Socialization The Approach From Social Anthropology:

Socialization Philip Mayer, 2013-10-08 This volume represents the first major effort to apply the distinctive techniques of British social anthropology to the subject of socialization Along with methodological and theoretical discussion there is a variety of new field material from Africa Southeast Asia and elsewhere First published in 1967 *Socialization* Philip Mayer, 2004 Socialization Philip Mayer, 1967 **Socialization** Association of Social Anthropologists of the Commonwealth, Philip Mayer, 1967 **Socialization: the Approach from Social Anthropology** Association of Social Anthropologists of the Commonwealth, 1973 Socialization Association of Social Anthropologists of the Commonwealth, Conference on Socialization, 1970 **Social Life and Development in Hong Kong** Ambrose Y. C. King, Rance P. L. Lee, 1981 The papers in this volume prepared by social scientists with different specializations address selected aspects of Hong Kong's post War development Cross Cultural Approaches to Learning Charles Christopher Harrington, 1973 *The Oxford Handbook of the Archaeology of Childhood* Sally Crawford, Dawn Hadley, Gillian Shepherd, 2018-05-10 Real understanding of past societies is not possible without including children and yet they have been strangely invisible in the archaeological record Compelling explanation about past societies cannot be achieved without including and investigating children and childhood However marginal the traces of children's bodies and bricolage may seem compared to adults archaeological evidence of children and childhood can be found in the most astonishing places and spaces The archaeology of childhood is one of the most exciting and challenging areas for new discovery about past societies Children are part of every human society but childhood is a cultural construct Each society develops its own idea about what a childhood should be what children can or should do and how they are trained to take their place in the world Children also play a part in creating the archaeological record itself In this volume experts from around the world ask questions about childhood thresholds of age and growth childhood in the material culture the death of children and the intersection of the childhood and the social economic religious and political worlds of societies in the past *Empirical Theology in Texts and Tables* Leslie J. Francis, Mandy Robbins, Jeff Astley, 2009 Empirical theology offers fresh and stimulating insights into the concerns of both the Church and the Academy It does this by accessing relevant empirical evidence using the tools of the social sciences and placing this evidence in the context of theological critique and contemporary debate In this pioneering collection of focused essays leading experts of empirical theology illustrate key perspectives within this rapidly expanding discipline The first section of the book explores theoretical issues underpinning the main methods of obtaining empirical data and the use of these data within theology The other two sections display the role both of qualitative studies and of the analysis of quantitative data in exploring a range of theological beliefs and religious social and educational concerns Social Cognition and Social Development E. Tory Higgins, Diane N. Ruble, William W. Hartup, 1985-07-26 In psychology there has been an explosion of interest in what has come to be called social cognition How do people categorise and

conceptualise social situations obligations and relationships And what are the implications of their categorisations and conceptualisations for behaviour Developmental and social psychologists are currently converging on the developmental roots of social cognitive abilities This timely 1983 book offers a useful overview of research and theory concerning social cognition and social behaviour in children at the time of this book s publication A full range of theoretical approaches is represented key problems are systematically reviewed and research programmes and perspectives of leading psychologists in the field are summarised
