Canadian Plains Research Center, 1998 This collection of essays presents a variety of scholarly explorations of the nature and role of the Mounties in the Prairie Provinces from the formation of the North West Mounted Police in 1873-74 to its transformation into the Royal Canadian Mounted Police in 1919-20 The essays are grouped into five broad themes relations with First Nations law enforcement social issues including relations with minority groups and labour movements characteristics of the police force and crisis and change police immigrant relations response to labour unrest and the origins of domestic intelligence and counter subversion An epilogue presents the case for the dramatic change of the force after 1919-20 and the new force's use of the positive image created by the old force **The Police and Society** Victor E. Kappeler, Brian P. Schaefer, 2018-09-11 The most productive route to understanding the dynamic interrelationships of the police with society is to examine the recurring central themes in policing The articles in this anthology represent some of the best scholarship on compelling issues Selected for both their complementary and competing natures the articles serve as touchstones for one another often challenging previous conceptions Many selections question the methods by which information was acquired the practices that evolved from that information and the background assumptions behind the construction of practices Some of the many issues and conflicts addressed in this collection include What is the nature of the police role and function Who benefits from police service Who is harmed How are public safety and social order secured while maintaining individual rights and freedoms To what extent do our expectations about the police and society reflect our values and demands Are the police a society unto themselves Is policing at a critical crossroads The editors assembled this volume with the goal of helping readers to identify underlying assumptions to dissect how values influence inquiries and to discover connections A better understanding of the role of the police in society provides a solid foundation for assessing the efficacy of future police society relationships **The Police in Society** Ben Whitaker, 2023-03-31 In 1964 Ben Whitaker who later defeated a former Home Secretary to become Hampstead's first ever Labour MP and a Junior Minister wrote *The Police* to try and reconcile in his own words the very different impression police officers make when as a barrister one is defending from when one is prosecuting in court This book was widely praised as The best and most impartial book that has yet been written on the police Lord Gardiner The most truthful picture to date Sunday Times Valuable Observer Terse and telling Sunday Telegraph Excellent generous and sensible Punch After that time the crime situation seriously deteriorated as uncertainties about the

exact nature of the police's role in a democracy multiplied Ben Whitaker spent five years interviewing policemen and others and in this title originally published in 1979 almost entirely rewrote his assessment and proposals for ameliorating the situation Perceptively critically yet impartially he analyses the effectiveness sociology misconduct and future of the police and suggests radical reforms in their powers and relationship with the public The Police in Society was timely and essential reading for anybody concerned with the human rights of individuals in a democratic society at the time and today can be read and enjoyed in its historical context

Policing Soviet Society Louise Shelley, 2005-08-02 Since its creation immediately after the Russian revolution the militia has had a broad range of social political and economic functions necessary to direct and control a highly centralized socialist state However as the communist party lost its legitimacy the militia was increasingly thrust into the front line of political conflict A task it was unsuited to perform Despite the efforts of perestroika to reform it the collapse of the Soviet state also led to the collapse of morale within the militia Louise Shelley provides a comprehensive view of the history development functions personnel and operations of the militia from its inception until after the demise of the Soviet state The militia combined elements of continental socialist and colonial policing Its functions and operations changed with the development of the state yet it always intervened significantly in citizen's lives and citizens were very much involved in their own control Over time the militia became more removed from politics and more concerned with crime control but it always remained a tool of the party This is the first book to analyze the militia which was one of the most vital elements of control within the Soviet State It will be a crucial aid to understanding the authoritarianism of the communist system and its legacy for Russia and the successor states Louise I Shelley is Professor at the Department of Justice Law and Society and the School of International Service at the American University Washington D C

The Best Police in the World Barbara Weinberger, 2016-12-05 Based on interviews with former police officers this book addresses two main issues Firstly the question of how the police themselves viewed the priorities of the job and what they considered their role to be This is the first study to consider this question and its implications for the style and content of police work Secondly it challenges the view of the prewar period as a Golden Age and shows that policing from the 1930s to the 1960s was not as unproblematic as has often been assumed Police violence and the fabrication of evidence were more prevalent than the cosy image of the British TV series Dixon of Dock Green would have us believe The fact that this image often went unchallenged has much to do with prevailing concepts of masculinity and with the greater moral certitude of the police within a more stable and stratified society

Routledge International Handbook of Police Ethnography Jenny Fleming, Sarah Charman, 2023-01-31 Ethnography has a long history in the humanities and social sciences and has provided the base line in the field of police studies for over 60 years We have recently witnessed a resurgence in ethnographic practice among police scholars and this Handbook is a response to that revival Students and academics are returning to the ethnography arena and the study of police in situ to explain the evocative worlds of the police The list of ethnographic sites is vast and all have fed the rejuvenation of ethnographic endeavour Together they suggest innovation theoretical depth broad geographical boundaries multi site experiments and multi disciplinarity all of which are central to the exploration of police and policing in the twenty first century This Handbook encapsulates the revival of police ethnography by exploring its multidisciplinary field and cataloguing the ongoing ethnographic work It offers an original and international contribution to the field of police studies and research methods providing a comprehensive and overarching guide to police ethnography We see the previous classics in every page and still note the influence of the early ethnographers At the same time we see the innovative breadth and diversity of these narratives The aim of this Handbook is to highlight the mosaic that is police ethnography at a point in time and note with pleasure its contribution to the field once more Ethnography may be messy difficult and at times uncooperative but its results offer a unique insight into the perspectives of people and organisations that can hide in plain

Ageing, Crime and Society Azrini Wahidin, Maureen Cain, 2013-05-13 The relationship between ageing and crime has been a much neglected issue the focus rather being on youth This books aims to redress this imbalance bringing together a group of leading authorities to address key issues on the subject of crime and ageing considering older people as both victims and perpetrators of crime and looking too at conditions faced by older prisoners The book draws upon both criminology and gerontology as well as sociology and social policy to help understand the complex relationship between ageing and the criminal justice system and argues that the needs of elders must be far more firmly on the penal policy agenda than is the case currently Ageing Crime and Society will be concerned with unsilencing a group who because of their age and status have been muted by the criminal justice system
