The National Temper Readings In American Culture And Society:

The National Temper: Readings in American culture and society since 1865 Lawrence W. Levine, Robert Middlekauff, 1972 *The National Temper; Readings in American Culture and Society. Edited by Lawrence W. Levine and Robert Middlekauff* Lawrence W. Levine (Comp), 1972 The National Temper Lawrence W. Levine, Robert Middlekauff, 1968 Readings in American history **Black Culture and the New Deal** Sklaroff, 2010-07-13 In the 1930s the Roosevelt administration unwilling to antagonize a powerful southern congressional bloc refused to endorse legislation that openly sought to improve political economic and social conditions for African Americans Instead as historian Lauren Rebecca Sklaroff shows the administration recognized and celebrated African American **The American Success Myth on Film** J. Levinson, 2012-05-15 In examining the enduring appeal that rags to riches stories exert on our collective imagination this book highlights the central role that films have played in the ongoing cultural discourse about success and work in America

The American Skyscraper Roberta Moudry, 2005-05-09 Publisher Description The American Civil War Peter J. Parish, 2020-12-06 Originally published in 1975 this assessment of the American Civil War is a broad treatment of the war as a major historical event set in the context of a detailed picture of two governments economies and societies at war It discusses many controversial topics the uncertainty and hesitation that surrounded the origins of the war for example its economic impact the Radicals and their relationship with Lincoln and reconstruction as a wartime issue It offers acute analysis of Lincoln s political skills and an evaluation of emancipation and Lincoln s approach to it the problems and performance of the opposition during the war international reactions an assessment of some of the leading generals like McClellan and Lee and the impact of the war on both Southern and Northern society The Barbed-Wire College Ron Theodore Robin, 1995-04-03 From Stalag 17 to The Manchurian Candidate the American media have long been fascinated with stories of American prisoners of war But few Americans are aware that enemy prisoners of war were incarcerated on our own soil during World War II In The Barbed Wire College Ron Robin tells the extraordinary story of the 380 000 German prisoners who filled camps from Rhode Island to Wisconsin Missouri to New Jersey Using personal narratives camp newspapers and military records Robin re creates in arresting detail the attempts of prison officials to mold the daily lives and minds of their prisoners From 1943 onward and in spite of the Geneva Convention prisoners were subjected to an ambitious reeducation program designed to turn them into American style democrats Under the direction of the Pentagon liberal arts professors entered over 500 camps nationwide Deaf to the advice of their professional rivals the behavioral scientists these instructors pushed through a program of arts and humanities that stressed only the positive aspects of American society Aided by German POW collaborators American educators censored popular books and films in order to promote democratic humanism and downplay class and race issues materialism and wartime heroics Red baiting Pentagon officials added their contribution to the program as well by the war s end the curriculum was more concerned with

combating the appeals of communism than with eradicating the evils of National Socialism The reeducation officials neglected to account for one factor an entrenched German military subculture in the camps complete with a rigid chain of command and a propensity for murdering traitors The result of their neglect was utter failure for the reeducation program By telling the story of the program s rocky existence however Ron Robin shows how this intriguing chapter of military history was tied to two crucial episodes of twentieth century American history the battle over the future of American education and the McCarthy era hysterics that awaited postwar America **Manly Arts** David A Gerstner,2006-03-06 DIVExamines the anxieties of class and race and the conflicts between New and Old Worlds that attend the elevation of masculinity as a defining characteristic of early American cinema and visual culture div **The Logic of Democratic Exclusion** Rebecca B. Kook,2002-01-01 Kook makes the provocative argument that membership in democracies is inherently exclusionary and that national exclusion is a tacit requirement for successfully democratic regimes
