coverage of colonialism and its impact on movement formation as well as coverage and analysis of the 2011 Arab Spring this new edition of *Social Movements* adds more historical depth while capturing a new cycle of contention today New to the Third Edition Expanded discussion of the Facebook revolution and the significance of new technologies for social movements Analysis of current struggles including the Arab Spring and pro democracy movements in Egypt and Tunisia Arizona's pro and anti immigration movements the Tea Party and the movement inspired by Occupy Wall Street Expanded discussion of the way the emergence of capitalism affected the emergence of the social movement

South Korean Social Movements Gi-Wook Shin, Paul Y Chang, 2011-06-01 This book explores the evolution of social movements in South Korea by focusing on how they have become institutionalized and diffused in the democratic period The contributors explore the transformation of Korean social movements from the democracy campaigns of the 1970s and 1980s to the rise of civil society struggles after 1987 South Korea was ruled by successive authoritarian regimes from 1948 to 1987 when the government decided to re-establish direct presidential elections The book contends that the transition to a democratic government was motivated in part by the pressure from social movement groups that fought the state to bring about such democracy After the transition however the movement groups found themselves in a qualitatively different political context which in turn galvanized the evolution of the social movement sector Including an impressive array of case studies ranging from the women's movement to environmental NGOs and from cultural production to law the contributors to this book enrich our understanding of the democratization process in Korea and show that the social movement sector remains an important player in Korean politics today This book will appeal to students and scholars of Korean studies Asian politics political history and social movements

Economic Cycles and Social Movements Eric Mielants, Katsiaryna Bardos, 2020-10-04 *Economic Cycles and Social Movements Past Present and Future* offers diverse perspectives on the complex interrelationship between social challenges and economic crises in the Modern World System Written with a balance of quantitative qualitative and theoretical contributions and insights this volume provides a great opportunity to reflect upon the ongoing conceptual and empirical challenges when confronting the complex interrelations of various economic cycles and social movements By engaging wide ranging ideas and theoretical points of view from different disciplines different countries and different perspectives this study breaks new

ground and offers novel insights into the way the capitalist world economy functions as well as the way social and political movements react to these constraints. Rural Economic Developments and Social Movements Rita Vilké, Dalia Vidickienė, Živilė Gedminaitė-Raudonė, Vitalija Simonaitytė, Erika Ribašauskienė, 2021-05-15. Focusing on the demands of the new innovative sustainable and inclusive rural development paradigm, the monograph raises the discussion regarding new approaches and success factors that are vital in current rural socio-economic development and policy transformations. The bottom-up policymaking, self-organization, creative use of knowledge in rural areas and many other rural innovations are aligned in this book with new social movements theories which help disclose, explore and explain the rural development paradigm shift. Rural development forces of the 21st century center on the agents of change: rural population and surprisingly urban population and the political debate concerning EU Common Agricultural Policy and European Green Deal illustrated with multiple case studies. This book will be of interest to a broad audience of readers keen on scientific, political and practical issues of innovations in rural areas and their future.

[Social Conflict, Economic Development and Extractive Industry](#) Anthony Bebbington, 2011-09-27 The extraction of minerals oil and gas has a long and ambiguous history in development processes in North America Europe Latin America and Australasia Extraction has yielded wealth regional identities and in some cases capital for industrialization In other cases its main heritages have been social conflict environmental damage and underperforming national economies As the extractive economy has entered another boom period over the last decade not least in Latin America the countries in which this boom is occurring are challenged to interpret this ambiguity Will the extractive industry yield for them economic development or will its main gifts be ones of conflict degradation and unequal forms of growth This book speaks directly to this question and to the different ways in which Latin American countries are responding to the challenge of extractive industry The contributors are a mixture of geographers economists political scientists development experts and anthropologists who all draw on sustained field work in the region By digging deep into both national and local experiences with extractive industry they demonstrate the ways in which it transforms economies societies politics and environments They pay particular attention to the social conflict that

extraction consistently produces and they ask how far this conflict might usher in political and institutional changes that could lead to a more productive relationship between extraction and development They also ask whether the existence of left of centre governments in the region changes the relationships between extractive industry and development The book makes clear the immense difficulties that countries and regional societies face in harnessing extractive industry for the collective good For the most part the findings question the wisdom of the development model that many countries in the region have taken up and which emphasises the productive roles of mining and hydrocarbon industries The book should be of interest to students and researchers of Development Studies Geography Politics and Political Economy as well as Anthropology

Social Conflict, Economic Development and the Extractive Industry Anthony Bebbington, 2011-09-27 This multidisciplinary book offers a comparative reading of the conflicts between large mining industries and peasant and indigenous communities in Peru Bolivia and Ecuador focusing on the wider political economy of extractives in Latin America
