

Society at a Glance: OECD Social Indicators 2005 Edition

Summary in Turkish

Topluma Bakış: 2005 OECD Sosyal Göstergeleri

Türkçe Özet

Farklı ekonomilerin gelişme düzeyleri arasında yapılan karşılaştırmalar çoğunlukla sadece ekonomik boyut üzerinde odaklanıp ulusal çıktı seviyeleri (örneğin, GSMH ve kişi başına düşen GSMH) incelenir. Bununla birlikte ekonomik kaynakların bulunabilirliğinin yaşam standartlarını ve hükümetlerin kamu hizmetleri sunma kapasitesini etkilediği açık olmakla birlikte, daha geniş anlamda toplumsal gelişmeyi, çeşitli ülkelerin hükümetlerinin ve toplumsal sistemlerin olabildiğince çok sayıda yurttaşlarının yaşam kalitesinde iyileşmeler gerçekleştirilmesinde sağladığı ilerlemeyi ölçmek için kullanılabilecek çok çeşitli başka göstergeler de mevcuttur. *Topluma Bakış*, OECD'nin iki yılda bir çıkardığı toplumsal göstergeler özeti olup, toplumlarımızın eşitlik, sağlık ve sosyal uyum bakımlarından nereye gitmekte olduğuna dair nicel verilere artan talebi karşılamaya çalışmaktadır. Bu özet önceki basımlarda yer verilen bazı göstergeleri güncelleştirmekte, yeni göstergeler eklemekte, bunlar arasında ise ilk kez subjektif refah ölçümleri yer almaktadır.

Raporda yer verilen göstergeler, iki temel noktaya ışık tutulması açısından seçilmiştir: OECD ülkeleri toplumsal gelişme bakımından ne kadar ilerlemiştir ve bu ne ölçüde hükümetlerin ya da diğer sosyal kurumların bilinçli politika eylemlerinin sonucunda olmuştur. Bu soruların (ilgili verilerin ancak sınırlı ölçülerde bulunabilmesinin ikisini de daha zor bir hale getirmesine karşın) ikincisinin birincisinden daha zorlu olduğu açıktır. Toplumsal gelişmenin politika hedefleri olan yönleri (örneğin, işsizlik) ile ilgili göstergeleri incelemek ve bunların zaman içerisinde nasıl değiştiğini görmek daha kolaydır. Bu değişikliklerin ne ölçüde hükümet politikasının sonucu gerçekleştiğini belirlemek ise daha zordur. Dahası, bu hedeflerin gerçekleştirilmesine adanmış kaynakları da hesaba katmak, bunun yanı sıra sonuçların söz konusu maliyetleri haklı gösterip göstermediğini sorgulamak gerekir. Ülkeler arasındaki karşılaştırmalar bu konuya bir hayli ışık tutabilir. Örneğin, bunlar sosyal harcamaların görece yüksek olduğu ülkelerin aynı zamanda daha iyi sosyal sonuçlar da elde edip etmediklerini gösterebilir. Elbette, bu bazı ülkelerdeki sonuçların diğerlerinden daha zayıf olduğuna bir açıklama getirmez, hele bir çözüm hiç sunmaz, ama iyileşmeye gidilebilecek alanları gözler önüne serebilir.

[Employment Regimes and the Quality of Work](#) Duncan Gallie,2009 The book makes a major new contribution to the sociology of employment by comparing the quality of working life in European societies with very different institutional systems France Germany Great Britain Spain and Sweden It focuses in particular on skills and skill development opportunities for training the scope for initiative in work the difficulty of combining work and family life and the security of employment Drawing on a range of nationally representative surveys it reveals striking differences in the quality of work in different European countries It also provides for the first time rigorous comparative evidence on the experiences of different types of employee and an assessment of whether there has been a trend over time to greater polarization between a core workforce of relatively privileged employees and a peripheral workforce suffering from cumulative disadvantage It explores the relevance of three influential theoretical perspectives focussing respectively on the common dynamics of capitalist societies differences in production regimes between capitalist societies and differences in the institutional systems of employment regulation It argues that it is the third of these an employment regime perspective that provides the most convincing account of the factors that affect the quality of work in capitalist societies The findings underline the importance of differences in national policies for people's experiences of work and point to the need for a renewal at European level of initiatives for improving the quality of work

