Test Tube Envy:

Sex, Skulls, and Citizens Ashley Elizabeth Kerr, 2020-03-15 PROSE Awards Subject Category Finalist Biological Anthropology Ancient History and Archaeology 2021 Best Nineteenth Century Book Award Latin American Studies Association Nineteenth Century Section 2021 Analyzing a wide variety of late nineteenth century sources *Sex Skulls and Citizens* argues that Argentine scientific projects of the era were not just racial encounters but were also conditioned by sexual relationships in all their messy physical reality The writers studied here an eclectic group of scientists anthropologists and novelists including Estanislao Zeballos Lucio and Eduarda Mansilla Ram n Lista and Florence Dixie reflect on Indigenous sexual practices analyze the advisability and effects of interracial sex and use the language of desire to narrate encounters with Indigenous peoples as they try to scientifically pinpoint Argentina s racial identity and future potential Kerr s reach extends into history of science literary studies and history of anthropology illuminating a scholarly time and place in which the lines betwixt were much blurrier if they existed at all

Trans/acting Jacqueline Eyring Bixler, Laurietz Seda, 2009 This collection offer a series of new essays authored by leading scholars of Latin American and U S Latino theater as well as the performance script *Mexterminator vs The Global Predator* written by Guillermo Gomez Pena The fourteen essays focus on contemporary Latin American and U S Latino plays and performances and challenge the meanings of genre gender race cultural identity and performance itself in the context of globalization and shifting borders The concept of trans acting a term that connotes negotiation and or exchange provides the framework for essays that include such topics as tansculturation transnationalism transgender transgenre translation and adaptation These individual studies of contemporary theater and performance arts are complimented by trans actor Gomez Pena s *Mexterminator vs The Global Predator* a striking transgressive script that underscores the performance nature of territorial and symbolic border crossings Jacqueline Bixler is Alumni Distinguished Professor of Spanish at Virginia Tech Laurietz Seda is Associate Professor of Spanish at the University of Connecticut Storrs

Out of Bounds Dara E. Goldman, 2008 *Out of Bounds* teases out the intricacies of a territorial conception of nationhood in the context of a global reorganization that ostensibly renders historical boundaries irrelevant Hispanic Caribbean writers have traditionally pointed toward the supposed perfect equivalence of island and nation and have explained local culture as a direct consequence of that equation The major social political and demographic shifts of the twentieth century increasingly call this equation into question yet authors continue to assert its existence and its centrality in the evolution of Caribbean identity The author contends that traditional forms of identification have not been eviscerated by globalization instead they have persisted and in some cases have been intensified by recent geopolitical shifts *Out of Bounds* underscores the ongoing role of the nation as the site of identity formation In this manner the book presents Hispanic Caribbean cultural production as a case study that acutely dramatizes the paradoxical status of traditional demarcations of self definition in an increasingly globalized context

The Routledge Companion to Gender, Sex and Latin American Culture

Frederick Luis Aldama, 2018-05-24 *The Routledge Companion to Gender Sex and Latin American Culture* is the first comprehensive volume to explore the intersections between gender sexuality and the creation consumption and interpretation of popular culture in the Americas. The chapters seek to enrich our understanding of the role of pop culture in the everyday lives of its creators and consumers primarily in the 20th and 21st centuries. They reveal how popular culture expresses the historical social cultural and political commonalities that have shaped the lives of peoples that make up the Americas and also highlight how pop culture can conform to and solidify existing social hierarchies whilst on other occasions contest and resist the status quo. Front and center in this collection are issues of gender and sexuality making visible the ways in which subjects who inhabit intersectional identities sex gender race class are othered as well as demonstrating how these same subjects can and do use pop cultural phenomena in self-affirmative and progressively transformative ways. Topics covered in this volume include TV film pop and performance art hip hop dance slam poetry gender fluid religious ritual theater stand up comedy graffiti videogames photography graphic arts sports spectacles comic books sci fi and other genre novels lotería card games news web and digital media.

