

SPANISH SOCIOLOGY AT THE TURN OF THE CENTURY

Luis Moreno

1. Introduction

Sociology is the latecomer in Spanish social sciences. The first chair of sociology was created in 1898. It was filled by Manuel Sales i Ferré¹. Sociology in Spain has had, since that date, an eventful and uneven history. After a period of steady development it suffered a very serious trauma under Franco's dictatorship, which decimated a brilliant generation of Spanish intellectuals through political persecution, imprisonment, exile and death. Political life only returned to normal after 1975. This was a prerequisite for the institutionalization of Spanish intellectual life². Today, the discipline of

¹ In the first wave of Spanish social scientists, along with Manuel Sales i Ferré we should include the «protosociologist» Jaime Balme as well as Guernsindo de Azcárate, Adolfo González Mosada (considered by many to be the first «genuine» Spanish sociologist) and Severino Amor.

² Here we should allude to the polemical institutional criterion put forward by Auguste Comte. In the way that theology could have been the fundamental science of feudal society, its present-day existence being purely residual, sociology would be the science of bourgeois, industrial and democratic society, the texture of which corresponds most adequately to that initiated by the Spanish Constitution of 1978. On this question cf. Sozelo, I, 1973, *passim*.

Twentieth Century St. Antony's College (University of Oxford). Asian Studies Centre, University of Newcastle upon Tyne. East Asia Centre, 1986 **Catalog and Circular**, 1918 **Rethinking Order** Nicole Falkenhayner, Andreas Langenohl, Johannes Scheu, Doris Schweitzer, Kacper Szulecki, 2015-11-15 Stability is at the core of every discussion of order organization or institutionalization From an inside perspective the stability of each order constituting element is assumed In contrast in critical discourses instability e.g. through ambiguity or non control is located at the outside of the social order as

its negative By treating this argumentative symmetrical structure as idioms of stability and destabilization the articles try to rethink order How can we describe structures from a perspective in which instability non control and irrationality are not contrary to ordering systems but contribute to their stability How might the notions of identity knowledge and institutions in social and cultural studies be contested by this change of perspective *Christianity & Western Thought: Faith & reason in the 19th century* Colin Brown, Steve Wilkens, Alan G. Padgett, 1990 In this much anticipated sequel to Colin Brown's *Christianity and Western Thought* Volume 1 Steve Wilkens and Alan Padgett follow Christianity and philosophy's interaction through the monumental changes of the nineteenth century **The Nineteenth Century**, 1884 **The Twentieth Century**, 1884

Syed Hussein Alatas and Critical Social Theory, 2022-11-21 Known for his most famous works such as *The Myth of the Lazy Native* 1977 and *The Problem of Corruption* 1986 as well as his concept of the captive mind Syed Hussein Alatas 1928 2007 has made significant contributions to decolonization theory social theory and other forms of thought critical of the current neo colonial and neoliberal world Although Edward Said acknowledged his debt to Syed Hussein Alatas work especially its influence on Edward W Said's most famous book *Orientalism* Syed Hussein Alatas work has long been overlooked by Western academia trapped in its Eurocentric perspective Spurred by the commitment to continue the development of Syed Hussein Alatas work this edited volume attempts to demonstrate the relevance of Syed Hussein Alatas to numerous academic fields and the potential for his thought to be transformative in the international socio political realm Twenty authors from various disciplines and countries have contributed to *Syed Hussein Alatas and Critical Social Theory Decolonizing the Captive Mind* in the hopes of bringing his work to the forefront of social and political theory Contributors are Mona Abaza Joseph Alagha Masturah Alatas Sharifah Munirah Alatas Syed Farid Alatas Syed Imad Alatas Hira Amin Dustin J Byrd Zawawi Ibrahim N Jayaram Teo Lee Ken Habibul Haque Khondker Victor T King Jo o Marcelo E Maia Seyed Javad Miri Carimo Mohomed Chandra Muzaffar Norshahril Saat Mostafa Soueid and Esmaeil Zeiny

Contributions to Communicational, Cultural, Media, and Digital Studies Paulo M. Barroso, 2020-10-15 This book is about communication a universal yet particular form of linking people and ideas It details the growing and multiform uses functions interactions and effects of communication in the contemporary world society and highlights the dialectic between society and communication It will also serve to stimulate critical thinking The book is structured as a compendium of the sociology of communication providing a practical and pedagogical didactic resource especially for students including case studies summary tables questions for review and excerpts from selected works and authors This book is a major contribution to cultural media and digital studies and will be of interest to those who live in an increasingly digital technological and global society and want to understand a phenomenon as social as it is inevitable spontaneous and influential

Investigating Sociological Theory Charles Turner, 2010-03-22 This book is not an encyclopaedic survey of the most influential or important sociological theories of the 20th century nor is it an institutional history of sociological theory it is not

a textbook a distillation of the accumulated knowledge of a particular discipline nor is it a crib a set of ready made and easily remembered answers to imagined examination questions It is more of a reader s guide a series of hints and suggestions for those who whether students or teachers believe that sociology is a profession and a discipline but also something more Charles Turner in the introduction to Investigating Sociological Theory This is an accessible enlivening introductory book that provides a shot in the arm for all those who maintain the relevance of sociology for understanding the modern world It will inspire discussion in classes and provide teachers with an opportunity to discuss the big questions in theory history social order and social change Turner provides a wealth of concrete examples which demonstrate what a sociological perspective can do to unpack and illuminate everyday life The book allows students to understand sociological theory from the inside It moves effortlessly beyond the mere parade of great names and core ideas to introduce concepts that can be used to understand the social world in which we live where this world has come from and where it might be heading Original informed and deftly written with the needs of students in mind this book is an antidote to arid theorising and the dull recitation of the grand sociological tradition

The Nineteenth Century and After ,1884 **Identity Economics** Meral Uzunöz Altan,Meltem İnce Yenilmez,Oğuzhan Altınkoz,Sinem Bağçe,2024-07-08

Critics contend that identity economics overemphasizes social identities as drivers of economic activity potentially obscuring other elements including personal preferences incentives and market pressures Identity related notions are challenging to measure and quantify meaningfully and rigorously which is one of the most common criticisms Identity economics has long been debated by economic scientists and practitioners but it is still considered to be in its infancy which also draws attention to the absence of a clear consensus and solid empirical support This book fills that gap by providing an in depth analysis of the main claims made in favour of identity economics It explores the reliability of identity based explanations the difficulties with measurement and quantification concerns about overgeneralization and essentialism the function of economic institutions policy implications a lack of agreement and empirical evidence and considerations of intersectionality and multidimensionality The book considers three interrelated aims Firstly it familiarizes readers with the concept of Identity Economics Secondly and essentially it persuades a larger audience of the relevance and creativity of this sector and thirdly it advocates for the applicability of the approach to the field of knowledge The focus of the examination centres around these three objectives Few would argue that identity impacts our decisions but given that solid theory is predicated on good abstraction the real question is whether we lose anything by excluding identity from the theory The book skilfully weaves together the literature from several disciplines including regional gender labour social areas of studies thus academics students and researchers in these fields will find the individual contributions useful for their respective areas of study

Reviewing **Sociology At The Turn Of The Century**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence.
