A massive, jagged piece of ice is flying through the air above the truck's cab. To the left of the truck, there is a large, intense fire or explosion. The background consists of dark, snow-covered mountains under a cloudy sky. At the top, the Chinese text "未確認巨大生物襲来!!" is written in a bold, metallic font. At the bottom, the title "THE ICE" is displayed in large, stylized letters, with the Chinese characters "冰天雪地" integrated into the design. Below the title, there are several lines of small Japanese text providing credits and production information. In the bottom right corner, there is a DVD VIDEO logo.

Terror On The Ice:

Counterterror Initiatives in the Terror Finance Program United States. Congress. Senate. Committee on Banking, Housing, and Urban Affairs, 2005 *The Ice Child* Elizabeth Cooke, 2015-02-17 One of history's great unsolved mysteries is the basis for Elizabeth Cooke's exhilarating and deeply moving extreme adventure novel about Arctic exploration survival and the unshakable bond between parents and children In 1845 Sir John Franklin and his crew of 128 men set out for the Arctic in search of the Northwest Passage They were never seen or heard from again Now in an eerie replay of that tragedy renowned archaeologist and Cambridge professor Douglas Marshall has vanished in Greenland while attempting to solve the centuries old mystery When journalist Jo Harper interviews Marshall's wife it is the beginning of her own obsession with the lost expedition and with Douglas Marshall This suspenseful keenly touching tale of adventure love and survival shifts back and forth between the doomed 1845 voyage told from the perspective of young ship hand Augustus Peterman and Jo Harper's present day relationship with an extraordinary man who will change her profoundly inspiring her to undertake her own seemingly impossible journey *Into the Ice* Mark Synnott, 2025-04-15 New York Times bestselling author Mark Synnott has climbed with Alex Honnold He's scaled Mount Everest He's pioneered big wall first ascents including the north west face of the mile high Great Trango Tower and skied monster first descents But in 2022 he realized there was a dream he'd yet to achieve to sail the Northwest Passage in his own boat a feat only four hundred or so sailors have ever accomplished and in doing so try to solve the mystery of what happened to legendary nineteenth century explorer Sir John Franklin and his ships HMS Erebus and Terror Only a few hundred vessels have ever transited the Northwest Passage and substantially fewer have done so in a fiberglass hulled boat like Polar Sun But Mark was determined to return to the Arctic where he cut his teeth as a young climber and in the process investigate one of the great mysteries of exploration What really happened to Sir John Franklin and his entire 128 man crew which disappeared into these ice strewn waters 175 years ago In this pulse pounding travelogue Mark Synnott paints a vivid portrait of the Arctic which is currently warming twice as fast as any other part of our planet He weaves its history and people into the first person account of his epic journey through the Northwest Passage searching for Franklin's tomb along the way all while trying to avoid a similar fate In *Into the Ice* Mark and his crew race against time and treacherous storms in search of answers to the greatest mystery of all time What is it that drives someone to risk it all in the name of exploration *Money Laundering* United States. Congress. Senate. Caucus on International Narcotics Control, 2004 *The Ice Age Challenge* Rolf A. F. Witzsche, 2005-03-01 The Ice Age Challenge refers to the challenge that we face globally to create a new foundation for living when the coming Ice Age climate shuts down most of the world's agriculture possibly 100 to 150 years from now The novel is the first part of the second episode of the series *The Lodging for the Rose* an eight part science fantasy centered on universal love by Rolf A F Witzsche We truly are in a race against time the greatest race since the dawn of man racing to create the technologies economies finances politics and social

cultures that enable us to shift agriculture into efficient indoor facilities in order to protect our food production in the coming Ice Age environment The Earth has been in an Ice Age for 1 8 million years interspersed by the occasional warm period like the present one that is ending in spite of global warming The necessary infrastructures for survival are technologically feasible but will we empower ourselves to create them That appears to be less certain It seems that we have been put in race without the skills for it But then don t we have the potential to be fast learners In the course of exploring the question the novel touches on the collapse of the Soviet Union the Aryan invasion in historic India the face of Islam the fascist holocaust depopulation global warming nuclear fusion power indoors agriculture and principles of marriage sex culture and science
