The Narrators Of Barbarian History Ad 550 8:

The Narrators of Barbarian History (A. D. 550-800) Walter Goffart, 2005-11-11 Winner of the Medieval Academy of America's Haskins Medal for 1991 *The Narrators of Barbarian History* treats the four writers who are the main early sources for our knowledge of the Ostrogoths Franks Anglo Saxons and Lombards **Sensory Reflections** Fiona Griffiths, Kathryn Starkey, 2018-10-22 This volume draws on emerging scholarship at the intersection of two already vibrant fields medieval material culture and medieval sensory experience The rich potential of medieval matter most obviously manuscripts and visual imagery but also liturgical objects coins textiles architecture graves etc to complement and even transcend purely textual sources is by now well established in medieval scholarship across the disciplines So too attention to medieval sensory experiences most prominently emotion has transformed our understanding of medieval religious life and spirituality violence power and authority friendship and constructions of both the self and the other Our purpose in this volume is to draw the two approaches together plumbing medieval material sources for traces of sensory experience above all ephemeral and physical experiences that unlike emotion are rarely fully described or articulated in texts *From Roman Provinces to Medieval Kingdoms* Thomas F.X. Noble, 2006-04-07 This is a prestigious collection of revisionist thinking on the key question of how did the middle ages begin Including a wealth of material on the origins of the Barbarian people and their tribes and a clear introduction to each section this is an invaluable student reference **The Huns** Hyun Jin Kim, 2015-11-19 This volume is a concise introduction to the history and culture of the Huns This ancient people had a famous reputation in Eurasian Late Antiquity However their history has often been evaluated as a footnote in the histories of the later Roman Empire and early Germanic peoples Kim addresses this imbalance and challenges the commonly held assumption that the Huns were a savage people who contributed little to world history examining striking geopolitical changes brought about by the Hunnic expansion over much of continental Eurasia and revealing the Huns contribution to European Iranian Chinese and Indian civilization and statecraft By examining Hunnic culture as a Eurasian whole *The Huns* provides a full picture of their society which demonstrates that this was a complex group with a wide variety of ethnic and linguistic identities Making available critical information from both primary and secondary sources regarding the Huns Inner Asian origins which would otherwise be largely unavailable to most English speaking students and Classical scholars this is a crucial tool for those interested in the study of Eurasian Late Antiquity **Heaven on Earth** Richard Landes, 2011-08-04 Millennialists through the ages have looked forward to the apocalyptic moment that will radically transform society into heaven on Earth Here Landes offers a lucid and ground breaking analysis of this widely misunderstood phenomenon **The Birth of Territory** Stuart Elden, 2022-12-22 Political theory professor Stuart Elden explores the history of land ownership and control from the ancient to the modern world in *The Birth of Territory* Territory is one of the central political concepts of the modern world and indeed functions as the primary way the world is divided and controlled politically Yet territory has not received the critical

attention afforded to other crucial concepts such as sovereignty rights and justice While territory continues to matter politically and territorial disputes and arrangements are studied in detail the concept of territory itself is often neglected today Where did the idea of exclusive ownership of a portion of the earth's surface come from and what kinds of complexities are hidden behind that seemingly straightforward definition The Birth of Territory provides a detailed account of the emergence of territory within Western political thought Looking at ancient medieval Renaissance and early modern thought Stuart Elden examines the evolution of the concept of territory from ancient Greece to the seventeenth century to determine how we arrived at our contemporary understanding Elden addresses a range of historical political and literary texts and practices as well as a number of key players historians poets philosophers theologians and secular political theorists and in doing so sheds new light on the way the world came to be ordered and how the earth's surface is divided controlled and administered The Birth of Territory is an outstanding scholarly achievement a book that already promises to become a classic in geography together with very few others published in the past decades Political Geography An impressive feat of erudition American Historical Review *Settlement and Social Organization* Guy Halsall, 2002-09-05 This book examines one region of north eastern Gaul around Metz in the period between the end of the Roman Empire and the accession of Charlemagne It adopts a new multi disciplinary approach using all available evidence both documentary and archaeological It deals with a broad range of historical themes and by looking at the reasons behind the creation of different forms of evidence it examines how the different facets of social organisation ethnicity gender age and social hierarchy were related intimately to each other and to contemporary settlement patterns of the region As a result it is argued that the Merovingian period was not one of slow transformation from Roman to medieval but was one of constant dynamic social change and diversity even between the recognised periods of dramatic upheaval *Jacob's Shipwreck* Ruth Nisse, 2017-04-18 Jewish and Christian authors of the High Middle Ages not infrequently came into dialogue or conflict with each other over traditions drawn from ancient writings outside of the bible Circulating in Latin and Hebrew adaptations and translations these included the two independent versions of the Testament of Naphtali in which the patriarch has a vision of the Diaspora a shipwreck that scatters the twelve tribes The Christian narrative is linear and ends in salvation the Jewish narrative is circular and pessimistic For Ruth Nisse this is an emblematic text that illuminates relationships between interpretation translation and survival In Nisse's account extrabiblical literature encompasses not only the historical works of Flavius Josephus but also in some of the more ingenious medieval Hebrew imaginative texts Aesop's fables and the Aeneid While Christian Jewish relations in medieval England and Northern France are most often associated with Christian polemics against Judaism and persecutions of Jews in the wake of the Crusades the period also saw a growing interest in language study and translation in both communities These noncanonical texts and their afterlives provided Jews and Christians alike with resources of fiction that they used to reconsider boundaries of doctrine and interpretation Among the works that Nisse takes as exemplary of this intersection are

the Book of Yosippon a tenth century Hebrew adaptation of Josephus with a wide circulation and influence in the later middle ages and the second century romance of Aseneth about the religious conversion of Joseph's Egyptian wife Yosippon gave Jews a new discourse of martyrdom in its narrative of the fall of Jerusalem and at the same time it offered access to the classical historical models being used by their Christian contemporaries Aseneth provided its new audience of medieval monks with a way to reimagine the troubling consequences of unwilling Jewish converts

Violence in Late Antiquity H.A. Drake, 2016-12-05 Violence is virtually synonymous in the popular imagination with the period of the Later Roman Empire a time when waves of barbarian invaders combined with urban mobs and religious zealots to bring an end to centuries of peace and serenity All of these images come together in the Visigothic sack of the city of Rome in A.D. 410 a date commonly used for the fall of the entire empire But was this period in fact as violent as it has been portrayed A new generation of scholars in the field of Late Antiquity has called into question the standard narrative pointing to evidence of cultural continuity and peaceful interaction between barbarians and Romans Christians and pagans To assess the state of this question the fifth biennial Shifting Frontiers conference was devoted to the theme of Violence in Late Antiquity Conferees addressed aspects of this question from standpoints as diverse as archaeology and rhetoric anthropology and economics A selection of the papers then delivered have been prepared for the present volume along with others commissioned for the purpose and a concluding essay by Martin Zimmerman reflecting on the theme of the book The four sections on Defining Violence Legitimate Violence Violence and Rhetoric and Religious Violence are each introduced by a theme essay from a leading scholar in the field While offering no definitive answer to the question of violence in Late Antiquity the papers in this volume aim to stimulate a fresh look at this age old problem
