Music in World War II Pamela M. Potter,Christina L. Baade,Roberta Montemorra Marvin,2020-10-06 A collection of essays examining the roles played by music in American and European society during the Second World War Global conflicts of the twentieth century fundamentally transformed not only national boundaries power relations and global economies but also the arts and culture of every nation involved An important unacknowledged aspect of these conflicts is that they have unique musical soundtracks Music in World War II explores how music and sound took on

radically different dimensions in the United States and Europe before during and after World War II. Additionally, the collection examines the impact of radio and film as the disseminators of the war's musical soundtrack. Contributors contend that the European and American soundtrack of World War II was largely one of escapism rather than the lofty solemn heroic and celebratory mode of war music in the past. Furthermore, they explore the variety of experiences of populations forced from their homes and interned in civilian and POW camps in Europe and the United States, examining how music in these environments played a crucial role in maintaining ties to an idealized home and constructing politicized notions of national and ethnic identity. This fascinating well-constructed volume of essays builds understanding of the role and importance of music during periods of conflict and highlights the unique aspects of music during World War II. A collection that offers deeply informed interdisciplinary and original views on a myriad of musical practices in Europe, Great Britain, and the United States during the period.

Crosshairs on the Kill Zone Charles W. Sasser, Craig Roberts, 2004-07-01 From the jungles of Vietnam to the unforgiving deserts of Afghanistan and Iraq, one breed of soldier has achieved legendary status in the arena of combat: the sniper. From the authors of the classic sniper chronicle *One Shot One Kill* comes a new generation of true tales from some of the most expert and deadly marksmen in the world. Meet Adelbert Waldron II, whose 109 confirmed kills in Vietnam made him the most successful sniper in American military history, and Tom Moose Ferran, who coined the term "Fetch" whereupon the infantry would retrieve the sniper's dead quarry. Also included are stories from snipers in Beirut, the Bosnian conflict, and both wars with Iraq, including the feat of Sergeants Joshua Hamblin and Owen Mulder, who took down thirty-two enemy soldiers in a single day outside Baghdad in 2003. The military sniper has evolved into one of the most dangerous and highly skilled warrior professions. They suffer through weather, terrain, and enemy action, lay unmoving for days on end, and take out their targets with unerring accuracy, proving that the deadliest weapon in any battle anywhere in the world is a single well-aimed shot.
