The Naked City A Screenplay

Karla Oeler

The Naked City A Screenplay:

The Naked City Malvin Wald, Albert Maltz, 1979 This is the first film shot by a Hollywood producer to make the island of Manhattan into a film studio Shot as a semi documentary at 107 locations throughout the city Malvin Wald Albert Maltz and Jules Dassin skillfully used the city as protagonist and intensified the credibility of the story and its human characters Based on unsolved cases he found in New York police files Malvin Wald's suspenseful tale of murder theft and conspiracy was nominated for an Academy Award as Best Story in 1949 The cinematographer William Daniels and the film editor Paul Weatherwax won Oscars for their work Asked to create a role for James Stewart as the detective Wald found that the research he had done and his personal knowledge of the detectives and their methods made that impossible His police lieutenant emerged as a sixty five year old veteran with an Irish brogue and Barry Fitzgerald was given his now classic role The Naked City established a film style that is still used It was the source of the successful television series of the same title which in turn gave birth to a rash of imitations Like the previous books in the Screenplay Library series the script published here is the original shooting script

The Urban Lifeworld Peter Madsen, Richard Plunz, 2005-06-29 This volume of scholarly essays the results of detailed research contributes to our understanding of the cultural role of cities by offering a new approach to the analysis of urban experience

The Unknown City Iain Borden, 2002 A look beyond design process and buildings aimed at discovering new ways of looking at the urban experience

A Grammar of Murder Karla Oeler, 2009-12-15 The dark shadows and offscreen space that force us to imagine violence we cannot see The real slaughter of animals spliced with the fictional killing of men The missing countershot from the murder victim's point of view Such images or absent images Karla Oeler contends distill how the murder scene challenges and changes film Reexamining works by such filmmakers as Renoir Hitchcock Kubrick Jarmusch and Eisenstein Oeler traces the murder scene's intricate connections to the great breakthroughs in the theory and practice of montage and the formulation of the rules and syntax of Hollywood genre She argues that murder plays such a central role in film because it mirrors on multiple levels the act of cinematic representation Death and murder at once eradicate life and call attention to its former existence just as cinema conveys both the reality and the absence of the objects it depicts But murder shares with cinema not only this interplay between presence and absence movement and stillness unlike death killing entails the deliberate reduction of a singular subject to a disposable object Like cinema it involves a crucial choice about what to cut and what to keep

Kiss the Blood Off My Hands Robert Miklitsch, 2014-09-15 Consider the usual view of film noir endless rainy nights populated by down at the heel boxers writers and private eyes stumbling toward inescapable doom while stalked by crooked cops and cheating wives in a neon lit urban jungle But a new generation of writers is pushing aside the fog of cigarette smoke surrounding classic noir scholarship In Kiss the Blood Off My Hands On Classic Film Noir Robert Miklitsch curates a bold collection of essays that reassesses the genre's iconic style history and themes Contributors analyze the oft overlooked female detective

and little examined aspects of filmmaking like love songs and radio aesthetics discuss the significance of the producer and women's pulp fiction and investigate topics as disparate as Disney noir and the Fifties heist film *B Movie* back projection and blacklisted British directors At the same time the writers' collective reconsideration shows the impact of race and gender history and sexuality technology and transnationality on the genre As bracing as a stiff drink *Kiss the Blood Off My Hands* writes the future of noir scholarship in lipstick and chalk lines for film fans and scholars alike Contributors Krin Gabbard Philippa Gates Julie Grossman Robert Miklitsch Robert Murphy Mark Osteen Vivian Sobchack Andrew Spicer J P Telotte and Neil Verma

Invisible Storytellers Sarah Kozloff, 1989-11-03 Let me tell you a story each film seems to offer silently as its opening frames hit the screen But sometimes the film finds a voice an off screen narrator for all or part of the story From *Wuthering Heights* and *Double Indemnity* to *Annie Hall* and *Platoon* voice over narration has been an integral part of American movies Through examples from films such as *How Green Was My Valley* *All About Eve* *The Naked City* and *Barry Lyndon* Sarah Kozloff examines and analyzes voice over narration She refutes the assumptions that words should only play a minimal role in film that showing is superior to telling or that the technique is inescapably authoritarian the voice of god She questions the common conception that voice over is a literary technique by tracing its origins in the silent era and by highlighting the influence of radio documentaries and television She explores how first person or third person narration really affects a film in terms of genre conventions viewer identification time and nostalgia subjectivity and reliability In conclusion she argues that voice over increases film's potential for intimacy and sophisticated irony

"Keep 'Em in the East" Richard Koszarski, 2021-07-20 The year 1955 was a watershed one for New York's film industry Elia Kazan's *On the Waterfront* took home eight Oscars and more quietly Stanley Kubrick released the low budget classic *Killer's Kiss* A wave of films that changed how American movies were made soon followed led by directors such as Sidney Lumet William Friedkin Francis Ford Coppola and Martin Scorsese Yet this resurgence could not have occurred without a deeply rooted tradition of local film production Richard Koszarski chronicles the compelling and often surprising origins of New York's postwar film renaissance looking beyond such classics as *Naked City* *Kiss of Death* and *Portrait of Jennie* He examines the social cultural and economic forces that shaped New York filmmaking from city politics to union regulations and shows how decades of low budget independent production taught local filmmakers how to capture the city's grit liveliness and allure He reveals the importance of race films all Black productions intended for segregated African American audiences that not only helped keep the film business afloat but also nurtured a core group of writers directors designers and technicians Detailed production histories of *On the Waterfront* and *Killer's Kiss* films that appear here in a completely new light illustrate the distinctive characteristics of New York cinema Drawing on a vast array of research including studio libraries censorship records union archives and interviews with participants *Keep 'Em in the East* rewrites a crucial chapter in the history of American cinema
