

The New Imperialism

Hugh Seton-Watson

The New Imperialism:

America V. G. Kiernan, 2005-06-17 The invasion and occupation of Iraq have sparked considerable discussion about the nature of American imperialism but most of it is focused on the short term The classical historical approach of this book provides a convincing and compelling analysis of the different phases of American imperialism which have now led to America becoming a global hegemon without any serious rivals Victor Kiernan one of the world's most respected historians has used his nuanced knowledge of history literature and politics to trace the evolution of the American Empire he includes accounts of relations between Indians and white settlers readings of the work of Melville and Whitman and an analysis of the way that money and politics became so closely intertwined Eric Hobsbawm's preface provides an insight into his own thoughts on American imperialism and a valuable introduction to Victor Kiernan's work Together they shed useful light on today's urgent debates about the uses and misuses of seemingly unlimited military power a lack of respect for international agreements and the right to pre-emptive defense

The New Imperialism Hugh Seton-Watson, 1971

The New Imperialism David Harvey, 2003-10-02 People around the world are confused and concerned Is it a sign of strength or of weakness that the US has suddenly shifted from a politics of consensus to one of coercion on the world stage What was really at stake in the war on Iraq Was it all about oil and if not what else was involved What role has a sagging economy played in pushing the US into foreign adventurism and what difference does it make that neo-conservatives rather than neo-liberals are now in power What exactly is the relationship between US militarism abroad and domestic politics These are the questions taken up in this compelling and original book Closely argued but clearly written The New Imperialism builds a conceptual framework to expose the underlying forces at work behind these momentous shifts in US policies and politics The compulsions behind the projection of US power on the world as a new imperialism are here for the first time laid bare for all to see This new paperback edition contains an Afterword written to coincide with the result of the 2004 American presidential election

The "new Imperialism" Harrison M. Wright, 1976

The New Imperialism Robert Biel, 2000-08 This volume seeks to deepen our understanding of the complex and constantly evolving ways in which modern capitalism in the age of globalisation works It explains and illuminates the processes institutions and policies involved

The New Age of Empire Kehinde Andrews, 2021-03-02 A damning exploration of the many ways in which the effects and logic of anti-black colonialism continue to inform our modern world Colonialism and imperialism are often thought to be distant memories whether they're glorified in Britain's collective nostalgia or taught as a sin of the past in history classes This idea is bolstered by the emergence of India China Argentina and other non-western nations as leading world powers Multiculturalism immigration and globalization have led traditionalists to fear that the west is in decline and that white people are rapidly being left behind progressives and reactionaries alike espouse the belief that we live in a post-racial society But imperialism as Kehinde Andrews argues is alive and well It's just taken a new form one in which the U S and not Europe is at the center of Western

dominion and imperial power looks more like racial capitalism than the expansion of colonial holdings The International Monetary Fund World Bank World Trade Organization and even the United Nations are only some of these modern mechanisms of Western imperialism Yet these imperialist logics and tactics are not limited to just the west or to white people as in the neocolonial relationship between China and Africa Diving deep into the concepts of racial capitalism and racial patriarchy Andrews adds nuance and context to these often over simplified narratives challenging the right and the left in equal measure Andrews takes the reader from genocide to slavery to colonialism deftly explaining the histories of these phenomena how their justifications are linked and how they continue to shape our world to this day The New Age of Empire is a damning indictment of white centered ideologies from Marxism to neoliberalism and a reminder that our histories are never really over

Teaching Against Global Capitalism and the New Imperialism Peter McLaren, Ramin Farahmandpur, 2005 This book will address a number of urgent themes in education today that include multiculturalism the politics of whiteness the globalization of capital neoliberalism postmodernism imperialism and current debates in Marxist social theory The above themes will be linked to critical educational praxis particularly to teaching activities within urban schools Finally the book will develop the basis for a wider political project directed at resisting and transforming economic exploitation cultural homogenization political repression and gender inequality Recent and widespread scholarly attention has been given to the unabated mercilessness of global capitalism Little opposition exists as capital runs amok unhampered and undisturbed by the tectonic upheaval that is occurring in the geopolitical landscape that has recently witnessed the collapse of the Soviet Union and the regimes of the Eastern Bloc As we examine education policies within the context of economic globalization we attempt to address the extent to which the pedagogy and politics of everyday life has fallen under the sway of what we identify as cultural and economic imperialism Finally the book raises a number of urgent questions What are the current limitations to educational reform efforts among the educational left What are some of the problems associated with certain developments within postmodern education How can a return to Marxist theory and revolutionary politics revitalize the educational left at a time when capitalism appears to be unstoppable What actions need to be taken in both local and global arenas to overcome the exploitation that the globalization of capital has wreaked upon the world

The new imperialism, 2014 **Disraeli and the Rise of a New Imperialism** C. C. Eldridge, 1996 This work provides a study of Benjamin Disraeli one of the most enigmatic British political characters of the 19th century Later generations associated the name of Disraeli with an awakening of the imperial spirit which they dubbed the New Imperialism Was Disraeli a prophet and pioneer of the New Imperialism or merely a charlatan intent on short term political gain Cold Peace Janusz Bugajski, 2004-11-30 Examines the evidence for Russian expansionism in all parts of Eastern Europe analyzes Moscow's objectives and strategies and outlines measures for ensuring the region's commitment to democracy and Western integration
