Signs of Borges Sylvia Molloy, 1994 Publisher description Borges's sustained practice of the uncanny gives rise in his texts to endless tensions between illusion and meaning and to the competing desires for fragmentation dispersal and stability Molloy traces the movement of Borges's own writing by repeatedly spanning the boundaries of genre and cutting across the conventional separations of narrative lyric and essay fact and fiction Rather than seeking to resolve the tensions and conflicts she preserves and develops them thereby maintaining the potential of these texts to disturb At the site of these tensions Molloy locates the play between meaning and meaningless that occurs in Borges's texts From this vantage point his strategies of deception recourse to simulacra inquisitorial urge to unsettle binarism and distrust of the permanent all that makes Borges Borges are examined with unmatched skill and acuity

Severo Sarduy and the Neo-baroque Image of Thought in the Visual Arts Rolando Perez, 2012 Severo Sarduy never enjoyed the same level of notoriety as did other Latin American writers On the other hand he never lacked for excellent critical interpretations of his work from critics like Roberto Gonz lez Echevarra Ren c Prieto Gustavo Guerrero and other reputable scholars Missing however from what is otherwise an impressive body of critical commentary is a study of the importance of painting and architecture first to his theory and second to his creative work In order to fill this lacuna in

Sarduy studies Rolando Pérez's book undertakes a critical approach to Sarduy's essays *Barroco Escrito sobre un cuerpo Barroco y neobarroco* and *La simulación* from the stand point of art history. In short, no book on Sarduy until now has traced the multifaceted art historical background that informed the work of this challenging and exciting writer. It will be a book that many a critic of Sarduy and the Latin American baroque will consult in years to come. *Sub-versions of the Archive* Carlos Riobó, 2010-12-29

Sub Versions of the Archive Manuel Puig's and Severo Sarduy's *Alternative Identities* analyzes recent theories of the archive to examine how Manuel Puig and Severo Sarduy reformulate the Latin American literary tradition. This study focuses on eclectic theories of the archive as both repository and danger drawing from an array of sources both within and outside the Hispanic literary tradition from Borges Foucault Arrom Derrida González Echevarría and Guillory to digital media and biotechnology. This book also applies theories of cultural contamination Maria Lugones and symbolic capital Pierre Bourdieu to the novels of Puig and Sarduy to explore the representation of marginal cultures within a body of literature that previously altered or elided these subaltern cultures from the tradition. Through close readings and critical theoretical applications this book demonstrates how archival fiction continues to be one of the most popular strategies among Latin American novelists and most importantly how they have successfully managed to find new ways to inscribe their alternative fictions within this tradition. Puig's and Sarduy's novels reproduce discourses popular culture and the mass media that lack prestige within the traditional archive. These discourses mirror realities of marginal groups gay people children the poor the illiterate women and racial minorities. Their cultural variants sub versions of hegemonic masterstories are endowed with truth bearing power for them but were previously left out of the archive as legitimate novelistic models. To date this is the only study of contemporary Latin American fiction that puts current theories of the archive especially that of Roberto González Echevarría to practice in such a systematic way. Riobó's analysis of how Puig and Sarduy reformulate the Latin American canon is both a necessary complement of González Echevarría's work and an intelligent answer to the first of his projected masterstories. Riobó's multidisciplinary approach
