Why Worry about the Gradual Loss of Our Liberties?

David L. Wood, 2003 In the light of widespread incomplete understanding and appreciation of the powerful and successful system of Capitalism Dr Wood has undertaken the project of clarification of the true concepts of the system that took this United States from its small impoverished state to become the most powerful nation among the countries of the world By stark contrast the failure of Socialism the competing system of societal thought and organization nonetheless still enjoys a large but unwarranted support due to extensive educational one sided indoctrination It is surprising that so much of the program of the socialist agenda by gradual infiltration has become a part of today s political discourse and law

The 10

Big Lies About America Michael Medved, 2009-10-13 It ain t so much the things we don t know that get us into trouble nineteenth century humorist Josh Billings remarked It s the things we know that just ain t so In this bold New York Times bestseller acclaimed author and talk radio host Michael Medved zeroes in on ten of the biggest fallacies that millions of Americans believe about our country in spite of incontrovertible evidence to the contrary The Big Lies exposed and dissected include America was founded on genocide against Native Americans The United States is uniquely guilty for the crime of slavery and built its wealth on stolen African labor Aggressive governmental programs offer the only remedy for economic downturns and poverty The Founders intended a secular not Christian nation Each of the ten lies is a grotesque propagandistic misrepresentation of the historical record Medved s witty well documented rebuttal supplies the ammunition

necessary to fire back the next time somebody tries to recycle destructive distortions about our nation **La Familia**
Richard Griswold del Castillo,1991-01-31 In detailed historical analyses of Mexican immigration economic class struggle
intermarriage urbanization and industrialization regional differences and discrimination and prejudice La Familia
demonstrates how such social and economic factors have contributed to the contemporary diversity of the Mexican American
family By comparing their family experience with those of European immigrants he discloses important dimensions of
Mexican American ethnicity **Ending Big Government** Michael Dahlen,2016-02 Statism denotes any system of big
government a government that gains power at the expense of individual freedom a government that uses its power to
redistribute wealth and regulate the economy Laissez faire capitalism by contrast is the system of limited government the
system of economic and political freedom It is a system that has created more wealth and lifted more people out of poverty
than any other system Yet it is relentlessly demonized We are told that the free market is impractical prone to crises
depressions and coercive monopolies Michael Dahlen dispels these and many other myths He shows that a laissez faire
capitalist system is not only practical he shows that it is moral as it is the only system that recognizes each individual s
inalienable right to his own life A provocative weave of history philosophy and political economy Ending Big Government The
Essential Case for Capitalism and Freedom shows that capitalism is incontestably superior to statism
