Bethami A. Dobkin, 1992-04-20 Conventional research suggests that news coverage of terrorism is a tool of the terrorist to gain public support and recognition Based on an analysis of more than 200 evening newscasts aired during the first six years of the Reagan administration *Tales of Terror* offers a detailed account of the ways in which news media escalate public panic about terrorism and encourage support for specific U S policy objectives rather than build sympathy for terrorists Bethami Dobkin explores similarities between news media and government portrayals of terrorism combining textual criticism with an interpretation of official U S policy statements and argues that government depictions and news presentations of terrorism reproduce an ideology that supports military strength and intervention Dobkin examines several specific features of news coverage the dramatic format of television news and the political interests that this format serves the narrative construction of enemies by television journalists and public officials and the political significance of the terrorist label the use and significance of testimony particularly that of people affected by crisis the mutual exploitation of political crisis by both television news producers and public officials the function of journalism in shaping the conduct of public diplomacy and public perceptions of foreign conflict and the creation of consensus about the need for military responses to political violence This revealing study will be of particular interest to scholars of communications and political science *Political Violence in*

Judaism, Christianity, and Islam Jonathan Fine, 2015-03-26 Religious political violence is by no means a new phenomenon yet there are critical differences between the various historical instances of such violence and its more current permutations Since the mid 1970s religious fundamentalist movements have been seeking to influence world order by participating in local political systems For example Islamic fundamentalism is at the heart of the Muslim Brotherhood in Egypt the Christian fundamental right wing has seen a resurgence in Europe and Jewish fundamentalism is behind the actions of Meir Kahane's Kach movement and the settler movement The shift in recent years from secular to religious political violence necessitates a reevaluation of contemporary political violence and of the concept of religious violence This text analyzes the evolution of religious political violence in both historical and contemporary perspectives Since religious political violence events are usually associated with the term terrorism the book first analyzes the origins of this controversial term and its religious manifestations It then outlines and highlights the differences between secular and religious political violence on ideological strategic and tactical levels before comparing the concept of Holy War in Judaism Christianity and Islam Lastly it shows how modern radical monotheistic religious groups interpret and manipulate their religious sources and ideas to advocate their political agendas including the practice of violence A unique comparative study of religious political violence across Judaism

Islam and Christianity this text features many international case studies from the Crusades to the Arab Spring *Terrorist Groups and the New Tribalism* Jeffrey Kaplan, 2010-02-25 The central focus of this book is a small but vitally important group of movements that constitute a distinct fifth wave of modern terrorism here called the New Tribalism Terrorist Groups and the New Tribalism examines a collection of terrorist or insurgent movements whose similarity in tactics strategic vision and desire to radically reshape their worlds to conform with a Golden Age dream of perfection which is to be achieved through a genocidal or ethnic cleansing process to make way for the emergence of a new radically perfected tribal utopia in a single generation These shared strategic and tactical factors allow them to be examined through a comparative lens as a distinct fifth wave of modern terrorism Structured around the theoretical framework of David Rapoport's Four Waves thesis the book examines anomalous movements that began within a distinct wave of international terrorism but following a crisis model has turned inwards toward radical localism tribalism and xenophobia The text is divided between theory and in depth case studies of the Ugandan Lord's Resistance Army and the Sudanese Janjaweed It concludes with a design for further field work based research This book will be of interest to students of Terrorism and Political Violence Genocide Conflict Studies African politics and Political Science in general Jeffrey Kaplan is an Associate Professor of Religion and the Director of the Institute for the Study of Religion Violence and Memory at the University of Wisconsin Oshkosh He is the author of 11 books on terrorism and political violence

Watching the Jackals Daniela Richterova, 2025-01-02 The untold history of Czechoslovakia's complex relations with Middle Eastern terrorists and revolutionaries during the closing decades of the Cold War In the 1970s and 1980s Prague became a favorite destination for the world's most prominent terrorists and revolutionaries They arrived here to seek refuge enjoy recreation or hold secret meetings aimed at securing training arms and other forms of support While some were welcome with open arms others were closely watched and were eventually ousted *Watching the Jackals* is the untold history of Czechoslovakia's complex relations with Middle Eastern terrorists and revolutionaries during the closing decades of the Cold War Based on recently declassified intelligence files Richterova unveils the story of Prague's engagement with various factions of the Palestine Liberation Organization along with some of the era's most infamous terrorists including Carlos the Jackal the Munich Olympics massacre commander Abu Daoud and the Abu Nidal Organization In this gripping account Richterova explains why Cold War Jackals gravitated toward Prague and how the country's leaders reacted to their visits and she uncovers the role Czechoslovakia's security and intelligence apparatus the StB Státní bezpečnost played in these at times dangerous liaisons Drawing on interviews and remarkably detailed records from the former Czechoslovakia now the Czech Republic and the Slovak Republic Richterova offers readers interested in the intelligence world a fascinating account of how states use their spies to pursue covert policies with violent nonstate actors The book also introduces new evidence and nuances into old debates about whether the Communist Bloc supported terrorism

Blind Spot Tim Naftali, 2009-04-24 In this revelatory new account national security historian Timothy Naftali relates the

full back story of America's attempts to fight terrorism On September 11 2001 a long history of failures missteps and blind spots in our intelligence services came to a head with tragic results At the end of World War II the OSS's X-2 department had established a seamless system for countering the threats of die-hard Nazi terrorists But those capabilities were soon forgotten and it wasn't until 1968 when Palestinian groups began a series of highly publicized airplane hijackings that the U.S. began to take counterterrorism seriously Naftali narrates the game of catch-up that various administrations and the CIA played with varying degrees of success from the Munich Games hostage taking to the raft of terrorist incidents in the mid 1980s through the first bombing of the World Trade Center in 1993 and up to 9/11 In riveting detail Naftali shows why holes in U.S. homeland security discovered by Vice President George H.W. Bush in 1986 were still a problem when his son became President and why George W. Bush did little to fix them until it was too late Naftali concludes that open liberal democracies like the U.S. are incapable of effectively stopping terrorism For anyone concerned about the future of America's security this masterful history will be necessary and eye-opening reading

Joint Inquiry Into Intelligence Community Activities Before and After the Terrorist Attacks of September 11, 2001 United States, United States. Congress. Senate. Select Committee on Intelligence, 2004

Nexus of Global Jihad Assaf Moghadam, 2017-05-30 Leading jihadist groups such as al Qaeda and the Islamic State dominate through cooperation in the form of knowledge sharing resource sharing joint training exercises and operational collaboration They build alliances and lesser partnerships with other formal and informal terrorist actors to recruit foreign fighters and spread their message worldwide raising the aggregate threat level for their declared enemies Whether they consist of friends or foes whether they are connected locally or online these networks create a wellspring of support for jihadist organizations that may fluctuate in strength or change in character but never runs dry Nexus of Global Jihad identifies types of terrorist actors the nature of their partnerships and the environments in which they prosper to explain global jihadist terrorism's ongoing success and resilience Nexus of Global Jihad brings to light an emerging style of networked cooperation that works alongside interorganizational terrorist cooperation to establish bonds of varying depth and endurance Case studies use recently declassified materials to illuminate al Qaeda's dealings from Iran to the Arabian Peninsula and the informal actors that power the Sharia4 movement The book proposes policies that increase intelligence gathering on informal terrorist actors constrain enabling environments and disrupt terrorist networks according to different types of cooperation It is a vital text for strategists and scholars struggling to understand a growing spectrum of terrorist groups working together more effectively than ever before
