Subject Guide to Books in Print, 1993 [A Short Introduction to World Religions](#) Tim Dowley, 2018-07-01 This leading textbook for world religions is now available in a more concise version. Many of the features of Introduction to World Religions are retained in this volume but with focus on the religious traditions themselves. The section on religions of antiquity has been removed and key content in each chapter streamlined to increase accessibility for students in their study and research of the world's religious traditions. Known and valued for its balanced approach, this book offers an arresting layout with rich illustrations. It continues to provide broad coverage of diverse religions including indigenous religions: Hinduism, Buddhism, Jainism, Judaism, Christianity, Islam, Sikhism, and Chinese, Korean, and Japanese religions. The user-friendly content is enhanced by charts of religious festivals, historic timelines, updated maps of the world's religions, and a useful glossary. Both historical overviews and modern perspectives for each religion are included. This edition includes several updates made to the new third edition, including a new design, a new section on women and religion, and a newly revised section on religions in today's world.

[Reading and Writing in the Global Workplace](#) Beatrice Quarshie Smith, 2012-06-14 Reading and Writing in the Global Workplace: Gender, Literacy, and Outsourcing in Ghana by Beatrice Quarshie Smith explores the conditions that underlie the outsourcing of US data processing work in Ghana. Here Beatrice Quarshie Smith describes the convergence and interplay of at least four different socio-economic forces: 1) the digital and satellite technology enabling virtual environments for global outsourced data processing; 2) the historical development of Ghana as a politically stable Anglophone society with a relatively strong tradition of public education; 3) the neoliberal economic restructuring policies advanced by the World Bank and the International Monetary Fund; and 4) the ready availability of women seeking to enter the formal wage economy, either to seek independence from their roles within traditional families or in order to support their families. The author's comparative study of two distinctly different workplaces reveals significant insights about problems of organizational hierarchy and management, employee relations in the cross-cultural environments of outsourced business and IT process work. Through extensive interviews, the book sheds light on the educational backgrounds, day-to-day struggles, fears, and aspirations of the workers. Quarshie Smith develops this multi-faceted analysis with keen insights into the representational limitations and ethical responsibilities of the researcher. This pioneering study about outsourced data processing work in West Africa opens up a new area for research and offers a fresh perspective from which to consider outsourcing in other regions of the globe.

The Handbook of Intercultural Discourse and Communication Christina Bratt Paulston, Scott F. Kiesling, Elizabeth S. Rangel, 2014-09-15 The Handbook of Intercultural Discourse and Communication. Intercultural discourse and communication is emerging as an important area of research in a highly globalized and

connected world where language and culture contact is frequent and cultural misunderstandings and misconceptions abound. The handbook contains contributions from established scholars and up and coming researchers from a range of subfields to survey the theoretical perspectives and applied work in this burgeoning area of linguistics. This timely volume features first a part that introduces the background detailing the scope and topics of the field followed by one that describes four different theoretical approaches and their basic research questions from Ethnography of Speaking and John Gumperz's Interactional Sociolinguistics to Critical Approaches and Postmodernism. The third part, Interactional Discourse Features, describes and explains the features of talk that are frequently studied in cross-cultural research such as turn taking and politeness. The volume also includes a section on Interactional Discourse sites examining cross-cultural communication such as Greek and Turkish discourse. The final part considers a variety of domains in which interaction takes place such as Translation, Business, Law, Medicine, Education, and Religion.

Ontario Library Review and Book-selection Guide, 1924 **Readers' Guide to Periodical Literature**, 1917 **Race, Culture and Media** Anamik Saha, 2025-05-14. *Race Culture and Media* is a critical, impassioned and accessible exploration of this complex relationship. This new edition moves past conventional discourse on diversity, challenging you to confront the real issues of power and participation. Anamik Saha's approachable writing starts from the ground up, leading you through nuanced topics such as how capitalism and legacies of colonialism shape media content today and the value and limitations of key concepts like stereotype representation and racialisation. You will be empowered to understand the multifaceted theories and experiences of race and its intersections with gender, sexuality and class. Analyse key topics from how algorithms/AI produce racism in digital media to the politics of superdiversity in popular culture to ongoing anti-migrant and anti-Muslim racism in news media. Engage with brand new case studies which cover the latest developments on how race is made in media including YouTube and social media. This book will challenge your preconceptions and ignite your critical thinking, making it essential reading for students and researchers across media communication and cultural studies.

Quarterly Guide for Readers Finsbury (England). Public Library, 1914 **Reader's Guide to the Social Sciences** Jonathan Michie, 2014-02-03. This 2-volume work includes approximately 1,200 entries in A-Z order, critically reviewing the literature on specific topics from abortion to world systems theory. In addition, nine major entries cover each of the major disciplines: political economy, management and business, human geography, politics, sociology, law, psychology, organizational behavior, and the history and development of the social sciences in a broader sense.

Critical Reading, Critical Thinking Richard Pirozzi, 2000. *Critical Reading Critical Thinking* offers a brief review of important developmental reading skills followed by a sequence of chapters covering critical reading. This is the first developmental reading text to take a contemporary issues approach. The examples and readings are all taken from today's headlines and news shows. The readings in *Critical Reading Critical Thinking* range from animal rights to European integration to teen pregnancy to religious and cultural clashes in the United States.

Book Danielle Fuller, DeNel Rehberg Sedo, 2013-04-02 Literary culture has become a form of popular culture over the last fifteen years thanks to the success of televised book clubs film adaptations big box book stores online bookselling and face to face and online book groups This volume offers the first critical analysis of mass reading events and the contemporary meanings of reading in the UK USA and Canada based on original interviews and surveys with readers and event organizers The resurgence of book groups has inspired new cultural formations of what the authors call shared reading They interrogate the enduring attraction of an old technology for readers community organizers and government agencies exploring the social practices inspired by the sharing of books in public spaces and revealing the complex ideological investments made by readers cultural workers institutions and the mass media in the meanings of reading Bridges and Barriers Eddie

Williams, 2014-06-03 Recent decades have seen sub Saharan Africa decline in both economic and human terms The rich North has responded with a barrage of well publicized initiatives from pop concerts to international commitments on debt relief aid trade and good governance Among the complex of factors necessary to sustain economic and human development education receives little media coverage although it is crucial However education must be effective This book argues that in Anglophone Africa education is not effective because of the use of English rather than children s first languages both as the medium of instruction and also as the language in which children are first taught to read Research is presented from Malawi and Zambia countries with contrasting language policies using evidence from tests in English and African languages small group discussions and classroom observation The findings show that English medium policies in Africa do not give students any advantage in English over first language policies while the use of English discriminates against girls and rural children The book concludes that much education in Africa is a barrier rather than a bridge to learning because of the prevailing language ideology which has resulted in massive over estimation of the value of English While appropriate language policies

alone will not solve education and development difficulties in Africa they do have a positive contribution to make The evidence presented here suggests they are failing to make that contribution *The World Tomorrow* Norman Thomas,John Nevin Sayre,Devere Allen,Kirby Page,1923 *Resources in Education* ,1982 The Challenge of Late Industrialization S. Kimura,2006-12-12 Globalization has created new opportunities and challenges for late industrialization This book identifies underlying factors for latecomer firms to catch up as system integrators or upgrade as suppliers in fast globalizing industries With in depth case studies several perspectives on firm growth are integrated into a comprehensive framework
