Social Rage:

Social Rage Bonnie Berry, 2013-01-11 This book defines and describes the meaning of social rage by examining the influence of social forces such as economic conditions population diversity and power shifts The role of media in particular its encouragement of social rage through sensationalism is also handled in this book The author approaches the issue of social rage on both an individual and a collective level with the goal of revealing its motivations and its impact **Imagining Iraq**

Suman Gupta, 2011-01-19 In the run up to during and after the invasion of Iraq a large number of literary texts addressing that context were produced circulated and viewed as taking a position for or against the invasion or contributing political insights This book provides an in depth survey of such texts to examine what they reveal about the condition of literature

Cyclopedia of Philosophy Sam Vaknin, 2009-02-18 Cyclopedia of issues in modern philosophy The philosophy of science and religion the cognitive sciences cultural studies aesthetics art and literature the philosophy of economics the philosophy of psychology and ethics **Emotional Intelligence and Cognitive Abilities** Pablo Fernández-Berrocal, Purificación

Checa, 2016-09-07 Nowadays not only psychologists are interested in the study of Emotional Intelligence EI Teachers educator managers employers and people in general pay attention to EI For example teachers would like to know how EI could affect student s academic results and managers are concerned about how EI influences their employees performance The concept of EI has been widely used in recent years to the extent that people start to applying it in daily life EI is broadly defined as the capacity to process and use emotional information More specifically according to Mayer and Salovey EI is the ability to 1 accurate perception appraise and expression of emotion 2 access and or generation of feelings when they facilitate thought 3 understand emotions and emotional knowledge and 4 regulate emotions to promote emotional and intellectual growth Mayer and Salovey 1997 p 10 When new information arises into one specific area of knowledge the work of the scientists is to investigate the relation between this new information and other established concepts In this sense EI could be considered as a new framework to explain human behaviour As a young concept in Psychology EI could be used to elucidate the performance in the activities of everyday life Over the past two decades studies of EI have tried to delimitate how EI is linked to other competences A vast number of studies have reported a relation between EI and a large list of competences such as academic and work success life satisfaction attendee to emotions assertiveness emotional expression emotional based decision making impulsive control stress management among others Moreover recent researches have shown that EI plays an important role in the prediction of behaviour besides personality and cognitive factors However it is not until quite recently that studies on EI have considered the importance of individual differences in EI and their interaction with cognitive abilities The general issue of this Research Topic was to expose the role of individual differences on EI in the development of a large number of competencies that support a more efficient performance in people s everyday life The present Research Topic provide an extensive review that may give light to the better understanding of how individual

differences in EI affect human behaviour We have considered studies that analyse 1 how EI contributes to emotional cognitive and social process beyond the well known contribution of IQ and personality traits as well as the brain system that supports the EI 2 how EI contributes to relationships among emotions and health and well being 3 the roles of EI during early development and the evaluation in different populations 4 how implicit beliefs about emotions and EI influence emotional abilities

Violence Against Black Bodies Sandra E. Weissinger, Dwayne A. Mack, Elwood Watson, 2017-04-07 Violence Against Black Bodies argues that black deaths at the hands of police are just one form of violence that black and brown people face daily in the western world Through the voices of scholars from different academic disciplines this book gives readers an opportunity to put the cases together and see that violent deaths in police custody are just one tentacle of the racial order a hierarchy which is designed to produce trauma and discrimination according to one's perceived race and ethnicity

Mourning in America David W. McIvor, 2016-10-20 In Mourning in America McIvor addresses significant and urgent questions about how citizens can mourn traumatic events and enduring injustices in their communities McIvor offers a framework for analyzing the politics of mourning drawing from psychoanalysis Greek tragedy and scholarly discourses on truth and reconciliation

The Psalms and the Life of Faith Walter Brueggemann, 1995 Walter Brueggemann's unique gift of joining historical exegetical insights to penetrating observations about the traumas and joys of contemporary life both personal and social is here forcefully displayed Everyone who is familiar with his work knows the power of his speech about doxological polemical political subversive evangelical faith and about the ways such faith is enacted in the praise of ancient Israel and in the church Readers of this book will find fresh insight into the Psalms as prayer and praise the categories of the Psalm the social context in which psalms were prayed and sung the theology of the Psalm the dialogical character of the Psalms justice and injustice in the Psalm the study and use of the Psalms by the church praise as an act of basic trust and abandonment the impossible wonders of God's activity that overturn conventional ways of

The Real State Of The Union Ted Halstead, 2009-04-20 Resulting from a collaboration between The Atlantic Monthly magazine and the New America Foundation The Real State of the Union features 18 original essays on the most important facets of our national well being Written by many of our nation's most insightful observers the essays provide an objective and penetrating analysis of the most critical challenges facing America as well as innovative solutions to many of them The State of the Union Address is among the nation's oldest rituals but one that has deviated from its original purpose Rather than a candid assessment of the country or a meaningful self evaluation by the current administration it has become a political spectacle marked by self congratulation and spin The Real State of the Union seeks to turn an empty exercise into a more meaningful national dialogue about the social political and economic health of our country Rejecting the political correctness of both parties this volume tells the American public what it needs to know about the real problems that plague the country and why the political solutions that are offered too often fail to address the real nature of those problems

