Sorcerer As Apprentice Stalin As Commissar Of Nationalities 1917 1924:

The Sorcerer as Apprentice Stephen Blank,1994-10-30 A rich history based on original research about how current nationality and ethnic problems originated with the Narkomnats and Stalin as its chief **The Russian Revolution and Civil War 1917-1921** Jonathan Smele,2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature The Russian Revolution and Civil War 1917 1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state *Historical Dictionary of the Russian Civil Wars, 1916-1926* Jonathan D. Smele,2015-11-19 This book is a detailed reference of the twentieth century struggles that were waged across and beyond the decaying Russian Empire at the end of the First World War as tsarism and democratic alternatives to it collapsed and the world's first Communist state the Union of Soviet Socialist Republics was born At the same time it is a necessary corrective to studies that have viewed events of the time as a unitary Russian Civil War that sprang from the Russian Revolution of 1917 Instead it contributes to the ongoing process of integrating the civil wars into a continuum of crises that wracked the Russian Empire and its would be successor states across a prolonged period The *Historical Dictionary of the Russian Civil Wars 1916 1926* covers the history of this period through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has almost 2 000 cross referenced entries on individuals political and governmental institutions and political parties and military formations and concepts as well as religion art film propaganda uniforms and weaponry This book is an excellent access point for students researchers and anyone wanting to know more about the Russian Civil War **Across the Revolutionary Divide** Theodore R. Weeks,2011-06-24 *Across the Revolutionary Divide* Russia and the USSR 1861 1945 offers a broad interpretive account of Russian history from the emancipation of the serfs to the end of World War II Provides a coherent overview of Russia's development from 1861 through to 1945 Reflects the latest scholarship by taking a thematic approach to Russian history and bridging the revolutionary divide of 1917 Covers political economic cultural and everyday life issues during a period of major changes in Russian history Addresses throughout the diversity of national groups cultures and religions in the Russian Empire and USSR Shows how the radical policies adopted after 1917 both changed Russia and perpetuated an economic and political rigidity that continues to influence modern society **Does Russian Democracy Have a Future?** ,1994

Ethnic Relations in Post-Soviet Russia Andrew Foxall,2014-10-03 While the collapse of communism in Russia was

relatively peaceful ethnic relations have been deteriorating since then This deterioration poses a threat to the functioning of the Russian state and is a major obstacle to its future development Analysing ethnic relations in the North Caucasus this book demonstrates how a myriad of processes that characterised post Soviet transition including demographic change economic upheaval geopolitical instability and political re structuring have affected daily life for citizens It raises important questions about ethnicity identity nationalism sovereignty and territoriality in the post Soviet space *Studies in Kurdish History* Djene Rhys Bajalan,Sara Zandi Karimi,2017-07-06 Recent events in the Middle East have propelled the once marginalized Kurdish community to the centre of regional and indeed world affairs The growing significance of the Kurds in the politics of the Middle East has lead to greater interest amongst both academics and policy makers regarding the community s culture politics and history This current volume seeks address this growing interest by presenting a selection of articles from leading experts on the history of the Kurds These articles scrutinize a variety of subjects which provide important context to today s Kurdish question It includes contributions which contextualize the evolution of a distinctive Kurdish identity and culture Furthermore it includes works which seek to examine the impact of the gradual transformation of state power in the Middle East more precisely the breakdown of imperial orders and the concurrent emergence of the modern nation state on the relationship between the Kurds and the central governments under which they lived during the nineteenth and early twentieth century In doing so this volume will be of interest to all those wishing to gain a deeper historical understand of the present day Kurdish affairs This book was published as a special issue of Iranian Studies

Creating Nationality in Central Europe, 1880-1950 Tomasz Kamusella,James Bjork,Timothy Wilson,Anna Novikov,2016-04-14 In the immediate aftermath of the First World War Upper Silesia was the site of the largest formal exercise in self determination in European history the 1921 Plebiscite This asked the inhabitants of Europe s second largest industrial region the deceptively straightforward question of whether they preferred to be Germans or Poles but spectacularly failed to clarify their national identity demonstrating instead the strength of transnational regionalist and sub national allegiances and of allegiances other than nationality such as religion As such Upper Silesia which was partitioned and re partitioned between 1922 and 1945 and subjected to Czechization Germanization Polonization forced emigration expulsion and extermination illustrates the limits of nation building projects and nation building narratives imposed from outside This book explores a range of topics related to nationality issues in Upper Silesia putting forward the results of extensive new research It highlights the flaws at the heart of attempts to shape Europe as homogenously national polities and compares the fate of Upper Silesia with the many other European regions where similar problems occurred *Russia and the Idea of the West* Robert English,2000-10-25 An intriguing intellectual portrait of a generation of Soviet reformers this book is also a fascinating case study of how ideas can change the course of history In most analyses of the Cold War s end the ideological aspects of Gorbachev s new thinking are treated largely as incidental to the broader considerations of power as

gloss on what was essentially a retreat forced by crisis and decline Robert English makes a major contribution by demonstrating that Gorbachev's foreign policy was in fact the result of an intellectual revolution English analyzes the rise of a liberal policy academic elite and its impact on the Cold War's end English worked in the archives of the USSR Foreign Ministry and also gained access to the restricted collections of leading foreign policy institutes He also conducted nearly 400 interviews with Soviet intellectuals and policy makers from Khrushchev and Brezhnev era Politburo members to Perestroika era notables such as Eduard Shevardnadze and Gorbachev himself English traces the rise of a Westernizing worldview from the post Stalin years through a group of liberals in the late 1960s 70s to a circle of close advisers who spurred Gorbachev's most radical reforms

