Sort Of Life:

A Sort of Life Graham Greene, 1971 An autobiography covering the early part of Graham Greene's life to about the mid twenties **A Sort of Life** Graham Greene, 1971 **This Complicated Form of Life** Newton Garver, 1994 Far from overthrowing or stepping outside that tradition Wittgenstein builds on it draws from it and contributes brilliantly to the fruition of certain elements in it In *This Complicated Form of Life* Garver analyzes from several angles Wittgenstein's relationship to Kant and to what Finch has called Wittgenstein's completion of Kant's revolt against the Cartesian hegemony of epistemology in philosophy Life as We Do Not Know It Peter Ward, 2007-02-27 An engrossing and revelatory first look at the search for alien life on Earth and beyond For the past twenty years Peter Ward has been at the forefront of popular science writing with books such as the influential and controversial *Rare Earth* In *Life as We Do Not Know It* Ward with his signature blend of eloquence humor and learned insight vividly details the latest scientific findings cutting edge research and intrepid new theories on the subject of alien life and the possible extraterrestrial origins of life on Earth In lucid entertaining and bold prose Peter Ward once again challenges our notions of life on earth and beyond **Pleasure and the Good Life** Fred Feldman, 2004-03-25 Fred Feldman's fascinating new book sets out to defend hedonism as a theory about the Good Life He tries to show that when carefully and charitably interpreted certain forms of hedonism yield plausible evaluations of human lives Feldman begins by explaining what we mean when we ask what the Good Life is He argues that this should not be taken to be a question about the morally good life or about the beneficial life Rather the question concerns the general features of the life that is good in itself for the one who lives it Hedonism says roughly that the Good Life is the pleasant life After showing that the usual formulations of hedonism are often confused or incoherent Feldman presents a simple clear coherent form of sensory hedonism that provides a starting point for discussion He then considers a webalogue of classic objections to hedonism coming from sources as diverse as Plato Aristotle Brentano Ross Moore Rawls Kagan Nozick Brandt and others One of Feldman's central themes is that there is an important distinction between the forms of hedonism that emphasize sensory pleasure and those that emphasize attitudinal pleasure Feldman formulates several kinds of hedonism based on the idea that attitudinal pleasure is the Good He claims that attitudinal forms of hedonism which have often been ignored in the literature are worthy of more careful attention Another main theme of the book is the plasticity of hedonism Hedonism comes in many forms Attitudinal hedonism is especially receptive to variations and modifications Feldman illustrates this plasticity by formulating several variants of attitudinal hedonism and showing how they evade some of the objections He also shows how it is possible to develop forms of hedonism that are equivalent to the allegedly anti hedonistic theory of G E Moore and the Aristotelian theory according to which the Good Life is the life of virtue or flourishing He also formulates hedonisms relevantly like the ones defended by Aristippus and Mill Feldman argues that a carefully developed form of attitudinal hedonism is not refuted by objections concerning the shape of a life He also defends the claim that all of

the alleged forms of hedonism discussed in the book genuinely deserve to be called hedonism Finally after dealing with the last of the objections he gives a sketch of his hedonistic vision of the Good Life

Life and Times of Frederick Douglass Frederick Douglass, 2022-06-30 It will be seen in these pages that I have lived several lives in one first the life of slavery secondly the life of a fugitive from slavery thirdly the life of comparative freedom fourthly the life of conflict and battle and fifthly the life of victory if not complete at least assured First published in 1892 Life and Times of Frederick Douglass Written By Himself is the final autobiography written by Frederick Douglass 1818 1895 a man who was born into slavery in Talbot County Maryland Securing his self liberation at twenty years of age in 1838 he went on to become the most renowned antislavery activist social justice campaigner author orator philosopher essayist historian intellectual statesman and liberator in U S history A powerful literary work Douglass final autobiography shares the stories of his several lives in one Beginning with his war against the hell black system of human bondage Douglass bears witness to his personal experiences of mind body and soul destroying tragedies Living a new life as a fugitive from slavery he tells his audiences of his decades long labours as a world leading freedom fighter Ever vigilant in his protest against the discriminatory persecutions endured by millions of my people he testifies to the terrible reality that his life of comparative freedom necessitated a lifelong fight against the inhumane injustices of American prejudice against colour Living a death defying life of conflict and battle during the Civil

War Douglass celebrates the life of victory promised by post war civil rights legislation only to condemn the failures of the U S nation either to exterminate slavery or secure equal rights for all All too painfully aware that the conflict between the spirit of liberty and the spirit of slavery was far from over and would become the unending struggle for aftercoming generations in the ongoing war against white supremacy Douglass remained a fearless fighter against the infernal and barbarous spirit of slavery wherever I find it to the day that he died This new edition examines Douglass memorialization of his own and his mother Harriet Bailey s first hand experiences of enslavement and of their mental liberation through a love of letters his representation of Civil War Black combat heroism his conviction that education means emancipation and finally his unending battle with white publishers for the freedom to tell my story This volume reproduces Frederick Douglass emotionally powerful and politically hard hitting anti lynching speech Lessons of the Hour published in 1894 ABOUT THE SERIES For over 100 years Oxford World s Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford s commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more Aspects of Child Life and Education of G.Stanley-Hall and Some of His Pupils Granville Stanley Hall,1921 **Thinking in the Ruins** Michael P. Hodges,John Lachs,2000 While Ludwig Wittgenstein 1889 1951 and George Santayana 1863 1952 may never have met or even have studied one another s work they experienced similar cultural conditions and their thinking took similar shapes Yet until now their respective bodies of work have been examined separately and in isolation from one another Santayana is often regarded as an aesthetician and metaphysician but Wittgenstein s work is usually seen as antithetical to the philosophical approaches favored by Santayana In this insightful new study Michael Hodges and John Lachs argue that behind the striking differences in philosophical style and vocabulary there is a surprising agreement in position The similarities have largely gone unnoticed because of their divergent styles different metaphilosophies and separate spheres of influence Hodges and Lachs show that Santayana s and Wittgenstein s works express their philosophical responses to contingency Surprisingly both thinkers turn to the integrity of human practices to establish a viable philosophical understanding of the human condition Both of these important twentieth century philosophers formed their mature views at a time when the comfortable certainties of Western civilization were crumbling all around them What they say is similar at least in part because they wished to resist the spread of ruin by relying on the calm sanity of our linguistic and other practices According to both it is not living human knowledge but a mistaken philosophical tradition that demands foundations and thus creates intellectual homelessness and displacement Both thought that to get our house in order we have to rethink our social religious philosophical and moral practices outside the context of the search for certainty This insight and the projects that flowed from it define their philosophical kinship Thinking in the Ruins will enhance our understanding of these monumental thinkers intellectual accomplishments and show how each

influenced subsequent American philosophers The book also serves as a call to philosophers to look beyond traditional classifications to the substance of philosophical thought
