Terrific Majesty The Powers Of Shaka Zulu And The Limits Of Historical Intvention:

Terrific Majesty Carolyn Hamilton, 2009-07 Since his assassination in 1828 King Shaka Zulu founder of the powerful Zulu kingdom and leader of the army that nearly toppled British colonial rule in South Africa has made his empire in popular imaginations throughout Africa and the West Shaka is today the hero of Zulu nationalism the centerpiece of Inkatha ideology a demon of apartheid the namesake of a South African theme park even the subject of a major TV film *Terrific Majesty* explores the reasons for the potency of Shaka's image examining the ways it has changed over time from colonial legend through Africanist idealization to modern cultural icon This study suggests that tradition cannot be freely invented either by European observers who recorded it or by subsequent African ideologues There are particular historical limits and constraints that operate on the activities of invention and imagination and give the various images of Shaka their power These insights are illustrated with subtlety and authority in a series of highly original analyses *Terrific Majesty* is an exceptional work whose special contribution lies in the methodological lessons it delivers above all its sophisticated rehabilitation of colonial sources for the precolonial period through the demonstration that colonial texts were critically shaped by indigenous African discourse With its sensitivity to recent critical studies the book will also have a wider resonance in the fields of history anthropology cultural studies and post colonial literature

From Memory to Marble Elizabeth Rankin, Rolf Michael Schneider, 2020-02-10 For the first time the 92 metre frieze of the Voortrekker Monument in Pretoria one of the largest historical narratives in marble has been made the subject of a book The pictorial narrative of the Boer pioneers who

conquered South Africa's interior during the Great Trek 1835-52 represents a crucial period of South Africa's past. Conceptualising the frieze both reflected on and contributed to the country's socio-political debates in the 1930s and 1940s when it was made. The book considers the active role the Monument played in the rise of Afrikaner nationalism and the development of apartheid as well as its place in post-apartheid heritage. The frieze is unique in that it provides rare evidence of the complex processes followed in creating a major monument. Based on unpublished documents, drawings and models, these processes are unfolded step by step from the earliest discussions of the purpose and content of the frieze through all the stages of its design to its shipping to post-war Italy to be copied into marble from Monte Altissimo up to its final installation in the Monument. The book examines how visual representation transforms historical memory in what it chooses to recount and the forms in which it is depicted. The second volume expands on the first by investigating each of the twenty-seven scenes of the frieze in depth, providing new insights into not only the frieze but also South Africa's history. Francois van Schalkwyk of African Minds co-publisher with De Gruyter writes: *From Memory to Marble* is an open access monograph in the true sense of the word. Both volumes of the digital version of the book are available in full and free of charge from the date of publication. This approach to publishing democratises access to the latest scholarly publications across the globe. At the same time, a book such as *From Memory to Marble* with its unique and exquisite photographs of the frieze as well as its wealth of reproduced archival materials demands reception of a more traditional kind that is on the printed page. For this reason, the book is likewise available in print as two separate volumes. The printed and digital books should not be seen as separate incarnations; each brings its own advantages, working together to extend the reach and utility of *From Memory to Marble* to a range of interested readers. For more material, you can browse at Stanford's database *Voortrekker Monumentality*, a digital archive. [Wiki at War](#) James Jay Carafano, 2012. In *Wiki at War*, James Jay Carafano explains why these and other Internet-born initiatives matter and how they are likely to affect the future face of war diplomacy and domestic politics. [Wild Religion](#) David Chidester, 2012-04-23. This book examines South Africa's political journey of the late twentieth and early twenty-first century in the context of religious diversity and the recent revitalization of indigenous religion and rituals.

Changing Histories Ryôta Nishino, 2011-06-16. The teaching of history in South African and Japanese schools has attracted sustained criticism for the alleged attempts to conceal the controversial aspects of their countries' past and to inculcate ideologies favourable to the ruling regimes. This book is the first attempt to systematically compare the ways in which education bureaucracy in both nations dealt with opposition and critics in the period from ca. 1945 to 1995 when both countries were dominated by single-party governments for most of the fifty years. The author argues that both South African and Japanese education bureaucracy did not overtly express its intentions in the curriculum documents or in the textbooks but found ways to enhance its authority through a range of often subtle measures. A total of eight themes in 60 officially approved Standard 6 South African and Japanese middle school history textbooks have been selected to demonstrate the

changes and continuity This work hopes to contribute to the existing literature of comparative history by drawing lessons that would probably not have emerged from the study of either country by itself The dissertation won a publication prize at Georg Eckert Institute for Textbook Research Gendering Ethnicity in African Women's Lives Jan Bender Shetler, 2015-05-05 The elegists ancient Rome's most introspective poets filled their works with vivid first person accounts of dreams Emma Scioli examines these varied and visually striking textual dreamscapes arguing that the poets exploited dynamics of visual representation to share with readers the intensely personal experience of dreaming
