The Hidden Universe Anthony Peake, 2019-12-10 From aliens or ghosts to the djinn electric voice phenomenon and UFO abductions this book is the most comprehensive and enlightening survey ever made of encounters with the Others Since our very beginnings human beings from all civilisations across the globe have encountered the Others intelligent self

motivated beings that are clearly not human in their origins This book offers the most comprehensive survey ever made of such otherworldly visitors from gods angels demons and djinns to hobgoblins poltergeists and ghosts to UFOs and aliens In addition to fully detailing the history of these encounters the book attempts a bold explanation never before undertaken of the true nature of these beings The book will explore the increasingly frequent entheogen encounters facilitated by substances such as dimethyltryptamine ayahuasca 5 Meo DMT and LSD as well as the beings encountered by individuals suffering from Alzheimer s related Charles Bonnet Syndrome young children s non corporeal companions and the seemingly independent beings met during lucid dreaming and near death and out of body experiences This book continues Anthony Peake s work in developing a completely original model of reality based upon an amalgamation of ancient belief systems subjective human experiences of the extraordinary and the latest discoveries of neurology neurochemistry quantum mechanics and cosmology This model proposes that consciousness far from being simply an accident of evolution is the actual root source of the material universe It suggests that at its most basic level everything that is seemingly physical is rendered into existence by consciousness