Freeman, Birgitta

Swedenborg, Robert H. Topel, 2010-04-15 Over the course of the twentieth century Sweden carried out one of the most ambitious experiments by a capitalist market economy in developing a large and active welfare state Sweden s generous social programs and the economic equality they fostered became an example for other countries to emulate Of late Sweden has also been much discussed as a model of how to deal with financial and economic crisis due to the country s recovery from a banking crisis in the mid 1990s At that time economists heatedly debated whether the welfare state caused Sweden s crisis and should be reformed a debate with clear parallels to current concerns over capitalism Bringing together leading economists *Reforming the Welfare State* examines Sweden s policies in response to the mid 1990s crisis and the implications for the subsequent recovery Among the issues investigated are the way changes in the labor market tax and benefit policies local government policy industrial structure and international trade affected Sweden s recovery The way that Sweden addressed its economic challenges provides valuable insight into the viability of large welfare states and more broadly into the way modern economies deal with crisis *Work and Family Policy* Stephen Sweet, 2013-09-13 Numerous challenges exist in respect to integrating work and family institutions and there is remarkable cross national variation in the ways that societies respond to these concerns with policy This volume examines these concerns by focusing on cross national variation in structural cultural arrangements Consistent support is found in respect to the prospects of expanding resources for working families both in the opportunity to provide care as well as to remain integrated in the workforce However the studies in this volume offer qualifiers explaining why some effects are not as strong as might be hoped and why effects are

sometimes restricted to particular classifications of workers or families It is apparent that when different societies implement similar policies they do not necessarily do so with the same intended outcomes and usage is mediated by how policies are received by employers and workers The chapters in this book speak to the merits of international comparative analysis in identifying the strategies challenges and benefits of providing resources to workers and their families This book was originally published as a special issue of *Community Work Family*

Welfare State Change in Leading OECD Countries
 Ingmar Schustereder, 2010-05-30 Ingmar J Schustereder investigates the relative influence of economic globalization and post industrial developments as drivers behind recent welfare state change and examines to what extent different national systems of social protection have preserved their core institutional features over time

Children, Families, and States
 Cristina Allemann-Ghionda, Karen Hagemann, Konrad H. Jarausch, 2011-03-01 Due to the demand for flexible working hours and employees who are available around the clock the time patterns of childcare and schooling have increasingly become a political issue Comparing the development of different time policies of half day and all day provisions in a variety of Eastern and Western European countries since the end of World War II this innovative volume brings together internationally known experts from the fields of comparative education history and the social and political sciences and makes a significant contribution to this new interdisciplinary field of comparative study

Human Resource Management in Education Justine Mercer, Bernard Barker, Richard Bird, 2010-06-10 The study of educational leadership makes little sense unless it is in relation to who the leaders are how they are leading what is being led and with what effect Based on the premise that learning is at the heart of leadership and that leaders themselves should be learners the Leadership for Learning series explores the connections between educational leadership policy curriculum human resources and accountability Each book in the series approaches its subject matter through a three fold structure of process themes and impact Series Editors Clive Dimmock Mark Brundrett and Les Bell The effects of globalization are evident in education policy around the world Governments from the United States to China are driving their education systems to produce more skilled more flexible more adaptable employees The pressure to perform is all pervasive meaning present day leaders have to go beyond the principles of humane and equitable management practice and look for a competitive advantage through strategies that enhance motivation build capacity for organizational improvement and produce better value added performance Human Resource Management in Education debates the fundamental question of how far effective human resource management policies can enable schools and colleges to transcend the paradoxes of the global reform agenda It analyses the relationship between leadership the classroom and results and uses case studies to explore the extent to which performance is enhanced by distributed leadership and constrained by social political and economic contexts The book is divided into three parts examining the current context of human resource management by critically analysing globalization human capital theory and worldwide trends in government legislation societal values and teacher culture s exploring two pairs of contemporary themes in human

resource management by comparing the roles of leaders and followers on the one hand and contrasting learning and greedy organizations on the other looking at how the context and the themes impact on particular contemporary practices in human resource management by analysing the selection and development of professionals the remodelling of school teams and the management of performance The authors carefully blend advocacy with evidence to ensure relevance for both practitioner and academic audiences across the globe The book would be of particular use to students on masters courses in educational leadership

