Music and Solidarity Felicity Laurence,2017-07-12 The philosopher Christopher Small suggests that musical meanings are concerned with relationships both with other human beings and with the world and that music functions as a means of exploration affirmation and celebration of those relationships If members of different social groups have different values or different concepts of ideal relationships then the kinds of performances that enact those relationships will differ from one another Using music to express benevolent intentions is not in general one of its most obvious functions In fact military music has been used throughout history to destroy cross cultural communion Music is also a powerful and ubiquitous tool in propaganda and in facilitating various political projects in all kinds of inventive ways that have nothing much to do with the pursuit of peaceful and cooperative intercultural understanding or with helping people address issues of injustice This text moves far beyond the knowledge of music s power upon humans however this may be conceived and explained It addresses a field of inquiry that is still a tiny endeavor at least in comparison with all other academic efforts in the world The sparseness of serious theoretical engagement with the topic of music s potential role in the area of peace and policy is echoed by how little music is directly used in the real world for building a more humane consciousness Finding ways to that goal is the

purpose of this work *Billboard* ,1967-02-11 In its 114th year Billboard remains the world's premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends
