## **Social Science Imperialists:**

**Unmasking Social Science Imperialism** Mentan, Tatah, 2015-02-03 Contemporary social science is a product of the capitalist world system and Eurocentrism is constitutive of the geoculture of this system characterized by the parochiality of its universalism assumptions about the superiority of Western civilization and imposition as the sole theory of global progress The creation of these structures of knowledge specifically the institutionalization of the social sciences is a phenomenon that is inextricably linked to the very formation and maturation of Europe's capitalist world system or imperialism There is therefore nothing that is natural logical or accidental about the institutionalization of the social sciences These Europeanized structures of knowledge are imposed ways of producing knowledge of the world This Eurocentrism of social science has justifiably come under increasingly vigorous scrutiny especially in the period since 1945 with the formal decolonization of Africa Asia and much of the Caribbean This book forcefully argues that if social science is to make any progress in the twenty first century it must overcome its Eurocentric heritage that has distorted social analyses and its capacity to deal with the problems of the contemporary world and embrace other non Western funds of knowledge production **Social Science as**

**Imperialism** Claude Ake, 1982 Claude Ake's study is primarily concerned with what he terms the most pernicious form of imperialism namely scientific knowledge Ake analyses how Western social sciences whether consciously or inadvertently foist capitalist values and capitalist development on the Third World and serve imperialist ends He unravels the theory of political development westernisation exposing its ideological character and condemning Western development studies as worse than useless He then develops his analysis of the imperialist and ideological characteristics of Western social sciences to posit alternatives which may more successfully overcome permanent underdevelopment and advocates a struggle for a new model of social sciences which is socialist orientated and that developing countries reject Western models The study was first published in 1979 revised in 1982 is newly reissued and for the first time widely available outside Africa Claude Ake 1939-1996 was one of Africa's most distinguished political and social scientists and democrats of the twentieth century writing widely and polemically on what were his life long concerns of democracy and the future of the African continent **The**

**Social Science Imperialists** G. C. Harcourt, 2013-11-05 The essays in this volume present a comprehensive view of modern economics They range from technical papers on a specific issue such as that devoted to a critique of Kaldor's model of income distribution through evaluation of a wide ranging literature with special emphasis on the Cambridge controversies in the theory of capital Intellectual portraits of Eric Russell Joan Robinson and Lorie Tarshis are also included The concluding essay The Social Science Imperialists gives an overview of the issues and trends that have dominated economics in recent years **The Social Science Imperialists** Geoffrey Colin Harcourt, 1982 **Scientific Imperialism** Uskali Mäki, Adrian Walsh, Manuela Fernández Pinto, 2017-10-16

The growing body of research on interdisciplinarity has encouraged a more in depth analysis of the relations that hold among academic disciplines In particular the incursion of one scientific discipline

into another discipline's traditional domain also known as scientific imperialism has been a matter of increasing debate. Following this trend, Scientific Imperialism aims to bring together philosophers of science and historians of science interested in the topic of scientific imperialism and in particular interested in the conceptual clarification, empirical identification and normative assessment of the idea of scientific imperialism. Thus, this innovative volume has two main goals. Indeed, the authors first seek to understand interdisciplinary relations emerging from the incursion of one scientific discipline into one or more other disciplines such as in cases in which the conventions and procedures of one discipline or field are imposed on other fields or more weakly when a scientific discipline seeks to explain phenomena that are traditionally considered proper of another discipline's domain. Secondly, the authors explore ways of distinguishing imperialistic from non-imperialistic interactions between disciplines and research fields. The first sustained study of scientific imperialism, this volume will appeal to postgraduate students and postdoctoral researchers interested in fields such as Science and Technology Studies, Sociology of Science, Technology Philosophy of Science and History of Science.

**Economics Imperialism and Interdisciplinarity: The Watershed and After** Ben Fine, 2023-10-20. In *Economics Imperialism and Interdisciplinarity: The Watershed and After*, Ben Fine selects and adds to his key articles tracking economics imperialism through three phases, focusing on the last decade of the third phase. Everything goes as with *freakonomics*. Each article is accompanied by a preamble setting the context in which it appeared with a new overall introduction and literature survey drawing out the overall significance for contemporary scholarship. Ranging over mainstream and heterodox economics, the disputes between them, the relationship between economics and other disciplines and authors such as Lazear, Stiglitz and Akerlof, the accelerating presence of economics imperialism is documented alongside its perverse critical neglect. The volume is imperative for those engaging in political economy across the social sciences.

Mid-Victorian Imperialists Edward Beasley, 2004-08-02. This is an empirical study of just where in Victorian culture the ideology of imperialism left clear traces of itself. The well-written investigations bring to life how certain men thought about the British Empire between the 1830s and 1868.

*A Gateway to the Social Sciences* Ben Albert Arneson, Gilbert Hobbs Barnes, Charles Wellsley Coulter, Henry Clyde Hubbart, 1926.

**Imperialism: Critical Concepts V2** Peter J. Cain, Mark Harrison, 2023-01-06. First published in 2004, this is Volume II in a collection on Imperialism: Critical Concepts in Historical Studies and includes Part III on Modern Marxism and Dependency Theories and Part IV on Modern Historians and Imperialism.

