Eight Pieces of Empire Lawrence Scott Sheets, 2012-10-30 An unforgettable memoir Boston Globe that provides a window into the wildly divergent nations that once comprised the Soviet Union from a former

NPR reporter Not with a bang but with a quiet ten minute address on Christmas Day 1991 this is how the Soviet Union met its end But in the wake of that one deceptively calm moment conflict and violence soon followed Some of the emergent new countries began to shed totalitarianism while other sought to revive their own dead empires or were led by ex Soviet leaders who built equally or even more repressive political machines Since the late 1980s Lawrence Scott Sheets lived and reported from the former USSR and saw firsthand the reverberations of the empire s collapse through the rise of Vladimir Putin in the new Russia *Eight Pieces of Empire* draws readers into the people politics and day to day life painting a vivid portrait of a tumultuous time Sheets stories about people living through these tectonic shifts of fortune a trio of female saboteurs in Chechnya the chaos of newly independent Georgia in the early 1990s a defiant resident of the Chernobyl exclusion zone in Ukraine young hustlers eager to strike it rich in the post Soviet economic vacuum reveal the underreported and surprising ways in which the ghosts of empire still haunt these lands and the world *Narratives of Identity* William Taylor,2014-10-16

The relationship between the Syrian Orthodox Church in the Ottoman Empire and the Church of England developed substantially between 1895 and 1914 as contacts between them grew As the character of this emerging relationship changed it contributed to the formation of both churches own narratives of identity The wider context in which this took place was a period of instability in the international order particularly within the Ottoman Empire culminating in the outbreak of the First World War effectively bringing this phase of sustained contact to an end *Narratives of Identity* makes use of Syriac Garshuni and Arabic primary sources from Syrian Orthodox archives in Turkey and Syria alongside Ottoman documents from the Babakanlık Osmanlı Arşivi Istanbul and a range of English archival sources The preconceptions of both Churches are analysed using a philosophical framework provided by the work of Paul Ricoeur especially his concepts of significant memory anamnesis translation and the search for mutual recognition Anamnesis and translation were extensively employed in the formation of narratives of identity that needed to be understood by both Churches The identity claims of the Tractarian section of the Church of England and of the Ottoman Syrian Orthodox Church are examined using this framework The detailed content of the theological dialogue between them is then examined and placed in the context of the rapidly changing demography of eastern Anatolia the Syrian Orthodox heartland The late Ottoman state was characterised by an increased instability for all its non Muslim minorities which contributed to the perceived threats to Ottoman Syrian Orthodoxy both from within and without Finally a new teleological framework is proposed in order to better understand these exchanges taking seriously the amamnestic insights of the narratives of identity of both the Syrian Orthodox Church and the Church of England from 1895 to 1914 **The China-Pakistan Axis** Andrew Small,2020 The first book length analysis of an often secretive but mutually beneficial military and strategic partnership **Themata Politica** Christos C. Evangelizou,2021-01-20 This book is a collection of timely political articles and essays They focus primarily on political themes relevant to Greek Turkish relations the Cyprus problem the obstacles that Turkey faces in the EU and the problems that the US war on terror

has created for them all Written by a person of Hellenic ancestry a trained philosopher sensitive poet and free spirit the items of this collection are characterized by frank talk freedom of thought fresh ideas and historical insights that penetrate the past sharply as they try to discern the future of humanity In these essays the author s love for things Hellenic is surely exaggerated But if anything in human history deserves excessive eulogy and praise it should be without doubt the Hellenic spirit and its passionate love of wisdom and freedom
