

The Necessity of Choice

Nineteenth-Century Political Thought

Louis Hartz

The Necessity Of Choice Nineteenth Century Political Thought

Ruth O'Brien

The Necessity Of Choice Nineteenth Century Political Thought:

The Necessity of Choice Louis Hartz, 2011-12-31 Louis Hartz is best known for his classic study *The Liberal Tradition in America*. At Harvard University his lecture course on nineteenth century politics and ideologies was memorable. Through the editorial hand of Paul Roazen we can now share the experience of Hartz's considerable contributions to the theory of politics. At the root of Hartz's work is the belief that revolution is not produced by misery but by pressure of a new system on an old one. This approach enables him to explain sharp differences in revolutionary traditions. Because America essentially was a liberal society from its beginning and had no need for revolutions, America also lacked reactionaries and lacked a tradition of genuine conservatism characteristic of European thought. In lectures embracing Rousseau, Burke, Comte, Hegel, Mill, and Marx among others, Hartz develops a keen sense of the delicate balance between the role of the state in both enhancing and limiting personal freedom. Hartz notably insisted on the autonomy of intellectual life and the necessity of individual choice as an essential ingredient of liberty.

The Conundrum of Class Martin J. Burke, 1995-09 Martin Burke traces the surprisingly complicated history of the idea of class in America from the forming of a new nation to the heart of the Gilded Age. Surveying American political, social, and intellectual life from the late 17th to the end of the 19th century, Burke examines in detail the contested discourse about equality, the way Americans thought and wrote about class, class relations, and their meaning in society. Burke explores a remarkable range of thought to establish the boundaries of class and the language used to describe it in the works of leading political figures, social reformers, and moral philosophers. He traces a shift from class as a legal category of ranks and orders to socio-economic divisions based on occupations and income. Throughout the century he finds no permanent consensus about the meaning of class in America and instead describes a culture of conflicting ideas and opinions.

Reconsidering American Liberalism James Young, 2018-02-06 Forty years ago Louis Hartz surveyed American political thought in his classic *The Liberal Tradition in America*. He concluded that American politics was based on a broad liberal consensus made possible by a unique American historical experience, a thesis that seemed to minimize the role of political conflict. Today, with conflict on the rise and with much of liberalism in disarray, James P. Young revisits these questions to reevaluate Hartz's interpretation of American politics. Young's treatment of key movements in our history, especially Puritanism and republicanism's early contribution to the Revolution and the Constitution, demonstrates in the spirit of Dewey and others that the liberal tradition is richer and more complex than Hartz and most contemporary theorists have allowed. The breadth of Young's account is unrivaled. *Reconsidering American Liberalism* gives voice not just to Locke, Jefferson, Hamilton, Madison, Lincoln, and Dewey but also to Rawls, Shklar, Kateb, Wolin, and Walzer. In addition to broad discussions of all the major figures in over 300 years of political thought, with Lincoln looming particularly large, Young touches upon modern feminism and conservatism, multiculturalism, postmodernism, rights-based liberalism, and social democracy. Out of these contemporary materials, Young synthesizes a new position: a smarter and tougher liberalism, not just

forged from historical materials but reshaped in the rough and tumble of contemporary thought and politics This exceptionally timely study is both a powerful survey of the whole of U S political thought and a trenchant critique of contemporary political debates At a time of acrimony and confusion in our national politics Young enables us to see that salvaging a viable future depends upon our understanding how we have reached this point Never without his own opinions Young is scrupulously fair to the widest range of thinkers and marvelously clear in getting to the heart of their ideas Although his book is a substantial contribution to political theory and the history of ideas it is always accessible and lively enough for the informed general reader It is essential reading for anyone who cares about the future of U S political thought or indeed about the future of the country itself

Edoardo Weiss Paul Roazen, 2017-12-04 Edoardo Weiss 1889 1970 was a favored disciple of Freud and is acknowledged as the founder of psychoanalysis in Italy Although he was the author of six books and over a hundred professional papers he has remained a shadowy figure In this volume Paul Roazen provides a definitive portrait of this notable individual Based on his extensive interviews with Weiss Roazen evaluates the significance of Weiss s own contribution to psychoanalytic thought and practice and presents a fascinating picture of the reception given to Freud s thought in Italy Despite his prominence Weiss s life and work has not been well documented Roazen shows that his links to modern Italian history and culture were extensive and closely bound to the political and social conflicts of the twentieth century Born in the cosmopolitan city of Trieste Weiss was the nephew of the novelist Italo Svevo whose masterpiece *The Confessions of Zeno* remains one of the principle psychoanalytic novels in modern literature Another Triestine Umberto Saba one of the great modern Italian poets was Weiss s patient Weiss s career also intersected with Italian politics The daughter of one of Mussolini s cabinet ministers was one of his patients an analysis that has raised questions about Freud s own relation to the Italian dictator Roazen documents Weiss s tribulations in trying to establish a psychoanalytic culture opposed not only by the fascist regime but the Catholic Church In spite of these instances of opposition Roazen shows that the Italian intellectual world was highly receptive to Freudian ideas and that psychoanalysis is flourishing today in Italy Weiss has never before been recognized as a front rank analytic thinker but he was leader of the movement in Italy a country that mattered deeply to Freud This along with the genuine intimacy of his contacts with Freud makes Weiss a figure of considerable interest to students of psychoanalysis Italian culture and intellectual history

