This book offers a wide ranging review of art throughout the ages to isolate the original source of religions and religious practices within the symbiotic relationship between art production and universal ritual procedures A psychoanalytic perspective identifies the creative process as the common factor and integral structure of not only the formation of the art object but also ritual enactments and performance and furthermore religious doctrine and ceremony The ritual creative process is unearthed as the unique prototype for the fundamental concept of death and resurrection that underpins religious belief The book was written with the general reader in mind but it will also be of interest to psychoanalytic researchers art historians and art practitioners as well as to theologians *The cultural & heritage guide for Egypt* ,2025-09-25 *Books in Print Supplement* ,1984

The Cambridge Ancient History: The Egyptian and Hittite empires to c. 1000 B.C ,1924 A Cultural History of Race in Antiquity Denise Eileen McCoskey,2023-06-01 The era generally referred to as antiquity lasted for thousands of years and was characterized by a diverse range of peoples and cultural systems This volume explores some of the specific ways race was defined and mobilized by different groups including the Greeks Romans Egyptians Persians and Ethiopians as they came into contact with one another during this period Key to this inquiry is the examination of institutions such as religion and politics and forms of knowledge such as science that circumscribed the formation of ancient racial identities and helped determine their meanings and consequences Drawing on a range of ancient evidence literature historical writing documentary evidence and ancient art and archaeology this volume highlights both the complexity of ancient racial ideas and the often violent and asymmetrical power structures embedded in ancient racial representations and practices like war and the enslavement of other persons The study of race in antiquity has long been clouded by modern assumptions so this volume also seeks to outline a better method for apprehending race on its own terms in the ancient world including its relationship to other forms of identity such as ethnicity and gender while also seeking to identify and debunk some of the racist methods and biases that have been promulgated by classical historians themselves over the last few centuries **Gnostic Visions** Luke A. Myers,2011-04 Gnostic texts are filled with encounters of strange other worldly beings journeys to visionary heavenly realms and encounters with the presence and spirit of the divine In *Gnostic visions* author and Gnostic scholar Luke A Myers presents evidence demonstrating how Gnostic visions were created and the connection these visions have to naturally occurring visionary compounds that are still in existence today The culmination of more than ten years of research *Gnostic Visions* advances the understanding of classical ethnobotany Gnosticism and the genesis of early Christian history In this book the author discusses the prehistoric foundations of early human religion as well as the visionary religious traditions of the classical Greeks and Egyptians Using these as a foundation the book presents new and never before seen research explaining how Gnostic visions were created and what types of compounds were used by these ancient people to create them *Gnostic Visions* presents evidence directly linking visionary Ayahuasca analogs with the creation of Gnostic and Hermetic visionary experiences *Gnostic Visions* also describes the

decline of Gnosticism other visionary practices used in the Dark Ages and gives a brief tour of the visionary plants of the new world In Gnostic visions Myers tells of his personal experience with the divine and includes some of his own reflections of the importance of mankind s relationship to the natural world He communicates that altered states of consciousness have been responsible for many of the most profound mystical religious experiences in human history