**Economics Imperialism and Interdisciplinarity: Before the Watershed** Ben Fine, 2023-10-20. In *Economics Imperialism and Interdisciplinarity: Before the Watershed*, Ben Fine offers a selection of his key articles charting the rise of economics imperialism. Each article is accompanied by a preamble that sets the context in which it appeared with an overall introduction drawing out the overall significance for contemporary scholarship. Ranging over mainstream and heterodox economics, the disputes between them, the relationship between economics and other disciplines and thinkers as diverse as Kuhn, Becker and Bourdieu, the collection offers a unique and

compelling account of how mainstream economics has both changed dramatically whilst its core and narrow principles have remained as sacrosanct as they are invalid The volume is imperative for those engaging in political economy across the social sciences *Imperialism and Transitions to Socialism* Rémy Herrera, 2021-09-30 This collection of essays is designed to shed light on the issues of imperialism and the transitions to socialism Delving into the theoretical aspects whose analysis is key for understanding the subject under consideration and practical experiences of socialist transition in China Vietnam North Korea Cuba Venezuela Ecuador and Brazil **Beautiful Imperialist** David Shambaugh, 2021-03-09 From President Nixon's historic visit to China in 1972 to the aftermath of the Tiananmen tragedy this book examines the changing perceptions of the United States articulated by China's America Watchers whose occupation is to interpret the beautiful imperialist for China's elite and public While other studies have looked at the behavioral history of U S China relations this is the first to probe the perceptual dimension **Columbia University Studies in the Social Sciences**, 1923 *The Oxford Handbook of Economic Imperialism* Zak Cope, Immanuel Ness, 2022 Including thirty four chapters written by academics and experts in the field of international political economy The Oxford Handbook of Economic Imperialism examines the history of economic imperialism from the early modern age to the present The Handbook demonstrates the persistence of economic imperialism in today's postcolonial world and the enduring control wielded by great powers even after the end of formal empire Moreover the Handbook reveals how emerging powers are expanding economic control in new geographic and geopolitical contexts and highlights the significance of economic imperialism in the structures relations processes and ideas that sustain poverty and conflict worldwide *From Economics to Political Economy* Tim B. Thornton, 2016-07-22 The discipline of economics has been increasingly criticized for its inability to illuminate the workings of the real world and to provide reliable policy guidance for the major economic and social challenges of our time A central problem in contemporary economics and a problem from which many of its other failings flow is its lack of plurality By a lack of plurality it is meant that contemporary economics lacks diversity in its methods theories epistemology and methodology It is also meant that economics has become far less interdisciplinary From Economics to Political Economy offers an explanation as to why economics has become so determinedly non pluralistic and also gives considerable attention to exploring and evaluating promising strategies for reform These strategies include developing a pluralist economics under the label of political economy within other social science departments such as departments of politics Along the way the reader will learn about the worldwide student movement seeking greater pluralism in economics encounter some dramatic case studies in intellectual suppression gain a fuller sense of the nature of contemporary economics and explore the relationship between economics and other social sciences This book is of interest to any social scientist particularly those with interests in economics and politics **South East Asia, Colonial History: Imperialism before 1800** Paul H. **The ^Ideological Origins of Nazi Imperialism** Woodruff D. Smith, 1989-02-09 This study traces the evolution of imperialist ideology in Germany from Bismarck in the mid 19th century through Hitler Smith argues that it was the way in which Nazis attempted to reconcile two century old ideologies the lite pro industrial Weltpolitick and the popular based pro agrarian Lebensraum that resulted in Germany s disastrous policies during World War II This is the first book to treat Nazi imperialism as a separate ideology and set it within a sturdy theoretical framework

**Imperialism and Internationalism in the Discipline of International Relations** David Long, Brian C. Schmidt, 2006-01-01 What were the guiding themes of the discipline of International Relations before World War II The traditional disciplinary history has long viewed this time period as one guided by idealism and then challenged by realism This book reconstructs in detail some of the formative episodes of the field s early development and arrives at the conclusion that in actuality the early years of International Relations were preoccupied not with idealism and realism but with the dual themes of imperialism and internationalism Thus the beginnings of the discipline have resonance with the recently revived discourse of empire and the global status and policies of the United States as the world s sole superpower

**Economic Persuasions** Stephen Gudeman, 2009 As the transition from socialism to a market economy gathered speed in the early 1990s many people proclaimed the final success of capitalism as a practice and neoliberal economics as its accompanying science But with the uneven achievements of the transition the deepening problems of development persistent unemployment the widening of the wealth gap and expressions of resistance the discipline of economics is no longer seen as a mirror of reality or as a unified science How should we understand economics and more broadly the organization and disorganization of material life In this book international scholars from anthropology and economics adopt a rhetorical perspective in order to make sense of material life and the theories about it Re examining central problems in the two fields and using ethnographic and historical examples they explore the intersections between these disciplines contrast their methods and epistemologies and show how a rhetorical approach offers a new mode of analysis while drawing on established contributions
