Turning the Curse Into a Blessing: A Testimony of God's Healing Power, **The Testimony of Jesus** Witness Lee, 2005-12 The local church the church in each locality is the testimony of Jesus today The testimony of Jesus is the practical church not the church in the air or the church to come A church yet to come cannot show Jesus to people and

a church in the heavens may show Jesus to the angels but it cannot show Jesus to people on the earth Therefore we need to consider whether we truly bear the image of Jesus If we show someone an unclear picture of a person it will not be a proper testimony of him with his image and appearance We may see something in the picture but it will not be the person we claim to show The church in our locality must bear the image expression appearance and virtues of Christ **Testimony That Sticks** Karen Postal, 2019-02-04 Following on the success of Feedback That Sticks Oxford 2013 Karen Postal demonstrates through the words of forensic experts how to translate complex highly technical neuropsychological and psychological information for jurors in a way that is engaging understandable and to quote Faulkner sets the truth on fire Testimony That Sticks shares the fruits of four years of in depth interviews with over 70 seasoned forensic neuropsychologists and psychologists as well as attorneys and judges presenting what experts actually say on the stand how they use compelling analogies metaphors and succinct explanations of assessment processes and findings as well as principles of productive expert testimony for direct and cross examination This book allows readers to be a fly on the wall as seasoned forensic neuropsychologists and psychologists share what they actually say on the stand their best strategies and techniques for communicating science to juries and other triers of fact Readers also have access to the thoughts of attorneys and judges as they watch expert testimony and weigh in on what works and doesn't and what they need from the forensic neuropsychology and psychology professions to create more productive testimony At its heart the book shows how academics can shed their academic communication style learned in years of scientific training that results in the inability to communicate clearly and simply about psychology and neuroscience This landmark book is about shedding jargon giving academics permission to allow emotion to creep back into their language freeing up body language and using vivid clear language to create moments of genuine productive communication with jurors and other triers of fact
