The Natural History of the African Elephant Sylvia K. Sikes, 1971-01-01 **The Natural History of the African Elephant** Sylvia K. Sikes, 1971 *Review of Options for Managing the Impacts of Locally Overabundant African Elephants*, 2007 **African Elephant Status Report 2002** J. J. Blanc, 2003 The African elephant is the largest living land mammal and their potential impact on their habitats raises important management issues both for protected areas and unprotected land This Status Report derived from data contained in the African Elephant Database is rich in data and information on numbers distribution and current issues and provides continent wide information that is vital for conservation It will help wildlife management authorities to harmonize their policy and management decisions across regions as well as the continent to reduce conflict and relax the pressure on habitats *"The" natural history review*, 1863 **Harmsworth natural history** Richard Lydekker, 1910 **Wild Mammals in Captivity** Devra G. Kleiman, Katerina V. Thompson, Charlotte Kirk Baer, 2010-08-15 Zoos aquaria and wildlife parks are vital centers of animal conservation and management For nearly fifteen years these institutions have relied on Wild Mammals in Captivity as the essential reference for their work Now the book reemerges in a completely updated second edition Wild Mammals in Captivity presents the most current thinking and practice in the care and management of wild mammals in zoos and other institutions In one comprehensive volume the editors have gathered the most current information from studies of animal behavior advances in captive breeding research in physiology genetics and nutrition and new thinking in animal management and welfare In this edition more than three quarters of the text is new and information from more than seventy five contributors is thoroughly updated The standard text for all courses in zoo biology Wild Mammals in Captivity will in its new incarnation continue to be used by zoo managers animal caretakers researchers and anyone with an interest in how to manage animals in captive conditions *The Natural History of Man* John George Wood, 1870 **The Living Elephants** Raman Sukumar, 2003-09-11 The Living Elephants is the authoritative resource for information on both Asian and African elephants From the ancient origins of the proboscideans to the present day crisis of the living elephants this volume synthesizes the behavior ecology and conservation of elephants while covering also the history of human interactions with elephants all within the theoretical framework of evolutionary biology The book begins with a survey of the 60 million year evolutionary history of the proboscideans emphasizing the role of climate and vegetation change in giving rise to a bewildering array of species but also discussing the possible role of humans in the late Pleistocene extinction of mastodons and mammoths The latest information on the molecular genetics of African and Asian elephants and its taxonomic implications are then presented The rise of the elephant culture in Asia and its early demise in Africa are traced along with an original interpretation of this unique animal human relationship The book then moves on to the social life of elephants as it relates to reproductive strategies of males and females development of behavior in young communication ranging patterns and societal organization The foraging strategies of elephants their

impact on the vegetation and landscape are then discussed The dynamics of elephant populations in relation to hunting for ivory and their population viability are described with the aid of mathematical models A detailed account of elephant human interactions includes a treatment of crop depredation by elephants in relation to their natural ecology manslaughter by elephants habitat manipulation by humans and a history of the ivory trade and poaching in the two continents The ecological information is brought together in the final chapter to formulate a set of pragmatic recommendations for the long term conservation of elephants The broadest treatment of the subject yet undertaken by one of the leading workers in the field Raman Sukumar the book promises to bring the understanding of elephants to a new level It should be of interest not only to biologists but also a broader audience including field ecologists wildlife administrators historians conservationists and all those interested in elephants and their future The Natural History of Man Being an Account of the Manners and Customs of the Uncivilized Races of Men by the Rev.
