The Near East A Modern History By Yale William:

The Near East William Yale,1968 **The Near East** William Yale,1968 THIS IS A HISTORY OF THE MIDDLE EAST

The Persians Amongst the English Denis Wright,1985-12-31 , *American Arabists in the Cold War Middle East*, 194675 Teresa Fava Thomas,2016-07-06 This book examines the careers of 53 area experts in the US State Department s Middle East bureau during the Cold War Known as Arabists or Middle East hands they were very different in background education and policy outlook from their predecessors the Orientalists A highly competitive selection process and rigorous training shaped them into a small corps of diplomatic professionals with top notch linguistic and political reporting skills Case studies shed light on Washington s perceptions of Israel and the Arab world as well as how American leaders came to regard and often disregard the advice of their own expert advisors This study focuses on their transformative role in Middle East diplomacy from the Eisenhower through the Ford administrations The Republic of Armenia: The first year, 1918-1919 Richard G. Hovannisian,1971 Unpublished Research on Near East Completed and in Progress ,1953

Arab-Zionist Perspectives on the Early Struggle for Justice in Palestine Labeeb Ahmed Bsoul,2025-06-20 This book offers an in depth exploration of the early history of Palestine providing a rigorous analysis of pivotal events and underlying dynamics The study begins with examining the emergence of Zionist movements and their proposals the period of Ottoman governance in the Levant and the influence of Western imperialism concluding with the critical era surrounding the Second World War specifically from 1939 to 1948 The following four chapters adopt a chronological and analytical approach to address topics of lasting significance These chapters critically examine the development of ideological currents originating from early Zionist initiatives the progression of Jewish settlement projects in Palestine from 1891 to 1917 and their contemporary relevance Furthermore they investigate the international political responses to the Palestine issue during the First and Second World Wars with particular emphasis on the interactions between the Zionist movement and Western imperialism In the final section the book scrutinizes the foundational principles of the Zionist movement and the challenges encountered by the Arab population during the interwar period offering valuable insights into the complex socio political realities of the time **A History of Stability and Change in Lebanon** Joseph Bayeh,2017-06-30 Lebanon is a country whose domestic politics have even more than others in the region been at the mercy of changes on the international stage Having been under Ottoman and French rule in the nineteenth and early twentieth centuries the post World War II era has seen Lebanon subjected to Israeli Syrian and American interventions which have all threatened the country s stability as a state Joseph Bayeh argues that it is this international dimension which holds the key to an in depth understanding of the country In support of this argument Bayeh examines Lebanese history from its early days under the Ottomans to the present day in order to show how international shifts and conflicts have had their impact on Lebanon With changes such as the fall of the Ottoman empire the rise of US power after World War II the end of the Cold War and the new focus on the region in the

aftermath of 9 11 Lebanon has at various junctures been bolstered or undermined Bayeh tracks all of this offering insights into the workings of Lebanon s domestic politics which will appeal to researchers of the international relations of the Middle East and Lebanon s political history *Reforging a Forgotten History: Iraq and the Assyrians in the Twentieth Century*
Sargon Donabed,2015-02-01 Who are the Assyrians and what role did they play in shaping modern Iraq Were they simply bystanders victims of collateral damage who played a passive role in the history of Iraq And how have they negotiated their position throughout various periods of Iraq s state building processes This book details the narrative and history of Iraq in the 20th century and reinserts the Assyrian experience as an integral part of Iraq s broader contemporary historiography It is the first comprehensive account to contextualize this native people s experience alongside the developmental processes of the modern Iraqi state Using primary and secondary data this book offers a nuanced exploration of the dynamics that have affected and determined the trajectory of the Assyrians experience in 20th century Iraq
