Frothingham Ephraim Langdon Frothingham, 1864 ***Free Thought, Faith, and Science*** Roger Pullin, 2014-10-04 This book is about thought not the basic thought that we use to determine what to eat or wear or buy but the Free Thought we use to make personal choices about the higher things of life faith or unbelief justice morality and the development and use of our creativity Free Thought can have any outcome including unbelief or faith which is defined here as personal belief and trust in God not as a religious affiliation Free Thought is founded on free will Everyone is a unique combination of a material body mind and a spiritual soul Free Thought is the integrated and iterative processing of information from the material and spiritual realms in one or more common nonmaterial formats across a mind soul interface Through our Free Thought God and the spiritual force for evil change us and we change the material realm All truthful spiritual insights and truthful disclosures through mathematics and science come from God and it is through faith and science that we approach one whole body of truth Free Thought Faith and Science includes definitions of terms summaries of the author s beliefs and background a literature review and a questionnaire for readers It s a comprehensive and thought provoking book that will contribute to bringing more believers and nonbelievers together in an expansion of the faith science quest for truth ***Science and the spiritual*** Augustus Jay Du Bois, 1887 ***The Anthroposophical Soul Calendar and the Incarnation Cycle of Man*** Roland Schrapp, 2021-01-14

This book takes a completely new look at the Anthroposophical Soul Calendar. It is about the deeper meaning of the fifty-two weekly verses which has remained essentially unexplored in the last hundred years since the first edition by Rudolf Steiner. A dense veil of Isis was spread over them of which is well known that no mortal person can lift it. Only the immortal psycho-spiritual human being who knows himself at home in the extrasensory higher worlds is capable of doing this. Only to him the weekly verses reveal themselves as a travel guide through these worlds and lift him up to ever higher spiritual cosmic realms until he reaches the experience of God from where he gradually descends again into a new life on Earth enriched in spirit and fertilized in his soul. If the reader embarks on this journey the spiritual archetype of the Soul Calendar is ultimately unveiled to him and he achieves an extended understanding of Man and Christ. By many quotations from Rudolf Steiner's lectures and books the author virtually lets Steiner himself elucidate the breathtaking depths of his mysterious weekly verses. *The New Jerusalem Messenger*, 1883

*Science of the Cosmos, Science of the Soul* William C. Chittick, 2013-10-01 With academic courses either encouraging commercialism or cultivating zealots Chittick states that it is impossible to understand classical Islamic texts without the years of contemplative study that are anathema to the modern education system. Insisting upon a return to the ways of the ancient wisdom tradition which saw the quest for knowledge of the soul the world and God as a unifying spiritual discipline Chittick maintains that the study of Islamic texts cannot be treated separately from self-understanding. Fascinating, radical and a true challenge to modern trends in academic study this book opens a new debate in Islamic thought.
