The New Criticism And After John Crowe Ransom Memorial Lectures 1975:

The New Criticism and After Thomas Daniel Young, 1976 The New Criticism and After Thomas Daniel Young, 1976

The Dynamics of the Metaphoric Field Nicolae Babuts, 1992 The Dynamics of the Metaphoric Field begins with the premise that the way we can make some progress toward agreement in literary theory is to examine how we know what we know To this effect Nicolae Babuts undertakes to understand the workings of memory and to define the fundamental principles that guide it in its drive to meaning The study establishes that we process reality and texts in quanta of energy in terms of dynamic patterns that are the units of meaning On the perceptual level these patterns represent visual auditory or other sensory organizations a kind of perceptual syntax of the world on the textual level they represent building blocks that are used in the writer's creation and the reader's re-creation of texts In this view meaning is a consequence of the convergence of linguistic patterns and the syntax of perceptual events The fact that evidence for the existence of dynamic patterns comes from various disciplines underscores the interrelatedness of cognitive sciences and literature and encourages us to believe that we are on the right track The study of memory and of textual dynamic patterns establishes certain fundamental concepts that are now defined not just in their theoretical modality but also in the act of performing their primary function The disagreement about the role of reality in the creation and recreation of texts is traced to a blurring of the distinction between its material and symbolic identities and to an antiquated view of the referent In the cognitive light the referential reality splits into two components its material identity or things in themselves which we cannot know and its symbolic or coded identity with which we deal through our senses and memory The crucial difference between approaches with formalist tendencies and the cognitive view is that in the latter the textual language and patterns have a strategic correspondence to the symbolic face of the real Other consequences follow In reading memory re-creates the metaphoric field the dynamic patterns and the original tension of a text in a reserved space The reader's entry into the field recalls the paradox of the circle of understanding but the dilemma is now stripped of its speculative aura and defined in terms of memory's ability to contact and activate appropriate potentials Under these circumstances the beginning of the text regains its power to communicate foreknowledge The entry into the field becomes a re-creation but also a spiritual anticipation a leap unto a higher level of suspense Mnemonic that is to say human values retake their place in the equation of meaning Above all the study indicates that the space where meaning is produced and recognized as such is the space of human consciousness BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved Genre Theory and Historical Change Ralph Cohen, 2017-11-10 Ralph Cohen was highly regarded as the visionary founding editor of New Literary History but his own theoretical essays appeared in such a scattering of publications that their conceptual originality underlying coherence and range of application have not been readily apparent This new selection of twenty essays many published here for the first time offers a synthesis of Cohen's vital work In these pages Cohen introduces change and

continuity as essential modes of discourse in the study of literary behavior an approach that can produce reliable narratives of literary artistic and cultural change Here Cohen conceptualizes and develops a compelling innovative theory of genre that promotes a systematic study of historical change offering rewarding insights for twenty first century scholars Lovescape Crucified Soumyajit Samanta,2005 **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1978 **Kenneth Burke on Shakespeare** Kenneth Burke,2006-12-13 This volume gathers and annotates all of the Shakespeare criticism including previously unpublished notes and lectures by the maverick American intellectual Kenneth Burke 1897 1993 Burke s interpretations of Shakespeare have had an impressive influence on important lines of contemporary scholarship playwrights and directors have been stirred by his dramaturgical investigations and many readers outside academia have enjoyed his ingenious dissections of what makes a play function Burke s intellectual project continually engaged with Shakespeare s works and Burke s writings on Shakespeare in turn have had an immense impact on generations of readers Carefully edited and annotated with helpful cross references Burke s fascinating interpretations of Shakespeare remain challenging provocative and accessible Read together these pieces form an evolving argument about the nature of Shakespeare s plays and poems Included are thirteen analyses of individual plays and poems an introductory lecture explaining his approach to reading Shakespeare and a substantial appendix of hundreds of Burke s other references to Shakespeare Scott L Newstok also provides a historical introduction and an account of Burke s legacy Burke s enduring familiarity with Shakespeare likely helped shape his own theory of dramatism an ambitious elaboration of the *teatrum mundi* conceit Burke is renowned for his landmark 1951 essay on Othello which wrestles with concerns still relevant to scholars more than a half century later his ingenious ventriloquism of Mark Antony s address over Caesar s body has likewise found a number of appreciative readers as have albeit less frequently his many other essays on the playwright Burke s first and final pieces of literary criticism both examine Shakespearean plays thereby bookending an impressive career long contribution to the field of Shakespeare studies Among the many major Shakespearean critics who have gratefully acknowledged Burke s influence are Paul Alpers Harold Bloom Stanley Cavell Ren Girard Stephen Greenblatt and Patricia Parker Michigan Quarterly Review ,1976 *A Counterpoint of Dissonance* Michael Sprinker,1980 **Research** University of North Carolina at Chapel Hill,1975