Social Vulnerability in Europe Costanzo Ranci,2009-11-30 This book explores the dimensions and characteristics of social vulnerability in Western Europe It provides a broad empirical foundation for recent theories on the emergence of new social risks in post industrial societies revealing to what extent social risks are compromising the normal functioning of the European population

Comparative Studies and the Politics of Modern Medical Care Theodore R. Marmor,Richard Freeman,Kieke G. H. Okma,2009-01-01 This text offers an account of health reform struggles in developed democracies It explores the ambitions and realities of health care regulation financing and delivery across countries

Academic Careers and the Gender Gap Maureen Baker,2012-08-31 Women earn nearly half of all new PhDs in Canada the United States Australia New Zealand and the United Kingdom Why then do they occupy a disproportionate number of the junior level positions at universities while their male counterparts continue to snap up 80 percent of the more prestigious jobs In *Academic Careers and the Gender Gap* Maureen Baker explains the reasons behind this inequality drawing on interviews with male and female scholars previous research and her own thirty eight year academic career Using a feminist political economy and interpretive theoretical framework she argues that current university priorities and collegial relations often magnify the impact of gendered families and identities and perpetuate the academic gender gap Baker sets academia in the wider context of restructuring labour markets and gendered earning patterns within families The result is a revealing portrait of significant and persistent differences in job security institutional affiliation working hours rank salary job satisfaction collegial networks and career length between male and female scholars

Negotiating the Life Course Ann Evans,Janeen Baxter,2012-10-23 Pathways through the life course have changed considerably in recent decades Many of our assumptions about leaving home starting new relationships and having children have been turned upside down It is now almost as common to have children prior to marriage as afterwards and certainly much more common to live together before marrying than to marry without first living together Women are more likely to remain in the labour force after having children and many families struggle with problems of work family balance at some stage in their lives particularly when they have young children But how much has really changed Is there really more diversity in how individuals transition through these life course stages or just variations at the margin with most people following a standard work and family life course This volume makes use of rich longitudinal data from a unique Australian project to examine these issues Drawing on broader theories of social change and demographic transitions in an international context each chapter provides a detailed

empirical assessment of the ways in which Australian adults negotiate their work and family lives In doing so the volume provides important insight into the ways in which recent demographic social and economic changes both challenge and reproduce gender divisions Encyclopedia of Motherhood Andrea O'Reilly, 2010-04-06 In the last decade the topic of motherhood has emerged as a distinct and established field of scholarly inquiry A cursory review of motherhood research reveals that hundreds of scholarly articles have been published on almost every motherhood theme imaginable The first ever on the topic this Encyclopedia of Motherhood helps to both demarcate motherhood as a scholarly field and an academic discipline and to direct its future development With more than 700 entries these three volumes provide information on the central terms concepts topics issues themes debates theories and texts of this new discipline Further the encyclopedia examines the topic of motherhood in various contexts such as history and geography and by academic discipline Key Features Provides an overview of the topic of motherhood in many and diverse disciplines such as anthropology sociology psychology and philosophy Examines the meaning and experience of motherhood in many time periods from classic civilizations to present day Includes an entry for all the influential theorists of maternal scholarship from the pioneering theories to the more recent writings Covers issues and events of our current times including entries on the mommy blog the motherhood memoir terrorism reproductive technologies HIV AIDS and LGBT families Explores geographical cultural and ethnic diversity with an entry for almost every country in the world as well as entries on lesbian immigrant adoptive single nonresidential young poor mothers and mothers with disabilities Key Themes History of Motherhood Issues in Motherhood Motherhood and Family Motherhood and Health Motherhood and Society Motherhood Around the World Motherhood in the United States Motherhood Studies Prominent Mothers In human society few institutions are as important as motherhood and this unique encyclopedia captures the interdisciplinary foundation of the subject in one convenient reference The scope of the Encyclopedia of Motherhood is focused on providing a comprehensive resource to understanding the complexities of motherhood for academic and public libraries written by scholars and institutional experts in the social and behavioral sciences
