## **Socialist Korea A Case Study In The Strategy Of Economic Development:**

*Socialist Korea* Ellen Brun, Jacques Hersh, 1976 Monograph on the socialist economic development of Korea DPR describes the historical setting social change institutional framework political aspects industrial development and agricultural development educational system etc Map references and statistical tables [Making Sense of Joan Robinson on China](#) Pervez Tahir, 2019-12-11 Joan Robinson was a member of the famous Keynes Circus of young economists at Cambridge in the 1930 s She was a theorist par excellence making outstanding contributions to the understanding of competition aggregate demand and capital At the same time she developed an interest in underdeveloped economies and alternatives to capitalism that eventually produced a long list of writings on China between the 1950 s to the 1970 s These writings were neither theoretical nor empirical but a series of opinion pieces and reports Yet it is these writings that arguably cost Joan Robinson the Nobel Memorial Prize in economics This short book reviews those writings and comments on what has happened since with regard to China s development Joan Robinson s interpretation and predictions and how her 1950 s lectures in China match up to China s policies since Mao This book will be of interest to students and scholars interested in how the history of economic thought can inform and progress development economics **Korea versus Korea** Barry Gills, 2005-06-21 This study traces the historic course of diplomatic competition between the rival Koreas within the context of a changing international system This innovative analysis focuses on the dynamic interaction of domestic and international political economies and their effects on the conduct of diplomacy The result is a new interpretation of the importance of adaptability in determining success in international relations **The Joan Robinson Legacy** Ingrid H. Rima, 2016-09-16 First Published in 1991 The undertakings within this book are testimony to the professional legacy Joan Robinson left behind The contributors discuss her irreverence for established theory her seemingly unquenchable zest for intellectual argument doggedly pursued on the conviction that she was at least morally right the sharpness of her wit along with her occasionally unconventional mode of dress and her enjoyment of nature This includes a biographical memoir and concludes with a bibliography of the writings of Robinson **The Koreans** Donald S Macdonald, 2018-02-19 In this new edition Donald Clark has thoroughly revised and updated Donald Macdonald s widely praised introduction to Korea describing and assessing the volatile and dramatic developments on the peninsula over the last five years Remaining true to Macdonald s original conception Clark has reworked the existing text from the perspective of the mid 1990s to take account of the enormous political and economic changes in South Korea the evolving relationship between North and South and the implications of North Korea s leadership transition and nuclear capability *Mysterious Pyongyang: Cosmetics, Beauty Culture and North Korea* Nam Sung-wook, Chae Su-lan, Lee Ga-young, 2020-10-23 This book is written with the belief that the peaceful unification of Korean Peninsula will be upon us on the day that every woman in North Korea uses South Korean and global cosmetics The authors focus on understanding the intentions behind the three leaders of North Korea Kim Il sung Kim Jong il

and Kim Jong un based on their comments on the cosmetics industry and their field guidance tendencies analyzing the governance style of Pyongyang through women s life and beauty culture It is the earliest book of its kind in the women s life and beauty culture of North Korea      Democracy and Authority in Korea Geir Helgesen,2014-06-03 This controversial new study breaks with the tradition of basing political studies on analyses of institutions and political personalities by likening the Republic of Korea to a laboratory for the clash of political cultures In the late 1940s the Americans embarked upon a democratization programme designed to create a Western bulwark against the spread of communism in East Asia The intervening years have seen the advent and demise of military rule with South Korea now having a democratically elected government Although the US strategy thus seems successful the political crises of 1995 in fact indicate that many obstacles remain here to the adoption of Western style democracy This study argues that socialization in general and political socialization in particular are key factors in any analysis of democracy be it in Korea or elsewhere Accordingly the work draws on moral education textbooks together with surveys and interviews among members of the urban intellectual elite In this manner the psychological roots of power and authority key concepts to an understanding of good government are explored      **The Journal of Korean Studies, Volume 12, Number 1 (Fall 2007)** John Duncan,Gi-Wook Shin, Stanford University,2007-12-07 The University of Washington Korea Studies Program in collaboration with Rowman Littlefield Publishers is proud to publish the Journal of Korean Studies      Appendix to the Rice Economy of Asia Beth Rose,2016-03-17 Originally published in 1985 Beth Rose s Appendix to the Rice Economy of Asia provides twenty six tables detailing various rice statistics across Asia from the beginning of the twentieth century through to the 1980 s Statistics presented include total crop area rice production and yield import and export rice prices farm wages and populations of countries or areas within Asia This title will be of interest to students of Environmental Studies and Economics      **Talking to North Korea** James Glyn Ford,2018-09-20 Despite recent attempts at negotiation the attitudes of both Kim Jong un s regime and the West seem unchanged North Korea is still shrouded in mystery and there are no clear plans for the future Can we trust either side to bring about peace And if so how This provocative insider s account blasts apart the myths which paint North Korea as a rogue state run by a mad leader Informed by extraordinary access to the country s leadership Glyn Ford investigates the regime from the inside providing game changing insights which Trump and his administration have failed to do Acknowledging that North Korea is a deeply flawed and repressive state he nonetheless shows that sections of the leadership are desperate to modernise and end their isolation With chapters on recent developments including the Trump Kim summit Ford supports a dialogue between East and West whilst also criticising Trump s facile attempts Talking to North Korea provides a road map for averting a war in North East Asia that would threaten the lives of millions      **Joan Robinson and the Americans** MarjorieShepherd Turner,2017-07-05 Employees with valuable skills and a sense of their own worth can make their jobs pay perks and career opportunities different from those of their coworkers in subtle and not so subtle ways

