The Good News About Bad Behavior Katherine Reynolds Lewis, 2018-04-17 The current model of parental discipline is as outdated as a rotary phone Why don't our kids do what we want them to do Parents often take the blame for misbehavior but this obscures a broader trend in our modern highly connected age children have less self control than ever About half of the current generation of children will develop a mood or behavioral disorder or a substance addiction by age eighteen Contemporary kids need to learn independence and responsibility yet our old ideas of punishments and rewards are preventing this from happening To stem this growing crisis of self regulation journalist and parenting expert Katherine Reynolds Lewis articulates what she calls The Apprenticeship Model a new theory of discipline that centers on learning the art of self control Blending new scientific research and powerful individual stories of change Lewis shows that if we trust our children to face consequences they will learn to adapt and moderate their own behavior She watches as chaotic homes become peaceful bewildered teachers see progress and her own family grows and evolves in light of these new ideas You'll recognize your own family in Lewis's sensitive realistic stories and you'll find a path to making everyone in your home more capable kinder and happier including yourself