Central Asia's Second Chance Martha Brill Olcott, 2010-03-01 A leading authority on Central Asia offers a sweeping review of the region's path from independence to the post 9/11 world The first decade of Central Asian independence was disappointing for those who envisioned a straightforward transition from Soviet republics to independent states with market economies and democratic political systems Leaders excused political failures by pointing to security risks including the presence of terrorist training camps in Afghanistan The situation changed dramatically after 9/11 when the camps were largely destroyed and the United States introduced a military presence More importantly the international community engaged with these states to give them a second chance to address social and economic problems But neither the aid givers nor the recipients were willing to approach problems in new ways Now terrorists groups are once again making their presence felt and some states may be becoming global security risks This book explores how the region squandered its second chance and what might happen next

The Political Thought of Joseph Stalin Erik van Ree, 2003-08-27 This book presents a comprehensive analysis of the political thought of Joseph Stalin Making full use of the documentation that has recently become available including Stalin's private library with his handwritten margin notes the book provides many insights on Stalin and also on western and Russian Marxist intellectual traditions Overall the book argues that Stalin's political thought is not primarily indebted to the Russian autocratic tradition but belongs to a tradition of revolutionary patriotism that stretches back through revolutionary Marxism to Jacobin thought in the French Revolution It makes interesting comparisons between Stalin Lenin Bukharin and Trotsky and explains a great deal about the mindset of those brought up in the Stalinist era and about the era's many key problems including the industrial revolution from above socialist cultural policy Soviet treatment of nationalities pre war and Cold War foreign policy and the purges

Creating Languages in Central Europe During the Last Millennium T. Kamusella, 2014-12-22 After 1918 Central Europe's multiethnic empires were replaced by nation states which gave rise to an unusual ethnolinguistic kind of nationalism This book provides a detailed history and linguistic analysis of how the many languages of Central Europe have developed from the 10th century to the present day

Managing Frontiers in Qing China, 2016-11-14 In *Managing Frontiers in Qing China* historians and anthropologists explore China's imperial expansion in Inner Asia focusing on early Qing empire building in Mongolia Xinjiang

Tibet and beyond Central Asian perspectives and comparisons to Russia's Asian empire are included. Taking an institutional historical and historical anthropological approach, the essays engage with two Qing agencies well known for their governance of non-Han groups: the Lifanyuan and Libu. This volume offers a comprehensive overview of the Lifanyuan and Libu, revising and assessing the state of affairs in the under-researched field of these two institutions. The contributors explore the imperial policies towards and the shifting classifications of minority groups in the Qing Empire, explicitly pairing and comparing the Lifanyuan and Libu as in some sense cognate agencies. This text offers insight into how China's past has continued to inform its modern policies as well as the geopolitical make-up of East Asia and beyond. Contributors include: Uradyn E. Bulag, Chia Ning, Pamela Kyle Crossley, Nicola Di Cosmo, Dorothea Heuschert, Laage Laura Hostetler, Fabienne Jagou, Mei-hua Lan, Dittmar Schorkowitz, Song Tong, Michael Weiers, Ye Baichuan, Yuan Jian, Zhang Yongjiang.

Central Asian Security Roy Allison, Lena Jonson, 2004-05-13. This volume is the first comprehensive scholarly analysis of the strategic reconfiguration of Central Asia as Russia has become more disengaged from the nations in the region and as these nations have developed new relations to the south-east and west. The international implications are enormous because of the rich energy sources (oil and natural gas) located in the Caspian Sea area. The authors assess a variety of internal security policy challenges confronting these states, for example, the potential for conflict arising from such factors as a mixed ethnic population, resource scarcity, particularly in relation to water management, and an Islamic revival. They also examine the security policy content of relations between the Central Asian states and regional and international powers, specifically the stakes, interests, and policies of Russia, China, Iran, Turkey, and the United States. These internal challenges and the evolution of relations with external powers may result in new cooperative relationships, but they may also lead to destabilizing rivalry and interstate enmity in Central Asia. It is important to identify new patterns of relevance for future security cooperation in the region, but the potential for a new security system or for new institutions to manage security in the region remains uncertain. These issues are explored by a team of prominent specialists from Western Europe, the United States, Russia, and China.

