natural wonders Based on twenty five years of research this fascinating ride through history chronicles a hundred years of Colorado River water development demonstrates how the National Environmental Policy Act came to be and challenges the myth that the Sierra Club saved the Grand Canyon It also shows how the Sierra Club parlayed public perception as the canyon s savior into the leadership of the modern environmental movement after the National Environmental Policy Act became law The tale of the Sierra Club stopping the dams has become so entrenched and so embellished that many historians popular writers and filmmakers have ignored the documented historical record This epic story puts the events from 1963 1968 into the broader context of Colorado River water development and debunks fifty years of Colorado River and Grand Canyon myths