Encyclopedia of Historians and Historical Writing Kelly Boyd, 2019-10-09 The *Encyclopedia of Historians and Historical Writing* contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the *Encyclopedia* includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of

sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies

On Hallowed Ground John P. Diggins, 2000-01-01 Contests the validity of Marxist and poststructuralist theory in a review of the life and legacy of Abraham Lincoln Liberty and Justice for All? Kathleen G. Donohue, 2012 A wide ranging exploration of the culture of American politics in the early decades of the Cold War

Out of Many, One Ruth O'Brien, 2013-05-21 Feared by conservatives and embraced by liberals when he entered the White House Barack Obama has since been battered by criticism from both sides In Out of Many One Ruth O'Brien explains why We are accustomed to seeing politicians supporting either a minimalist state characterized by unfettered capitalism and individual rights or a relatively strong welfare state and regulatory capitalism Obama O'Brien argues represents the values of a lesser known third tradition in American political thought that defies the usual left right categorization Bearing traces of Baruch Spinoza John Dewey and Saul Alinsky Obama's progressivism embraces the ideas of mutual reliance and collective responsibility and adopts an interconnected view of the individual and the state So while Obama might emphasize difference he rejects identity politics which can create permanent minorities and diminish individual agency Analyzing Obama's major legislative victories financial regulation health care and the stimulus package O'Brien shows how they reflect a stakeholder society that neither regulates in the manner of the New Deal nor deregulates Instead Obama focuses on negotiated rule making and allows executive branch agencies to fill in the details when dealing with a deadlocked Congress Similarly his commitment to difference and his resistance to universal mandates underlies his reluctance to advocate for human rights as much as many on the Democratic left had hoped By establishing Obama within the context of a much longer and broader political tradition this book sheds critical light on both the political and philosophical underpinnings of his presidency and a fundamental shift in American political thought

The Hero in History Sidney Hook, The interaction of the individual in history and politics has posed major theoretical questions of historical analysis for the past two centuries is social destiny shaped by forces beyond the power of the individual or can the future be mastered by collective effort under the outstanding leadership of heroic men and women In this classic study a major philosopher and social theorist of the twentieth century offers a searching examination of the conditions under which individuals make choices that significantly alter the course of historical events and presents a scathing critique of various forms of social determinism that deny the individual freedom of action or a decisive role in history The myth of the hero as the savior of the tribe or nation as Hook notes is older than written history Until the nineteenth century the hero functioned not merely as a cult figure but as a principle of historical explanation a key to the rise and fall of countries and even of cultures The exaggerations and omissions of this point of view produced an equally simplistic reaction with the formulation of determinist historiographies in which physical racial social and economic forces replaced individuals as the dynamic factors in the development of events Hook singles out orthodox Marxism as the most all encompassing determinist system and

subjects the historical thinking of Engels Plekhanov and Trotsky to sharp and meticulous scrutiny Using the Russian Revolution as a test case Hook observes that while the February 1917 Revolution was an inevitable development the October revolution was according to the best historical evidence contingent upon the personality and actions of Lenin In his 1978 reconsideration of the subject of heroism appearing new to this edition Hook defines a middle ground between the extremes of voluntarism and determinism that explains why the presence of strong personalities are decisive under certain conditions while under others key actors would appear to be almost interchangeable He points us toward an understanding of a fascinating problem in history and raises essential questions about the role of great men and women in a democracy The Hero in History will be of interest to intellectual historians philosophers political scientists and sociologists *The American Liberal Tradition Reconsidered* Mark Hulliung, 2010 Eight prominent scholars consider whether Louis Hartz's interpretation of liberalism in his classic 1955 book should be repudiated or updated and whether a study of America as a liberal society is still a rewarding undertaking

The Necessity Of Choice Nineteenth Century Political Thought Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free The Necessity Of Choice Nineteenth Century Political Thought PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free The Necessity Of Choice Nineteenth Century Political Thought PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the

benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of The Necessity Of Choice Nineteenth Century Political Thought free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.