'Tis Some Poor Fellow's Skull Patrick Wilson Gore, 2008. Seeking to fragment any possible source of resistance to Moscow's authority, Stalin split the Armenian nation between Armenia and Azerbaijan. When the USSR fell apart, the outlook seemed bleak for the Nagorno-Karabagh Armenians, locked uncomfortably into Azerbaijan. Random pogroms were followed by systematic ethnic cleansing. And armed resistance? Oil-rich Azerbaijan cracked down, and a bloody conflict ensued in which elements of the old Soviet military machine were put to the test in unexpected ways. Afghan Mujahidin, Chechen terrorists, and missing nuclear weapons all played roles in Nagorno-Karabagh's struggle to survive.

The Bolsheviks and the National Question, 1917-23 J. Smith, 1999-01-13. In a timely re-examination of the origins of the system which fell apart so dramatically in 1991, this book deals with the policies of the Soviets towards the non-Russian nationalities of the former Russian Empire. Making extensive use of previously unavailable material from the Soviet archives, Jeremy Smith explores the attempts of the Bolsheviks to promote the

development of minority nationalities in the Soviet context through a combination of political cultural and educational measures and looks at the disputes surrounding the creation of the Soviet Union

Stalin: From Theology to the Philosophy of Socialism in Power Roland Boer, 2017-10-17 This book not only explicates Stalin's thoughts but thinks with and especially through Stalin. It argues that Stalin often thought at the intersections between theology and Marxist political philosophy especially regarding key issues of socialism in power. Careful and sustained attention to Stalin's written texts is the primary approach used. The result is a series of arresting efforts to develop the Marxist tradition in unexpected ways. Starting from a sympathetic attitude toward socialism in power, this book provides us with an extremely insightful interpretation of Stalin's philosophy of socialism. It is not only a successful academic effort to re-articulate Stalin's philosophy but also a creative effort to understand socialism in power in the context of both the former Soviet Union and contemporary China. Zhang Shuangli, Professor of Marxist philosophy, Fudan University. Boer's book, far from both veneration and demonization of Stalin, throws new light on the classic themes of Marxism and the Communist Movement: language, nation, state, and the stages of constructing post-capitalist society. It is an original book that also pays great attention to the People's Republic of China arising from the reforms of Deng Xiaoping and which is valuable to those who beyond the twentieth century want to understand the time and the world in which we live.

Domenico Losurdo, University of Urbino, Italy, author of *Stalin: The History and Critique of a Black Legend*

Stalin's Wars Geoffrey Roberts, 2006-01-01 This breakthrough book provides a detailed reconstruction of Stalin's leadership from the outbreak of the Second World War in 1939 to his death in 1953. Making use of a wealth of new material from Russian archives, Geoffrey Roberts challenges a long list of standard perceptions of Stalin: his qualities as a leader, his relationships with his own generals and with other great world leaders, his foreign policy, and his role in instigating the Cold War. While frankly exploring the full extent of Stalin's brutalities and their impact on the Soviet people, Roberts also uncovers evidence leading to the stunning conclusion that Stalin was both the greatest military leader of the twentieth century and a remarkable politician who sought to avoid the Cold War and establish a long-term detente with the capitalist world. By means of an integrated military, political, and diplomatic narrative, the author draws a sustained and compelling personal portrait of the Soviet leader. The resulting picture is fascinating and contradictory, and it will inevitably change the way we understand Stalin and his place in history. Roberts depicts a despot who helped save the world for democracy, a personal charmer who disciplined mercilessly, a utopian ideologue who could be a practical realist, and a warlord who undertook the role of architect of post-war peace.

Yiddish and the Creation of Soviet Jewish Culture David Shneer, 2004-02-13 *Yiddish and the Creation of Soviet Jewish Culture* gives voice to the activists empowered by the state to create a Soviet Jewish national culture. These activists were striving for a national revolution to create a new culture for Jews to identify as Jews on new secular Soviet terms. This book explores the ways in which Jews were part of, not apart from, both the Soviet system and Jewish history. Soviet Jewish culture worked within contemporary Jewish national and cultural trends.

and simultaneously participated in the larger project of propagating the Soviet state and ideology Soviet Jewish activists were not nationalists or Soviets but both at once David Shneer addresses some of the painful truths about Jews own implication and imbrication in the Soviet system and inserts their role in twentieth century Jewish culture into the narrative of Jewish history

Russian Colonization and the Genesis of Kazak National Consciousness S. Sabol, 2003-03-13 This study concentrates upon the socio political and nationalist views of three influential representatives of the early twentieth century Kazak intelligentsia Alikhan Bokeilhanov Akhmet Baitursynov and Mukhamedzhan Seralin The resulting discourse on literature education and politics shaped the Kazak nationalist movement before 1920 This study draws on the published works of the Kazak intelligentsia the periodicals Ai qap 1911 1915 and Kazak 1913 1918 and archival records from the Central State Archives of the Republic of Kazakhstan

Eventually, you will certainly discover a additional experience and attainment by spending more cash. yet when? reach you agree to that you require to acquire those every needs similar to having significantly cash? Why dont you attempt to get something basic in the beginning? Thats something that will lead you to understand even more going on for the globe, experience, some places, in imitation of history, amusement, and a lot more?
