[The nation is burdened](#) , 1967 **The War of 1898** Louis A. Pérez Jr., 2000-11-09 A century after the Cuban war for independence was fought Louis Pérez examines the meaning of the war of 1898 as represented in one hundred years of American historical writing Offering both a critique of the conventional historiography and an alternate history of the war informed by Cuban sources Pérez explores the assumptions that have shaped our understanding of the Spanish American War a construct he argues that denies the Cubans participation in their own struggle for liberation from Spanish rule Pérez examines historical accounts of the destruction of the battleship Maine the representation of public opinion as a precipitant of war and the treatment of the military campaign in Cuba Equally important he shows how historical narratives have helped sustain notions of America's national purpose and policy many of which were first articulated in 1898 Cuba insinuated itself into one of the most important chapters of U S history and what happened on the island in the final decade of the nineteenth century and the way in which what happened was subsequently represented has had far reaching implications many of which continue to resonate today [The Last American Diplomat](#) George W. working for the successful re settlement of millions of refugees in Southeast Asia following the Vietnam War issuing early warnings about the scourge of AIDS in Africa and successfully launching the North American Free Trade Agreement NAFTA George W Liebmann s incisive account is based on personal and shared experience but it is no hagiography beyond the author s discussions with Negroponte this book is deeply researched in US state papers and includes interviews with leading actors It will provide fascinating reading for anyone interested in the inside story of American diplomacy showing personal and policy struggles and the underlying fissures present even in the world s last remaining superpower **Biopolitics at 50 Years** Tony Wohlers,Amy Fletcher,2022-11-21 Biopolitics at 50 Years Founding and Evolution explores the study of biology and politics through the prism of fifty years of experience presenting current research that illustrates the nature and evolution of biopolitics *Status of Law in International Society* Richard A.
