Counter-Memorial Aesthetics Veronica Tello, 2016-10-20 Restrictive border protection policies directed toward managing the flow of refugees coming into neoliberal democracies and out of failing nation states are a defining feature of contemporary politics In this book Veronica Tello analyses how contemporary artists such as Tania Bruguera Isaac Julien Rosemary Laing Dinh Q L Dierk Schmidt Hito Steyerl Lyndell Brown and Charles Green negotiate their diverse subject positions while addressing and taking part in the production of images associated with refugee experiences and histories Tello argues that their practices which manifest across a range of contexts including Cuba the United States Australia and Europe represent an emergent global paradigm of contemporary art counter memorial aesthetics Counter Memorial Aesthetics Tello argues is characterized by its conjunction of heterogeneous signifiers and voices of many times and places generating an experimental non teleological approach to the construction of contemporary history which also takes into account the complex disorienting spatial affects of globalization Spanning performance art experimental history painting aftermath photography and video installation counter memorial aesthetics bring to the fore Tello argues how contemporary refugee flows and related traumatic events critically challenge and conflict with many existing tired if not also stubborn notions of national identity borders history and memory Building on the writings of such thinkers as Michel Foucault and Jacques Rancière this book offers a useful concept of counter memory for the twenty first century It shows how counter memorial aesthetics is not only central to the nexus of contemporary art and refugee histories but also how it can offer a way of being critically present with many other often interrelated global crises in the contemporary era

Girl on Girl Sophie Gilbert, 2015-04-29 From Atlantic critic and Pulitzer Prize finalist Sophie Gilbert a blazing critique of how early aughts pop culture turned women and girls against each other and themselves with disastrous consequences An urgent read that addresses questions around the current regression of feminism When did feminism lose its way This question feels increasingly urgent in a moment of reactionary cultural and legislative backlash when widespread uncertainty about the movement's power focus and currency threatens decades of progress Sophie Gilbert a staff writer at The Atlantic and finalist for the Pulitzer Prize in criticism provides one answer identifying an inflection point in the late 1990s and early 2000s when the energy of third wave and riot grrrl feminism collapsed into a regressive period of hyper objectification sexualization and infantilization Gilbert mines the darker side of nostalgia training her keen analytic eye on the most revealing cultural objects of the era across music film television fashion tabloid journalism and more What she recounts is harrowing from the unattainable aesthetic of Victoria's Secret ads and explicit music videos to a burgeoning internet culture vicious towards women in the spotlight and damaging for those who weren't Gilbert tracks many of the

period's dominant themes back to the explosion of internet porn tracing its widespread influence as it began to pervade our collective consciousness Gilbert paints a devastating picture of an era when a distinctly American confluence of excess materialism and power worship collided with the culture's reactionary puritanical and chauvinistic currents Amidst a collective reconsideration of the way women are treated in public *Girl on Girl* is a blistering indictment of the matrix of misogyny that undergirded the cultural production of the early twenty first century and how it continues to shape our world today
