Grace Harlowe's Overland Riders In The High Sierras Josephine Chase, 2023-08-23 Josephine Chase's *Grace Harlowe's Overland Riders in the High Sierras* plunges readers into an exhilarating adventure with Grace Harlowe and her companions. The narrative unfolds against the majestic backdrop of the High Sierras as the Overland Riders embark on a journey that tests their skills, courage, and bonds of friendship. Set in the wilderness, the story follows the Overland Riders as they face the challenges of the rugged terrain and navigate the untamed wilderness. The characters confront not only natural obstacles but also mysteries and conflicts that arise in their surroundings. The novel explores themes of resilience, self-discovery, and the camaraderie that flourishes in times of adversity. As the Overland Riders rely on their resourcefulness and teamwork, they forge lasting connections and uncover hidden truths. *Grace Harlowe's Overland Riders in the High Sierras* captures the spirit of exploration and the thrill of discovering new horizons. Josephine Chase's storytelling immerses readers in a world of excitement and suspense while celebrating the strength of individuals who venture into the unknown.

Conservation on the High Seas Simone Borg, 2012-01-01 This book from Simone Borg is a much needed and highly recommended study on conservation on the high seas and harmonizing international regimes for the sustainable use of living resources. This publication is very topical considering the continuous over-exploitation of the living resources. It is a very exhaustive study of many international instruments, the most importantly the 1982 United Nations Law of the Sea Convention. The author, in an admirable manner, linked the issue of the conservation of living resources on the high seas to the fundamental principles underlying modern environmental law, such as the precautionary principle. The unique feature which sets this book apart from the other similar publications is that it is firmly entrenched in general international law, i.e. deals in a very erudite manner with the issues of fragmentation and harmonisation of international law in the context of conservation. This book will appeal not only to the experts on the law of the sea but also to general international lawyers. _ Malgosia Fitzmaurice, Queen Mary University of London, UK. This is an excellent book which has taken apart a very complicated part of international law and reassembled it in a manner which is up to date, accessible, insightful, and coherent. In doing so, this work plugs a gap in the scholarship in this area for which the author is to be truly commended. It is an essential addition for all practitioners, scholars, and students who work or study in one of the foremost environmental challenges of the 21st century: conservation on the high seas. _ Alexander Gillespie, University of Waikato, New Zealand. The conservation of living marine resources with diverse characteristics and life styles has become an international concern. Borg's book provides an examination of the regulatory and legal implications of marine conservation. The analysis takes account of UNCLOS, Treaties, and the UNCED 1992 that aid a more holistic response by States towards conservation of the marine environment and socio-economic needs. Despite shortcomings and failures, there have been success stories that highlight the potential of effective interaction between fisheries law and environmental law. The book addresses the legal aspects of international regimes aimed at setting

conservation obligations compliance and enforcement This is a path breaking work that shows how international law can diversify itself into different legal streams to ensure flexibility and a degree of adaptation to the different interests of the States involved _ John McEldowney University of Warwick UK This timely book discusses various international norms that qualify the right which all states have to access and exploit living resources in marine areas beyond national jurisdiction in order to promote the conservation of such species An intricate body of norms has accumulated over the last few decades consisting of prior and subsequent rules addressing the same issues as well as a number of specialized rules that supplement more general ones However this process has also exposed the fragmentation of the relevant international regimes with evolving and diverse interpretations of the same legal terms fine tuning or qualifying earlier treaties Uncertainty prevails as to how these norms interrelate with each other The book assesses to what extent the harmonization of these international regimes is possible It highlights current trends and developments which aim at better coherence and discusses legal techniques that could serve to harmonize both the objectives of these international norms and their scope of applicability The author also demonstrates that in some cases gaps and conflicts in the existing legal framework cannot be simply interpreted away but require the further development of international law in order to be resolved properly This unique book will appeal to academics and students in international law especially those researching marine conservation and the applicable legal framework It will be equally useful to organizations both public and private with an interest in marine conservation beyond national jurisdiction Environmental groups and policy makers in maritime affairs environmental issues and fisheries management will also find much to interest them in this insightful book

On the High Wire George Theoharis, Sharon Dotger, 2015-02-01 The purpose of the work life balance series is to highlight particular challenges that higher education faculty face as they participate in the demands of the academy and try to prevent those demands from invading their personal lives On The High Wire looks at a specific subset of university faculty education faculty with school aged children and the specific professional personal balance these faculty need to find The title On the High Wire suggests the precarious nature of the walk for education faculty who are parents of school aged children We know that our identities are central to how we experience the world and how the world reacts to us This reality is clearly visible in this book These multiple identities and roles come into conflict at multiple points and in different ways This book explores these identities and roles through autoethnographic accounts written by varied education faculty in order to make these tensions visible for the field to address

Walking the High Desert Ellen Waterston, 2020-06-22 Former high desert rancher Ellen Waterston writes of a wild essentially roadless starkly beautiful part of the American West Following the recently created 750 mile Oregon Desert Trail she embarks on a creative and inquisitive exploration introducing readers to a trusting naive earnest stubbly grumpy old man of a desert that is grappling with issues at the forefront of national if not global concern public land use grazing rights for livestock protection of sacred Indigenous ground water rights and protection of habitat for endangered species

Blending travel writing with memoir and history Waterston profiles a wide range of people who call the high desert home and offers fresh perspectives on nationally reported regional conflicts such as the Malheur Wildlife Refuge occupation Walking the High Desert invites readers wherever they may be to consider their own beliefs identities and surroundings through the optic of the high desert of southeastern Oregon
