National Academy of Sciences The National Academy of Sciences, 1978 **National Academy of Sciences** National Academy of Sciences (US), 1978 *The Establishment of Science in America* Sally Gregory Kohlstedt, Michael Mark Sokal, Bruce V. Lewenstein, 1999 A history of the American Association for the Advancement of Science providing insight into the development of science in the USA in the last 150 years This work covers matters such as scientists role in society public attitudes towards science and the sponsorship of research Economic Poisoning Adam M. Romero, 2021-11-16 The toxicity of pesticides to the environment and humans is often framed as an unfortunate effect of their benefits to agricultural production In *Economic Poisoning* Adam M Romero upends this narrative and provides a fascinating new history of pesticides in American industrial agriculture prior to World War II Through impeccable archival research Romero reveals the ways in which late nineteenth and early twentieth century American agriculture especially in California functioned less as a market for novel pest killing chemical products and more as a sink for the accumulating toxic wastes of mining oil production and chemical manufacturing Connecting farming ecosystems to technology and the economy Romero provides an intriguing reconceptualization of pesticides that forces readers to rethink assumptions about food industry and the relationship between human and nonhuman environments The Manhattan Project and the Dropping of the Atomic Bomb Aaron Barlow, 2019-11-08 This invaluable resource offers students a comprehensive overview of the Manhattan Project and the decision to drop the atomic bomb with more than 80 in depth articles on a variety of topics and dozens of key primary source documents This book provides everything readers need to know about the Manhattan Project the U S program that led to the development of the atomic bomb during World War II It begins with a detailed introduction to the project and includes an alphabetical collection of relevant entries on such topics as the Enola Gay the first aircraft to drop an atomic bomb Enrico Fermi creator of the first nuclear reactor Hiroshima the target of the first atomic bomb and Robert

Oppenheimer director of the Manhattan Project Dozens of primary sources include eyewitness accounts government memos letters press releases and other important documents relevant to the establishment and success of the Manhattan Project A set of four essays written by prominent scholars address whether the United States was justified in dropping the atomic bomb on Japan The book also includes a comprehensive chronology that reveals key moments related to the creation of the world's first nuclear weapon as well as a bibliography of resources that points readers toward additional information on the Manhattan Project nuclear weapons and World War II

War and Nature Edmund Russell, 2001-02-12 This 2001 book shows the intersection of chemical warfare and pest control in the twentieth century

The Prophet and the Reformer Matthew J. Grow, Ronald W. Walker, 2015-05-01 Brigham Young and Thomas L Kane first met on the plains of western Iowa in 1846 The Mormon prophet and the Philadelphia reformer would go on to exchange more than one hundred letters over the next three decades This annotated collection of their correspondence reveals a great deal about these two remarkable men while also providing crucial insight into nineteenth century Mormonism and the historical moment in which the movement developed

Measurement and Statistics on Science and Technology Benoît Godin, 2005 How do we objectively measure scientific activities What proportion of economic activities should a society devote to research and development How can public sector and private sector research best be directed to achieve social goals Governments and researchers from industrial countries have been measuring science and technology for more than eighty years This book provides the first comprehensive account of the attempts to measure science and technology activities in Western countries and the successes and shortcomings of statistical systems Godin guides readers through the historical moments that led to the development of statistics on science and technology and also examines the socio political dynamics behind social measurement This enlightening account will be of interest to students and academics investigating science measurement as well as policy makers working in this burgeoning field

Cardinal Choices , 2000-09 This book is a history of the complex relations between scientific advisors primarily physicists and U S presidents in their role as decision makers about nuclear weapons and military strategy The story unsurprisingly is one of considerable tension between the experts and the politicians as scientists seek to influence policy and presidents alternate between accepting their advice and resisting or even ignoring it First published in 1992 the book has been brought up to date to include the experiences of science advisors to President Clinton In addition the texts of eleven crucial documents from the Einstein Szilard letter to President Roosevelt 1939 to the announcement of the Strategic Defense Initiative by President Reagan 1983 have been added as appendixes