Conserving Culture Mary

Hufford,1994 *Conserving Culture* examines heritage protection in the United States and how it has been implemented in specific cases Contributors challenge the division of heritage into nature the built environment and culture They describe cultural conservation as an integrated process for resource planning and recommend supplanting the current prescriptive approach with one that is more responsive to grass roots cultural concerns [Handbook of Cultural Politics and Education](#)

,2010-01-01 In academia the effects of the cultural turn have been felt deeply In everyday life tenets from cultural politics have influenced how people behave or regard their options for action such as the reconfiguration of social movements protests and praxis in general Many authors writing in this field are known for their scholarship and social activism both of which are arguably guided by principles of cultural politics about the nature of representation and the deployment of power in political discourses The *Handbook of Cultural Politics and Education* is less an attempt to standardize contemporary educational scholarship and more a collection that engages the problems and promises of recent themes in social and cultural thought which require our attention and demand a response In other words it opens doors to questions rather than convenient answers to difficult educational dilemmas The Handbook is part of the appraisal of an opening created by interdisciplinary writings on such themes as representation civil society cultural struggle subjectivity and media within the context of education Indeed cultural politics troubles traditional frameworks in search of critical explanations concerning education s place within society The contributions in the collection support this endeavor **John Osborne: Look Back in**

Falola,2021-06-24 Since its independence from Britain in 1960 Nigeria has emerged as Africa s second largest economy and one of the biggest producers of oil in the world Despite its economic success however there are deep divisions among its two hundred and fifty ethnic groups Centered around three of the dominant themes of Nigeria s post colonial narrative ethnicity democracy and governance this is an accessible and comprehensive introduction to the history and events that have shaped these three areas World renowned expert in Nigerian history Toyin Falola shows us how the British laid the foundations of modern Nigeria with colonialism breeding competition for resources and power and the widening cleavages between the Hausa Fulani Yoruba and Igbo ethnic groups that had been forced together under British rule the choice of federalism as a political system and the religious and political pluralism that have shaped its institutions and practices Using an examination of the outcomes of this history manifested in hunger violence poverty human rights violations threats of secession and corruption where power and resources are used to reproduce underdevelopment Falola offers insights and recommendations for the future of policy and the potential for intervention in the country *Imperialism at Home* Susan Meyer,2019-06-30 The implicit link between white women and the dark races recurs persistently in nineteenth century English fiction *Imperialism at Home* examines the metaphorical use of race by three nineteenth century women novelists Charlotte Bront

Emily Bront and George Eliot Susan Meyer argues that each of these domestic novelists uses race relations as a metaphor through which to explore the relationships between men and women at home in England In the fiction of for example Anthony Trollope and Charles Dickens as in nineteenth century culture more generally the subtle and not so subtle comparison of white women and people of color is used to suggest their mutual inferiority The Bronte sisters and George Eliot responded to this comparison Meyer contends transforming it for their own purposes Through this central metaphor these women novelists work out a sometimes contentious relationship to established hierarchies of race and gender Their feminist impulses in combination with their use of race as a metaphor Meyer argues produce at times a surprising if partial critique of empire Through readings of Jane Eyre Wuthering Heights The Mill on the Floss Daniel Deronda and Charlotte Bront s African juvenilia Meyer traces the aesthetically and ideologically complex workings of the racial metaphor Her analysis is supported by careful attention to textual details and thorough grounding in recent scholarship on the idea of race and on literature and imperialism

Coalition Building in the Anti-death Penalty Movement Sandra J. Jones, 2010-01-01 Coalition Building in the Anti Death Penalty Movement uses the concepts of the political process model of social movements to analyze the factors that shape the racial face of the anti death penalty movement Contests are found to emerge over mobilizing and framing strategies as activists react to the political opportunity structure in a manner that privileges moral arguments above the racial ones that would allow them to build a more racially diverse constituency

Theatres of Human Sacrifice Mark Pizzato, 2004-11-18 Contemporary debates about mass media violence tend to ignore the long history of staged violence in the theatres and rituals of many cultures In Theatres of Human Sacrifice Mark Pizzato relates the appeal and possible effects of screen violence today in sports movies and television news to specific sacrificial rites and performance conventions in ancient Greek Aztec and Roman culture Using the psychoanalytic theories of Lacan Kristeva and Žižek as well as the theatrical theories of Artaud and Brecht the book offers insights into the ritual lures and effects of current mass media spectatorship especially regarding the pleasures purposes and risks of violent display Updating Aristotle s notion of catharsis Pizzato identifies a sacrificial imperative within the human mind structured by various patriarchal cultures and manifested in distinctive rites and dramas with both positive and negative potential effects on their audiences