Comedy and Social Science Cate Watson, 2015-06-12 While there have been many sociological and psychological studies of humor few can claim to be funny. Humor may be regarded as a legitimate topic for social scientists but in general they present their research rather seriously. In academia humor tends to be trivialized and dismissed. This is more than just a missed opportunity for otherwise fun-loving academics. In literature it is readily accepted that comedy is integral to the human condition. To ignore humor is to reject a potentially insightful methodological approach as the humorous worldview presents unique opportunities for investigating the social. This book constitutes a unique resource presenting chapters on irony satire and parody as tools for analysis and means of representation as well as considering humor in the conduct of research and offering guidance on getting published. Through presenting examples from across the social sciences the book seeks to persuade and inspire rather than to prescribe an approach a closure which would ironically be inimical to the multiplicity and ambiguity which characterizes humorous research and lends it its distinctive edge.

Latin American Science Fiction M. Ginway, J. Brown, 2012-12-05 Combining work by critics from Latin America the USA and Europe *Latin American Science Fiction Theory and Practice* is the first anthology of articles in English to examine science fiction in all of Latin America from Mexico and the Caribbean to Brazil and the Southern Cone. Using a variety of sophisticated theoretical approaches the book explores not merely the development of a science fiction tradition in the region but more importantly the intricate ways in which this tradition has engaged with the most important cultural and literary debates of recent years.

Sacred Eroticism Juan Carlos Ubilluz, 2006 *Sacred Eroticism* addresses a neglected chapter in Latin American literature namely the influence of Georges Bataille and Pierre Klossowski's atheist mysticism in the Latin American erotic novel of the twentieth century. Combining a Lacanian analytical framework with an intertextualist approach Juan Carlos Ubilluz reveals how Julio Cortázar Salvador Elizondo Mario Vargas Llosa and

Juan Garcia Ponce adopted Sataille and Klossowski's aesthetic and philosophical models as a point of departure to rearticulate the modern subject's buried dimension of the sacred through various innovations on the erotic novel's form. Ubilluz examines the dialectical irruption of these literary experiments into their particular aesthetic theoretical and political contexts showing for instance that Cortazar's **From Lack to Excess** Yolanda Martínez-San Miguel, 2008. *From Lack to Excess* analyzes the narrative and rhetorical structures of Latin American colonial texts by establishing a dialogue with studies on minority discourse, minor literatures, and postcolonial theory. After reviewing the main contributions and limitations of Transatlantic Early Modern and Postcolonial studies for the interpretation of Latin American colonial textualities, Martínez-San Miguel takes as a point of departure the subtle yet pervasive semantic link between the terms minority and colonialism prevalent in current studies on ethnic and sexual identities. She then engages the disciplinary debate between Colonial Latin American studies and Early Modern Transatlantic and Postcolonial studies, paying attention to the epistemic and institutional junctures that explain the current reconfiguration of these fields. As an alternative to an exhausted debate, Martínez-San Miguel uses Gilles Deleuze and Félix Guattari's notion of a minor literature along with current studies on minority discourse to propose new close readings of texts by Hernán Cortés, Alvar Núñez Cabeza de Vaca, the Inca Garcilaso de la Vega, Carlos de Sigüenza y Góngora, and Sor Juana Inés de la Cruz. *From Lack to Excess* traces a discursive voyage that configures a linguistic matrix from the initial lack of language to the excessive Baroque representation of American reality. City Fictions Amanda Holmes, 2007. Using concepts from urban and cultural studies, *City Fictions* examines the representation of the city in the works of five important late twentieth-century Spanish American authors: Octavio Paz, Julio Cortázar, Christina Peri Rossi, Diamela Eltit, and Carlos Monsiváis. While each of these authors is influenced at least partially by a specific Spanish American city—be it Mexico City, Buenos Aires, Montevideo, or Santiago—the element that brings them together is the way in which the city is fictionalized in their work; they all equate both language and the body with urban space. In these metaphors, language breaks down and the body disintegrates, creating a disturbing picture of violent decline. The poetry of Paz associates the urban surroundings with dissolving sentences and desensitized fingertips; for Cortázar, characters walking through cities are seen as both creating and unraveling written texts. **Figural Conquistadors** Mark A. Hernández, 2006. He demonstrates how these novelists use major and marginal figures to reflect upon the ways that institutional powers invoke episodes from the discovery and conquest to legitimate the present and also to critique the recent historical past, especially in the case of Uruguay and Argentina, which endured military dictatorships in the 1970s and 1980s.
