Text Transactions Of The Society For Textual Scholarship New:

Text D. C. Greetham, W. Speed Hill, Peter Shillingsburg, 1996-04 The distinguished annual in interdisciplinary textual studies **Text** D. C. Greetham, W. Speed Hill, 1989-09-01 **Dramatists and their Manuscripts in the Age of Shakespeare, Jonson, Middleton and Heywood** Grace Ioppolo, 2013-04-15 This book presents new evidence about the ways in which English Renaissance dramatists such as William Shakespeare Ben Jonson Thomas Heywood John Fletcher and Thomas Middleton composed their plays and the degree to which they participated in the dissemination of their texts to theatrical audiences Grace Ioppolo argues that the path of the transmission of the text was not linear from author to censor to playhouse to audience as has been universally argued by scholars but circular Extant dramatic manuscripts theatre records and accounts as well as authorial contracts memoirs receipts and other archival evidence are used to prove that the text returned to the author at various stages including during rehearsal and after performance This monograph provides much new information and case studies and is a fascinating contribution to the fields of Shakespeare studies English Renaissance drama studies manuscript studies textual study and bibliography and theatre history **Textualiterity** Joseph Grigely, 1995 A witty exploration of the transmission of cultural texts *The Oxford Handbook of Shakespearean Tragedy* Michael Neill, David Schalkwyk, 2016-08-18 The Oxford Handbook of Shakespearean Tragedy presents fifty four essays by a range of scholars from all parts of the world Together these essays offer readers a fresh and comprehensive understanding of Shakespeare tragedies as both works of literature and as performance texts written by a playwright who was himself an experienced actor The opening section explores ways in which later generations of critics have shaped our idea of Shakespearean tragedy and addresses questions of genre by examining the playwright's inheritance from the classical and medieval past The second section is devoted to current textual issues while the third offers new critical readings of each of the tragedies This is set beside a group of essays that deal with performance history with screen productions and with versions devised for the operatic stage as well as with twentieth and twenty first century re workings of Shakespearean tragedy The book's final section expands readers awareness of Shakespeare's global reach tracing histories of criticism and performance across Europe the Americas Australasia the Middle East Africa India and East Asia *A Synoptic Hamlet: a Critical-Synoptic Edition of the Second Quarto and First Folio Texts of Hamlet* Jesús Tronch-Pérez, Jesús Tronch, 2002 A Synoptic Hamlet is an alternative response to the editorial problems of this multiple text play Like most critical editions it presents the early texts in a manner helpful to the general reader by modernizing spelling and punctuation and emending non-sensical readings However it does not hide the text's diversity by exclusively selecting readings from either the Second Quarto or the First Folio in order to reconstruct a single reading version corresponding to the authentic Hamlet Rather it makes their significant variants immediately available in the line itself offering alternative editorial interpretations of identical or similar readings at certain points Thus the reader can have a direct appreciation of the divergence and similarity

between these early texts from which the Hamlet of today is known Renaissance Humanism, from the Middle Ages to Modern Times John Monfasani, 2016-12-05 Starting with an essay on the Renaissance as the concluding phase of the Middle Ages and ending with appreciations of Paul Oskar Kristeller the great twentieth century scholar of the Renaissance this new volume by John Monfasani brings together seventeen articles that focus both on individuals such as Erasmus of Rotterdam Angelo Poliziano Marsilio Ficino and Niccolò Perotti and on large scale movements such as the spread of Italian humanism Ciceronianism Biblical criticism and the Plato Aristotle Controversy In addition to entering into the persistent debate on the nature of the Renaissance the articles in the volume also engage what of late have become controversial topics namely the shape and significance of Renaissance humanism and the character of the Platonic Academy in Florence *The Anglo-Scottish Ballad and its Imaginary Contexts* David Atkinson, 2014-03-12 This is the first book to combine contemporary debates in ballad studies with the insights of modern textual scholarship Just like canonical literature and music the ballad should not be seen as a uniquely authentic item inextricably tied to a documented source but rather as an unstable structure subject to the vagaries of production reception and editing Among the matters addressed are topics central to the subject including ballad origins oral and printed transmission sound and writing agency and editing and textual and melodic indeterminacy and instability While drawing on the time honoured materials of ballad studies the book offers a theoretical framework for the discipline to complement the largely ethnographic approach that has dominated in recent decades Primarily directed at the community of ballad and folk song scholars the book will be of interest to researchers in several adjacent fields including folklore oral literature ethnomusicology and textual scholarship **Early Modern Playhouse Manuscripts and the Editing of Shakespeare** Paul Werstine, 2013 This book argues for editing Shakespeare's plays in a new way without pretending to distinguish authorial from theatrical versions *Handbook of Stemmataology* Philipp Roelli, 2020-09-07 Stemmataology studies aspects of textual criticism that use genealogical methods to analyse a set of copies of a text whose autograph has been lost This handbook is the first to cover the entire field encompassing both theoretical and practical aspects of traditional as well as modern digital methods and their history As an art ars stemmataology's main goal is editing and thus presenting to the reader a historical text in the most satisfactory way As a more abstract discipline scientia it is interested in the general principles of how texts change in the process of being copied Thirty eight experts from all of the fields involved have joined forces to write this handbook whose eight chapters cover material aspects of text traditions the genesis and methods of traditional Lachmannian textual criticism and the objections raised against it as well as modern digital methods used in the field The two concluding chapters take a closer look at how this approach towards texts and textual criticism has developed in some disciplines of textual scholarship and compare methods used in other fields that deal with descent with modification The handbook thus serves as an introduction to this interdisciplinary field
