The New Government Of London The First Five Years:

Governing London Ben Pimlott, Nirmala Rao, 2002-05-02 This timely book is the first to take a close historical look at Ken Livingstone's London. It examines the development of London governance from the demise of the Greater London Council to the establishment of the Greater London Authority. The authors investigate the working of Mayor and Assembly, unravel the underlying politics of London and explore policy debates about transport, crime and economic development. Finally, they pose a question of key importance not just to Londoners but also to those interested in urban governance throughout the world: to what extent can the creation of new institutions and instruments of government give a major city the sense of being a political community.

Much Governed Nation Pt1 Vol 3 W.H Greenleaf, 2014-05-12 First published in 2003. Part of the British Political Tradition collection, this is Part one, Volume III. This account of the emergence of contemporary political institutions in Britain follows volumes dealing with *The Rise of Collectivism* and *The Ideological Heritage*, both of which appeared in 1983. It shows how, in the perspective these other works describe, the traditional machinery of government expanded notably and was in many ways completely altered.

National Resources and Urban Policy Douglas E. Ashford, 2023-05-31 First published in 1980. *National Resources and Urban Policy* critically examines how resource constraints affect urban development and urban policy making. With case studies from the United States, several European countries and Japan, it brings themes like federal assistance programs, local government revenues, urban resources, the American capital market and federal programs, urban investment controls in Britain, local government investment expenditures in West Germany, Japan confronts its cities, New York City fiscal crisis, public housing in metropolitan London and restructuring the resource flow. This book is a must read for scholars and researchers of urban politics, public administration, urban studies, public policy and political studies.

British Dogmatism and French Pragmatism Douglas E. Ashford, 2023-06-09 First published in 1982. *British Dogmatism and French Pragmatism* presents an inquiry into how national political and administrative constraints affect the formulation and implementation of local government reform. This comparative study between British and French local politics and policymaking discusses themes like local reorganization in the welfare state, two paths from monarchy to democracy, decisions and non-decisions, can national politics make local policy, fiscal policy and local spending, capital spending and land use and central local politics in the welfare state. The author argues that the influence of local government systems cannot be assessed apart from the national political and administrative structures in which they are embedded. This book is a must read for scholars and researchers of political science, public administration and policy making.

Essays on the Study of Urban Politics Ken Young, 1975-06-18

Social Policy and Administration Revisited David Donnison, Valerie Chapman, Michael Meacher, Angela Sears, Kenneth Urwin, 2021-11-07 Originally published in 1965 this standard work sets out to explore the questions What is social administration and how can people prepare themselves for this work It shows the social services in continuous evolution in response to political economic and social change and it ends with a deeply thoughtful and thought provoking analysis of the processes and causes of this evolution and of the different contributions to change made by the various parties concerned This analysis is based on the case studies presented in the book s central chapters Of this new version of the book first published in 1975 Professor Donnison wrote The first three chapters of the original book have been scrapped and a new introduction to the whole subject takes their place an introduction not only to the literature about social policy and administration but to the point and purpose of the subject for students who rightly expect to be convinced about this before devoting their time to it Then follow eight case studies of innovations in the work and policies of local units of the social services including housing education a home help service planning and legal aid besides social work services These are the original studies untouched I have returned to each agency and found out what has happened since our original studies adding a postscript to each outlining the main developments since the original research ten to twenty years ago I don t think anyone has ever done that before In most cases the innovating trends we identified have gone further often becoming national orthodoxy by now The one on legal aid where unexpected developments have occurred is at least as interesting Professor Donnison has added a ninth case study of

the Department of Social Administration at the London School of Economics where he was working when the original studies were made Professor Richard Titmuss was head of the department at that time This study traces the development of education for social workers at a seminal stage and the difficult problems which had to be resolved when major new departures occurred in this field The chapter will be of lasting interest to historians of social work and social work education in Britain besides throwing light on the process of innovation in social policy *London Boroughs at 50* Tony Travers, 2015-11-24 It is the year 1965 Mary Quant introduces the miniskirt to society in her shop in Chelsea the Dalek style Post Office Tower is opened and the Beatles play their last ever live UK tour date Most importantly on 1 April a new system of city government is introduced and London's thirty two boroughs are born revolutionising the capital into the place we know today New names had to be chosen councillors elected and policies formed these boroughs and the Greater London Council between them took control of housing roads planning schools and social services Half a century on and though the GLC was abolished in 1986 the boroughs live on now working alongside a new metropolitan government headed by mayors Ken Livingstone and since 2008 Boris Johnson In *London's Boroughs at 50* Tony Travers examines the governing system that developed alongside the growing metropolis and by identifying the unique path each has taken over the years tells the fascinating story of how our remarkably diverse boroughs have not only survived but actively shaped both the city and the lives of its inhabitants in their impressive fifty year history
