Till Death Do Us Part American Ethnic Cemeteries as Borders Uncrossed explores the tendency among most Americans to separate their dead along communal lines rooted in race faith ethnicity or social standing and asks what a deeper exploration of that phenomenon can tell us about American history more broadly Comparative in scope and regionally diverse chapters look to immigrants communities of color the colonized the enslaved rich and poor and religious minorities as they buried kith and kin in locales spanning the Northeast to the Spanish American Southwest Whether African Americans Muslim or Christian Arabs Indians mestizos Chinese Jews Poles Catholics Protestants or various whites of European descent one thing that united these Americans was a drive to keep their dead apart At times they did so for internal preference At others it was a function of external prejudice Invisible and institutional borders built around and into ethnic cemeteries also tell a powerful story of the ways in which Americans have negotiated race culture class national origin and religious difference in the United States during its formative centuries

American Sacred Space David Chidester, Edward T. Linenthal, 1995-11-22 In a series of pioneering studies this book examines the creation and the conflict behind the creation of sacred space in America The essays in this volume visit places in America where economic political and social forces clash over the sacred and the profane from wilderness areas in the American West to the Mall in Washington D C and they investigate visions of America as sacred space at home and abroad Here are the beginnings of a new American religious history told as the story of the contested spaces it has inhabited The contributors are David Chidester Matthew Glass Edward T Linenthal Colleen McDannell Robert S Michaelsen Rowland A Sherrill and Bron Taylor

Imprints on Native Lands Benjamin F. Tillman, 2011-08-01 More than one hundred fifty years ago Moravian missionaries first landed along a so called isolated stretch of Honduras s Mosquito Coast bordering the western Caribbean Sea The missionaries were sent with the strong encouragement of German political leaders and in the context of German attempts at colonization to spread the word of Protestantism in Central America Upon their arrival the missionaries employed a three pronged approach consisting of proselytizing medical treatment and education to convert the majority of the indigenous population Much like the Spanish and English attempts before them German colonizing efforts in the region never completely took hold Still as Benjamin Tillman shows for the region s indigenous inhabitants the Miskito people the arrival of the Moravian missionaries marked the beginning of an important cultural interface Imprints on Native Lands documents Moravian contributions to the Miskito settlement landscape in sixty four villages of eastern Honduras through field observations of material culture interviews with village residents and research in primary sources in the Moravian Church archives Tillman employs the resulting data to map a hierarchy of Moravian centers illustrating spatially varying degrees of Moravian influence on the Miskito settlement

landscape Tillman reinforces Miskito claims to ancestral lands by identifying and mapping their created ethnic landscape as well as supporting earlier efforts at land use mapping in the region This book has broad implications providing a methodology that will be of help to those with an interest in geography anthropology or Latin American studies and to anyone interested in documenting and strengthening indigenous land claims **White River Chronicles (p)** S.C.