This book shows how such individual arrangements can be made fair and acceptable to coworkers and beneficial to both the employee and the employer

**The Accumulation of Waste** Ali Kadri,2023-08-21 Phenomenal waste has surfaced as the social form and substance of value In capital s totalizing process which commodifies all that comes in its way wasting classes consume the wasted classes This book addresses the metamorphosis of value into waste and it focuses on wars as industries of perfect waste Whereas wasted man is visibly the prevalent commodity on sale this central element in the commodity relation is rarely mentioned In line with this the book examines how waste as a surrogate value eludes the crises of capital and maintains its resilience

*Soviet-Third World Relations in a Capitalist World* Ellen Brun,Jacques Hersh,1990-06-18 Several aspects of Soviet Third World relations in a capitalist world are looked at in this book These include tracing the roots of the Third World within the Marxist tradition and discussing Soviet attitudes to the capitalist world market as they have evolved from the Bolshevik era to today

**Arming the Two Koreas** Taik-Young Hamm,2012-10-12 North Korea has traditionally been seen as militarily superior to South Korea in the long feud between the two nations This brilliantly argued book taps into a great deal of news interest in North Korea at the moment in the wake of recent hostility against Japan Hamm controversially shows that the received idea of Koreas military strength is partly a myth created by South Korea to justify a huge programme of rearmament

**North Korea** Hazel Smith,2015-04-06 In this historically grounded richly empirical study of social and economic transformation in North Korea Hazel Smith evaluates the marketization from below that followed the devastating famine of the early 1990s estimated to be the cause of nearly one million fatalities Smith shows how the end of the Cold War in Europe and the famine brought radical social change to all of North Korean society This major new study analyses how marketization transformed the interests expectations and values of the entire society including Party members the military women and men the young and the elderly Smith shows how the daily life of North Koreans has become alienated from the daily pronouncements of the North Korean government Challenging stereotypes of twenty five million North Koreans as mere bystanders in history Smith argues that North Koreans are neither victims nor villains but active agents of their own destiny

**VICTORY OF JUCHE KOREA IS A SCIENCE** Dermot Hudson,2018-08-16 The Democratic People s Republic of Korea has won victory after victory in confrontation with the US and world imperialism culminating in the DPRK being able to sit down and negotiate with the US as an equal partner What is the secret of the DPRK s victories The victory of the DPRK is a science This book is published to mark the 70th anniversary of the foundation of the Democratic People s Republic of Korea

*Globalization, Inequality and the Commodification of Life and Well-Being* Mammo Muchie,2006-01-31 Wealth and money which are meant to be sources of human happiness and facilitators of good social relations has instead become a monstrosity beyond human control The unbridled quest to make money and accumulate wealth as well as assign social signification on the basis of the outcome of individuals efforts in the process has ended up distorting existence and the meaning of being human itself This work brings together a collection of very provocative and

challenging articles that confront the problems created by wealth Can there be happiness when wealth is increasingly concentrated in fewer and fewer hands Can wealth really bring happiness And what are the implications of the current trend to commodify everything for the project of human happiness The contributors to the volume argue that there is a need to change wealth accumulation and its core purpose They contend that from wealth accumulation the gear must change to wealth alleviation because the ways the rich become wealthy often correlate with the ways the number of the poor increase Following from this they argue that rather than the current focus on poverty alleviation the focus should shift to wealth alleviation because a happy future for all lies in promoting human well being and removing human ill being through the spring wells of solidarity and humanity

**New East Asian Economic Development: The Interaction of Capitalism and Socialism** Lily Xiao Hong Lee, 2016-09-16 This text documents the economic development of East Asian countries in order to highlight the beneficial techniques used to increase growth Socialist and capitalist structures are discussed complete with an analysis of the future extent of interaction between East Asian countries

web the vector equation defines the placement of the line or a plane in the three dimensional framework the vector equation  
of a line is  $\vec{r} = \lambda \vec{b}$  and the vector equation of a plane is  $\vec{r} \cdot \vec{n} = d$  let us check the vector equations and how to find the vector  
equations of a line or a plane with the help of examples faqs 1 what are vector equations

web what is a vector in math a1 we can define a vector as an object that has both a direction and a magnitude geometrically  
we can represent a vector as a directed line segment whose length is the magnitude of the vector and with an arrow  
indicating the direction moreover two examples of vectors are those that characterize force and velocity

web the generalization of the number zero to vector algebra is called the null vector denoted by  $\mathbf{0}$  all components of the null vector are zero  $0\ 0\ i\ 0\ j\ 0\ k$  so the null vector has no length and no direction two vectors  $\mathbf{a}$  and  $\mathbf{b}$  are equal vectors if and only if their difference is the null vector
