Social and Cultural Dynamics Emiliana Mangone, 2017-11-03 Marking the 50th anniversary of Pitirim A Sorokin s death this Brief offers a critical analysis of the renowned sociologist s theories while highlighting some of his more overlooked ones Topics explored include cultural dynamics the relationship between culture society and personality social mobility and the socio cultural causality of time and space In addition this book updates these theories by discussing their relevance in current cultural contexts The Brief aims to extend the work started by Sorokin on the promotion and application of integralism an approach that conceives the change of any sociocultural phenomena as the result of the combination of external and internal forces It uses this method to analyse socio cultural phenomena propose new policy and enhance the development of humanity from the point of view of culture This book also discusses sociology s relationship with other sciences In particular it touches upon the interplay between sociology and psychology and pushes for a new scientific awareness that is transdisciplinary The end point is a new vision of humanity and its development from a cultural context *Social and Cultural Dynamics* will be of interest to social scientists sociologists and psychologists as well as professionals in these disciplines

At the Crossroads: Lessons and Challenges in Computational Social Science Javier Borge-Holthoefer, Yamir Moreno, Taha Yasseri, 2016-11-29 The interest of physicists in economic and social questions is not new for over four decades we have witnessed the emergence of what is called nowadays sociophysics and econophysics vigorous and challenging areas within the wider Interdisciplinary Physics With tools borrowed from Statistical Physics and Complexity this new area of study have already made important contributions which in turn have fostered the development of novel theoretical foundations in Social Science and Economics via mathematical approaches agent based modelling and numerical simulations From these foundations Computational Social Science has grown to incorporate as well the empirical component aided by the recent data deluge from the Web 2 0 and 3 0 closing in this way the experiment theory cycle in the best tradition of Physics

Western Christian Advocate , 1898 **The Social Science Encyclopedia** Adam Kuper, 2003-12-16 The Social Science Encyclopedia first published in 1985 to acclaim from social scientists librarians and students was thoroughly revised in 1996 when reviewers began to describe it as a classic This third edition has been radically recast Over half the entries are new or have been entirely rewritten and most of the balance have been substantially revised Written by an international team of contributors the Encyclopedia offers a global perspective on the key issues within the social sciences Some 500 entries cover a variety of enduring and newly vital areas of study and research methods Experts

review theoretical debates from neo evolutionism and rational choice theory to poststructuralism and address the great questions that cut across the social sciences What is the influence of genes on behaviour What is the nature of consciousness and cognition What are the causes of poverty and wealth What are the roots of conflict wars revolutions and genocidal violence This authoritative reference work is aimed at anyone with a serious interest in contemporary academic thinking about the individual in society Journal of Social Science ,1894 *Social Science and the Christian Scriptures, Volume 1*

Anthony J. Blasi,2017-04-13 Sociologist Anthony Blasi analyzes early Christianity using multiple social scientific theories including those of Max Weber Georg Simmel Karl Marx Antonio Gramsci Max Scheler Alfred Schutz and contemporary theorists He investigates the canonical New Testament books as representative of early Christianity a sample based on usage and he takes the books in the chronological order in which they were written The result is a series of stills that depict the movement at different stages in its development His approaches often neglected in New Testament studies include such sociological subfields as sect theory the routinization of charisma conflict stratification theory stigma the sociology of knowledge new religions the sociology of secrecy marginality liminality syncretism the social role of intellectuals the poor person as a type the sick role degradation ceremonies populism the sociology of migration the sociology of time mergers the sociology of law and the sociology of written communication Needing to treat the New Testament text as social data Blasi uses his background in biblical studies and a review of a vast literature to establish the chronology of the compositions of the New Testament books and to present the data in a new translation that is accessible to non specialists **Modernism and the Social Sciences**
